Furnishing
Because our vehicles undergo continuous development, equipment and specifications may not be as illustrated or described by Porsche in this manual. Items of equipment are sometimes optional or vary depending on the country in which the vehicle is sold. For more information on retrofit equipment, please contact your Porsche partner. Because of different legal requirements in individual countries, the equipment in your vehicle may vary from that described in this manual. Should your Porsche be fitted with any equipment not described in this manual, your Porsche partner will be glad to provide information concerning correct operation and care of the items concerned.

Detailed information about the services
Detailed information about the services is available on the Internet at www.porsche.com/connect.

The Porsche Connect operating instructions
The Porsche Connect operating instructions do not replace the Driver’s Manual.
You can find further information about your vehicle in the Driver’s Manual.
Pay particular attention to the warning and safety instructions.

Warnings and symbols
Various types of safety instructions are used in these instructions.

⚠️ DANGER
Serious injury or death

Failure to observe warnings in the “Danger” category will result in serious injury or death.

⚠️ WARNING
Possible serious injury or death

Failure to observe warnings in the “Warning” category can result in serious injury or death.

⚠️ CAUTION
Possible moderate or minor injury

Failure to observe warnings in the “Caution” category can result in moderate or minor injuries.

⚠️ NOTICE
Possible vehicle damage

Failure to observe warnings in the “Notice” category can result in damage to the vehicle.

Information
Additional information is indicated using the word "Information".

✔️ Conditions that must be met in order to use a function.

➢ Instruction that you must follow.
1. If an instruction comprises several steps, these are numbered.
➢ Notice on where you can find further important information on a topic.

Installing & Using

Depending on model, country and equipment, registration processes and features of the Porsche Connect services may deviate.

Avoid distraction

If you use the PCM or other components in the vehicle while driving, you are distracted from the traffic and may not react in time to dangerous situations. For your safety, some functions are only available when the vehicle is stationary.

- Only use the multi-function steering wheel, infotainment system, etc. while driving if the traffic situation permits. In case of doubt, stop the vehicle when it is safe to do so.
- Do not use mobile phones or other mobile devices while driving.
- Always use hands-free equipment.
- Do not reach through the steering wheel spokes while driving. Otherwise, you may not be able to react in time to dangerous situations.

Registration and activation

Registration in My Porsche

✓ E-mail for registration at My Porsche has been received.
✓ Porsche ID account is activated.

1. Call up My Porsche.
   (Displayed at the top left of the Porsche website, depending on country.)

2. Log in using your personal access data (Porsche ID and password).
   The homepage or the Porsche Connect app shows the 8-digit pairing code, which you need for using Porsche Connect services in your vehicle. The pairing code can be sent from My Porsche to a mobile phone via text message.

3. Note the pairing code for entry in the Porsche Communication Management (PCM).

Information

If you have not received an e-mail for registration with the associated Porsche ID, please contact your Porsche partner.

Activating services via My Porsche

Before starting to use the Porsche Connect services for the first time, they must be activated.

1. Log in to My Porsche with the Porsche ID.
   (Displayed at the top left of the Porsche website, depending on country.)

2. Select the Services tab.
   Available services are displayed.

3. Select and activate or configure the desired service.

Information

– In some countries, verification of customer identity is required for use of the embedded SIM card for legal reasons. For this purpose, customer identity must be checked by means of an identification document before activation of Porsche Connect services. Verification is performed by a third-party provider (IDnow) in the form of a video call.
– For further information on activation and personal verification, please also refer to Videos & Instructions as well as Questions & Answers on www.porsche.com/connect.

Connecting and pairing the vehicle

Establishing data connection via embedded SIM card (availability dependent on country)

✓ The SIM card reader is empty.
✓ PCM phone is switched on. (SET Porsche Connect Switch on telephone function)

The data connection is established immediately when the ignition is switched on.

Information

If a data connection cannot be established, check the following:

– PCM phone is switched on.
– The vehicle is in an area with sufficient network reception (not a coverage blackspot).
– Private mode is deactivated.
– Restart the PCM if necessary.
Displaying data packages

- **APPS ➤ Data packages**
  Information about the booked data package is displayed in some markets.

**Establishing data connection via external SIM card**

An inserted external SIM card deactivates the function of the embedded SIM card (availability dependent on country). Additional costs may be incurred for the data connection (e.g. due to data roaming).

1. **INSERT SIM card (mini-SIM, dimensions: 25 x 15 mm).** The missing corner must be at the front left with the chip facing downwards.

2. **SIM card with PIN:**
   - If necessary, enter the PIN for the external SIM card and confirm with **OK**.
   - Select **Store PIN**.

3. **Confirm the prompt for establishing the data connection.** The data connection is established.

4. **To remove the external SIM card, press on the inserted card and remove it.**

**NOTICE**

If you are using a SIM card adapter, the SIM card may fall out of the adapter due to vibrations and components of the card may get stuck in the drive.

- Do not use adapters for SIM cards.

**Information**

If a data connection cannot be established, check the following:
- PCM phone is switched on.
- External SIM card has sufficient data volume and is inserted correctly.
- External SIM card is not damaged and is working properly.
- APN settings (Internet access) are correct. The APN settings can be checked by contacting the network operator.
- Abroad: Data roaming is allowed on the external SIM card and enabled in the PCM.
- The vehicle is in an area with sufficient network reception (not a coverage blackspot).
- Restart the PCM if necessary.

**Selecting access point for external SIM card**

If several access points are available, the message **Several access points (APN) are available. Please select one** appears. A list of available access points (APNs) is displayed.

1. **Select the desired access point (APN).**

2. **If there is no access point configured, contact the mobile phone provider to obtain the APN settings.** To configure the APN settings, select **Options ➤ Data connections ➤ Configure access point.**

**Establishing data connection via an external WiFi hotspot (availability dependent on country)**

- The SIM card reader is empty.
- Vehicles with embedded SIM card (availability dependent on country): PCM phone is switched off. (SET ➤ Porsche Connect ➤ Switch off telephone function)

1. **Select or ** in the header (depending on the connection status) ➤ Options ➤ WiFi ➤ Search for WiFi hotspot**

2. **Search for a WiFi hotspot (e.g. public hotspot or the mobile phone’s personal hotspot) and enter WiFi access data in the PCM.** When entering the data, pay attention to upper and lower case. A connection is established to the external WiFi hotspot.

**Logging in Porsche Connect user (Porsche ID)**

The Porsche ID is linked to the PCM using a pairing code. This is required for using some Connect services in order to retrieve personal settings from My Porsche.
Granting remote access authorisation
In order to use services that are controlled via My Porsche or the Porsche Connect App, a remote access authorisation must first be assigned in the Porsche Communication Management (PCM).

1. SET ▶ Porsche Connect
2. Select Remote access authorisation ▶ Grant remote access authorisation.
3. Confirm message window with Grant.
4. Enter the pairing code of the main user.

Remote access authorisation can be deactivated or activated using the function Private mode temporarily either globally or for individual services.

1. SET ▶ Porsche Connect
2. Select Private mode ▶ On.

Communication between vehicle and Porsche Connect App as well as My Porsche is disabled.

Vehicle-specific information is not transmitted and no vehicle settings can be made via the app or My Porsche.

Security code
The assignment of a security code is necessary for the use of some remote services via the Porsche Connect App or My Porsche.

The Security code must be assigned for use of the following services:
- Opening and locking the vehicle via the Porsche Connect App
- Deactivating the Porsche Vehicle Tracking System (PVTS)
- Activation of remote functions for the secondary user

Configuring & Using

Using services via My Porsche
Activated services can be configured and used via My Porsche (availability dependent on country).

1. Call up My Porsche. (Displayed at the top left of the Porsche website, depending on country.)
2. Log in using your personal access data (Porsche ID and password).
3. The security code can be set, changed or reset in the user settings.

Displaying service overview in the PCM

1. APPS ▶ Options ▶ Service overview

Information about the services purchased and contract duration is displayed.

Porsche Connect Logging user (Porsche ID) out of the PCM

✓ A Porsche Connect user is created and registered.

1. APPS ▶ Options ▶ Porsche ID settings
2. Select the desired Porsche user ▶ Porsche ID logout

Updating content in the PCM

1. APPS ▶ Options ▶ Reload page

The contents of the purchased services are updated.
Information

- The Porsche Connect services (including the Car Connect services, but not the Safety and Security services) offer a free inclusive period, which varies in length for each services package and country, but is always at least 3 months. Further information about the free inclusive periods as well as subsequent costs and information about the availability of individual services for your country is available online at www.porsche.com/connect or from your Porsche partner.

- Depending on the country, the Porsche Connect Services can be used via the integrated SIM or via a data-enabled, external SIM card. A separate, fee-based contract with a mobile phone provider is required for the external SIM card.

- You may incur additional charges when receiving data packages from the Internet, depending on your mobile phone tariff and whether you are abroad. A flat-rate data plan is recommended.

- The availability, scope and provider of the services may vary depending on the country, model year, device and tariff.
Topics
On the following pages you will find topics listed in alphabetical order.
Apple CarPlay

Apple CarPlay makes iPhone apps available in the Porsche Communication Management (PCM). You can use the Siri voice recognition system to send and answer text messages as well as process voice commands.

Information

- We recommend that you install the latest iOS version.
- Only those apps in the iPhone that are supported by Apple CarPlay are displayed. For information on supported apps, go to www.apple.com/ios/carplay.
- The displayed content and features of the Apple CarPlay function are provided solely by the connected iPhone.
- When Apple CarPlay is used, any active Bluetooth® connections (e.g. for telephony, media playback or news) are automatically disconnected. An inserted external SIM card cannot be used for making calls while this app is in use.
- Some apps require an active data connection. You may incur additional charges, depending on your mobile phone tariff, and particularly if using abroad. The use of a flat-rate data plan is recommended.

Opening Apple CarPlay in the PCM

Fig. 2: USB port in armrest

In order to call up the main menu in Apple CarPlay, select the Home button on the touch display of the PCM.

- To switch to the main functions of the PCM, select Apple CarPlay Porsche.
- or -

Select any function (e.g. MEDIA).

Operating Apple CarPlay using Siri voice recognition

Starting Siri

- Siri has been enabled in the settings of the iPhone you are using.
- The ignition and PCM are switched on.
- No telephone call is in progress.
- ParkAssist is not active.
- PCM voice control is not active.

Fig. 3: Voice control button on control stalk

1. Press and hold the button on the control stalk.
2. Say your desired voice command.

Opening Apple CarPlay in the PCM

Fig. 2: USB port in armrest

In order to call up the main menu in Apple CarPlay, select the Home button on the touch display of the PCM.

- To switch to the main functions of the PCM, select Apple CarPlay Porsche.
- or -

Select any function (e.g. MEDIA).

Operating Apple CarPlay using Siri voice recognition

Starting Siri

- Siri has been enabled in the settings of the iPhone you are using.
- The ignition and PCM are switched on.
- No telephone call is in progress.
- ParkAssist is not active.
- PCM voice control is not active.

Fig. 3: Voice control button on control stalk

1. Press and hold the button on the control stalk.
2. Say your desired voice command.
Ending Siri
✓ Siri is active and waiting for a voice command.
✓ Press button on the control stalk.
A fading acoustic signal sounds.

Switching between Apple CarPlay and use of the iPhone as an iPod
If the connected iPhone is connected as an iPod, Apple CarPlay is not available. You can switch between using the iPhone as an iPod and Apple CarPlay using the Device Manager.

1. To call up the Device Manager, select or in the header (depending on the connection status).
2. Select the Apple CarPlay icon on the iPhone you are using.
– or –
Select the iPod icon on the iPhone you are using.
The icon of the currently active application of the iPhone is highlighted in colour.

Calling up Wireless Apple CarPlay (availability dependent on country)
Wireless CarPlay makes it possible to use Apple CarPlay without a cable. Wireless CarPlay only ever supports one active mobile phone at a time.
✓ Bluetooth function of the mobile phone is activated and is visible to other devices.
✓ WiFi enabled on the mobile phone.

1. Select or (depending on the connection status) in the header or, in the menu under

Connection Manager, select Apple CarPlay or Link.
2. Select the device from the list.
3. Confirm that Apple CarPlay is being used.
Apple CarPlay is opened. Available apps are displayed.

If the iPhone has been connected at least once, Apple CarPlay will start automatically when you get into the vehicle. The mobile phone can thus stay in your bag or trouser pocket, for example. (Bluetooth® and WiFi functions must be activated).

To switch from another menu item to Apple CarPlay, select Apple CarPlay.

Removing a saved iPhone from the device list
1. Select or in the header (depending on the connection status) Options.
2. Select the desired device.
**Dictate**

You can use the Dictation service to record a message via voice control. This service is not available in all languages and markets, and depends on the mobile phone used. Voice control can be interrupted in order to say other voice commands. Activating/deactivating voice control interruption in the PCM:

- Select **SET** ➤ **System settings** ➤ **Voice control** ➤ **Interrupt voice control**.

**Connecting a mobile phone via Bluetooth**

- Mobile phone’s Bluetooth® function is activated and visible to other devices.
- The PCM’s Bluetooth® function is activated.

1. PHONE ➤ Search for new phone
2. Select a mobile phone from the device list. A 6-digit Bluetooth® code is generated and displayed in the PCM and on the mobile phone.
3. Compare the Bluetooth® code in the PCM and on the mobile phone.
4. If the Bluetooth® code in the mobile phone match, confirm. Enter the PIN for the external SIM card in the PCM if necessary.

When the phone is successfully connected, the numeric input (KEYPAD ➤ menu) is displayed in the PCM.

**Connecting a mobile phone (Windows® and iOS operating system)**

For mobile phones with Windows® and iOS operating systems, we recommend initiating the connection from the mobile phone:

1. Search for available devices in the mobile phone’s Bluetooth® menu. Press 📲 or 📞 in the header (depending on the connection status) to make the PCM visible.
2. Select the PCM from the list of available devices. The Bluetooth® device name of the PCM can be displayed in the Device manager by selecting Options ➤ Bluetooth ➤ Bluetooth name.

**Calling up voice control**

**WARNING** Impaired voice recognition

Your voice may change in stressful situations. This can lead to the desired telephone connection failing or not coming about quickly enough under certain circumstances.

- Do not use voice control in an emergency.
- Enter the emergency number via the touch display.

![Fig. 4: Voice control button on control stalk](image)

**Actuating voice control**

- Ignition is switched on.
- No telephone call is in progress.
- Parking aid is not active.

1. Briefly press 🎤 on the control stalk. A rising acoustic signal is heard and the symbol 📱 for voice control appears on the PCM.
2. Say the voice command.

**Deactivating voice control**

- Voice control is active.

- Press button 🎤 on the control stalk. A fading acoustic signal sounds.

**Information**

The dialogue can be paused by tapping on the microphone symbol 🎤 and started again by tapping again.
Other functions of the voice control button

The button on the control stalk can activate different functions, depending on the application:

- Skips a running announcement when pressed briefly.
- Interrupts the current dialogue when pressed briefly.
- Activates the Siri voice control system through a longer press.

Information

- Navigation announcements and traffic notices are not given during a dialogue.
- With voice control active, list entries can be selected via voice control, the rotary push button or the touch display.
- If the spoken voice command is not understood or if it cannot be interpreted, voice control responds with the question *Excuse me?* and the voice command can then be repeated.

Notes on communication using voice control

Note the following points when using voice control:

- Speak clearly and at a normal volume.
- Stress voice commands evenly, without long pauses in your speech.
- Do not speak when the voice control function is making an announcement.
- Reduce disruptive sounds caused by closing doors, windows and sliding roof, for example.
- Only the driver should issue voice commands, as the hands-free microphone is pointed towards the driver’s side.

Dictating and reading out messages

You can use the Message Dictation service to dictate text messages or e-mails, for example, and play incoming messages from the PCM.

- Data connection is established.
- Porsche Connect services are activated in My Porsche.
  - Please refer to chapter "Activating services via My Porsche" on page 3.
- The connected mobile phone supports the function.
- Voice control is active.

Dictating messages

Service cannot be used with Apple devices.

- Say the voice command:
  - Dictate (new) e-mail
  - or –
  - Dictate (new) text message
  The dictated message is displayed in the PCM for the user to check.

Reading out messages

- Say the voice command:
  - Read out e-mails
  - or –
  - Read out text messages
  The message is read out.

Dictating and reading out messages

You can use the Message Dictation service to dictate text messages or e-mails, for example, and play incoming messages from the PCM.

- Data connection is established.
- Porsche Connect services are activated in My Porsche.
  - Please refer to chapter "Activating services via My Porsche" on page 3.
- The connected mobile phone supports the function.
- Voice control is active.

Dictating messages

Service cannot be used with Apple devices.

- Say the voice command:
  - Dictate (new) e-mail
  - or –
  - Dictate (new) text message
  The dictated message is displayed in the PCM for the user to check.

Reading out messages

- Say the voice command:
  - Read out e-mails
  - or –
  - Read out text messages
  The message is read out.
# Finder

The **Finder** is the central search function in the Porsche Communication Managements (PCM) navigation. Information about the destination, such as restaurants, hotels, petrol stations or car parks, can be called up in Finder.

The destinations can be displayed in the current area, along the route, at the destination or at another location. The selected destination can be adopted as a navigation destination and saved as a favourite.

![Finder](image)

---

1. **NAV DEST** Points of interest.
   - Parking
   - Petrol stations
   - Hotels
   - Restaurants
   - E-charging stations (only for E-Hybrid vehicles)

2. Icon in the header • Select the desired option:
   - Nearby: Displays destinations in the vicinity of the vehicle.
   - Along the route: If route guidance is active, destinations along the route are displayed.
   - At destination: If route guidance is active, destinations at the destination are displayed.
   - At another location: Destinations at a desired location are displayed.

---

**Search for point of interest**

- Data connection is established.
- Porsche Connect services are activated in My Porsche.

> Please refer to chapter "Activating services via My Porsche" on page 3.

---

**1. NAV DEST Points of interest**

**2. The following categories, for example, can be searched for:**

<table>
<thead>
<tr>
<th>Category</th>
</tr>

</tr>
</tbody>
</table>

---

**3. Icon in the header • Select the desired option:**

- Nearby: Displays destinations in the vicinity of the vehicle.
- Along the route: If route guidance is active, destinations along the route are displayed.
- At destination: If route guidance is active, destinations at the destination are displayed.
- At another location: Destinations at a desired location are displayed.

---

**Search for point of interest**

- Data connection is established.
- Porsche Connect services are activated in My Porsche.

> Please refer to chapter "Activating services via My Porsche" on page 3.
My Porsche

My Porsche is the central platform for managing your vehicles, using relevant services and is the starting point for other available functions and services. Access to My Porsche is via your personal Porsche ID. You can implement personal settings relating to data synchronisation and data processing in your Porsche ID account.

The platform also provides various options for arranging service appointments, for example.

The services and functions that are available depend on model, country and equipment.

Logging into My Porsche

✔️ E-mail for registration at My Porsche has been received.
✔️ Porsche ID account is activated.

1. Open My Porsche.
   (Displayed at the top left of the Porsche website, depending on country.)

2. Enter login data (Porsche ID and password) and open My Porsche.

Information

If you have not received an e-mail for registration with the associated Porsche ID, please contact your Porsche partner.

Configure services

✔️ E-mail for registration at My Porsche has been received.
✔️ Porsche ID account is activated.

1. Open My Porsche.

   (Displayed at the top left of the Porsche website, depending on country.)

2. Log in using your personal access data (Porsche ID and password).

3. Select the Services tab.
   Available services are displayed.

4. Select the desired service.

5. Configure the service.

Adding a navigation destination

✔️ E-mail for registration at My Porsche has been received.
✔️ Porsche ID account is activated.

1. Open My Porsche.
   (Displayed at the top left of the Porsche website, depending on country.)

2. Log in using your personal access data (Porsche ID and password).

3. Select the Services tab.
   Available services are displayed.

4. Select the Navigation Plus service.

5. Select Add new destination.

6. Enter destination data.
   The destination is displayed in My Porsche and can be edited, selected, deleted or sent to the vehicle.
Navigation Plus

Real-time traffic
With the Real-time traffic service, the current traffic situation is accessed online in real time and the roads are shown in the Porsche Communication Management (PCM) marked in colour according to the traffic situation.

![Traffic situation marked in map view](image)

The following traffic flow information is displayed:
- Free lines: freely flowing traffic
- Yellow lines: slow-moving traffic
- Red lines: traffic jam
- Dark red lines: closed road

In addition, notifications regarding roadworks, accidents, black spots etc. are displayed.

Activating real-time traffic
- Data connection is established.
- Porsche Connect services are activated in My Porsche.
  🔺 Please refer to chapter "Activating services via My Porsche" on page 3.
- Online navigation is activated.
  🔺 Please refer to chapter "Activating online routing" on page 14.

Calling up a real-time traffic message
Opening a real-time traffic message will display corresponding details.
- Data connection is established.
- Porsche Connect services are activated in My Porsche.
  🔺 Please refer to chapter "Activating services via My Porsche" on page 3.
- Online navigation is activated.
  🔺 Please refer to chapter "Activating online routing" on page 14.

The destinations and favourites stored in My Porsche or via the Porsche Connect App are displayed.

1. NAV > MAP > Options > Navigation settings

2. Online navigation services > Select Online navigation.
   When route guidance is active, messages are displayed in the navigation map. A status symbol 🟢 appears in the header when real-time traffic is active.

1. NAV > Select FAV ✶

Online Routing
With the Online Routing option, additional online data is used in the route calculation in order to enable enhanced route guidance.

Activating online routing
- Data connection is established.
- Porsche Connect services are activated in My Porsche.
  🔺 Please refer to chapter "Activating services via My Porsche" on page 3.

Information
Online destinations that were stored under My Destinations, are deleted after 30 days.

Satellite maps
Under the menu item Google Earth, satellite data for displaying aerial images of buildings, roads and terrain can be used.
Online Map Update
With the Online Map Update service, the navigation system maps can be updated via the Internet.
- Data connection is established.
- Porsche Connect services are activated in My Porsche.
  - Please refer to chapter "Activating services via My Porsche" on page 3.
  - Updates for regions that are relevant for you are searched for automatically. As soon as an update is possible, a relevant notice is displayed in the PCM.

Smart routing
A smart route is created automatically as soon as an identical route is travelled twice.

Activating smart routing
1. NAV > MAP > (in the header)
2. Select Google Earth.

Smart routing

Panoramic view
The panoramic view is displayed in the detail list after the destination selection of an available point of interest (POI) on the right-hand edge of the PCM.

Fig. 7: Satellite map display
- Data connection is established.
- Porsche Connect services are activated in My Porsche.
  - Please refer to chapter "Activating services via My Porsche" on page 3.

Fig. 8: Panoramic view
- Data connection is established.
- Porsche Connect services are activated in My Porsche.
  - Please refer to chapter "Activating services via My Porsche" on page 3.
- Online navigation is activated.

- POI search (Point of Interest) under NAV Options Navigation settings
2. Under Smart routing activate function Smart routing.
   - The symbol is displayed at the bottom right of the map.

Accessing smart routing
- Smart routing is activated.
1. NAV > MAP
2. Select at the bottom right of the map.
3. Select the desired smart route from the list of suggestions.
4. Select Start.

Deleting Smart routing
Stored smart routes remain stored after the function is deactivated and must be deleted.
1. NAV > MAP > Options Navigation settings > Smart routing

Information
- Up to three destinations are created and up to three routes are available for each destination. Suggested routes are prioritised according to how frequently an identical route is travelled.
- The traffic situation for available smart routes is displayed depending on the current vehicle position.
- The PCM identifies whether the route is travelled during the week or at the weekend. Recorded smart routes are only displayed at the appropriate time - either at the weekend or on weekdays.
- Opening Smart routing stops active route guidance.
You can use the **News** service to display selected news feeds (news channels) or subscribed **Twitter** tweets in the Porsche Communication Management (PCM) according to your interests. You can have news and subscribed tweets read out from the PCM using voice control.

### Configuring news and Twitter in My Porsche

Five news feed channels are predefined in the PCM by default. Other news feeds can be added individually via My Porsche.

1. Call up **My Porsche**. 
   (Displayed at the top left of the Porsche website, depending on country.)
2. Log in using your personal access data (Porsche ID and password).
3. Select **Services** ➤ **News**.
4. Select the desired option:
   - **New** ➕: For adding new news feeds to the list.
   - **Search** ➕: For locating individual news feeds in the news list.
   - **Delete** ➖: For deleting individual news feeds from the list.
   - **Pencil icon** ✏️: For editing news feeds that have already been added.

### Adding a new news feed

1. Select **New** ➕.
2. Enter the URL of a message portal in the input field.

A suggested list of suitable news feeds is displayed.

3. Continue configuring the news feed (enter news feed description) and then select **Save**.

### Managing news in the PCM

The item or tweet is displayed in the interaction area on the right.

4. The text can be read out using the voice function via the speaker icon 🔊. Tapping again on the speaker icon 🔊 stops the read-out.

### Reading out News

You can read out recent news items or tweets from the PCM using the voice control feature.

### Activating voice control and reading out News

Fig. 9: Using voice function for news

- Data connection is established.
- Porsche Connect services are activated in My Porsche.
  > Please refer to chapter "Activating services via My Porsche" on page 3.
- Pairing code is entered in the PCM.
  > Please refer to chapter "Logging in Porsche Connect user (Porsche ID)" on page 4.

1. Select **APPS** ➤ **News** ꔥ.
2. (in the header) **News channel** ➔ or ➔
   Select Twitter.
3. **News item** ➔ or ➔
   Select tweet from the list.

Fig. 10: Voice control button on control stalk

- Ignition is switched on.
- No telephone call is in progress.
- Parking aid is not active.
- **News item** ➔ or ➔
  - **Tweet** is selected.
   A rising acoustic signal sounds and the icon for voice control appears in the PCM.
2. Say the voice command: **Read out News** ➔ or ➔
   **Read out tweet**.
   The selected News item or tweet is read out.
Porsche Connect App

The Porsche Connect app, which is available in some countries, can be used to network the mobile phone to the vehicle. This means that vehicle-specific information can be retrieved directly via the mobile phone and selected settings can be implemented on the vehicle using the app.

**WARNING**

Setting and operating while driving

Operating and making settings for the app while driving could distract you from the traffic situation. You may lose control of the vehicle.
- Operate and adjust settings only while the vehicle is stationary.

Personal POIs (Points of Interest), destinations from the address book or calendar entries can be transferred to the PCM from the mobile phone. Depending on the country, music tracks can be accessed using the music streaming function if the necessary apps have been installed and an account created.

The Porsche Connect App is divided into three main areas (footer):
- **Explore**
- **My Car**
- **My Account**

### Installing & using Porsche Connect App

**Logging into Porsche Connect App with Porsche ID**

1. When starting the app, select **Login or registration**.
2. Enter Porsche ID and password.
3. Select **Login**.

**Porsche Connect App Connecting to the PCM via WiFi**

- Porsche Connect App is installed on your mobile phone (download from Apple App Store or GOOGLE Play Store).
- Porsche Connect App has started.
- WiFi is enabled on the mobile phone.
- WiFi function is enabled on the PCM.

**Checking connection to the vehicle**

The connection test allows you to check the connection between the Porsche Connect App/mobile phone, the Porsche server and the vehicle.
- The data connection on the mobile phone is active.
- Porsche Connect App is connected to the PCM.
- Private mode is deactivated on the PCM.

- In the Porsche Connect App, select main area **My Account** ➢ **Connection to the vehicle**.
  Available content of the Porsche Connect App is displayed.

**Fig. 11: Opening the Device Manager**

![Opening the Device Manager](image)

- Display the WiFi access data of the PCM and establish a WiFi connection between your mobile phone and the PCM:
  a. Select **or** in the header (depending on the connection status) ➢ **Options** ➢ **Select PCM hotspot**.
    **Hotspot name** and **password** of the PCM are displayed.
  b. Enter the WiFi access data of the PCM into the WiFi settings on the mobile phone.

**Opening app content in the PCM**

- Select **APPS**.
  The available content of the Porsche Connect App is displayed.
If a connection to the vehicle cannot be established, check the following:
- Private mode is deactivated
- Data connection is established
- The vehicle is in an area with sufficient network reception (not a coverage blackspot)
- The vehicle is connected to the Porsche Connect App.

If the Porsche server cannot be reached, contact Porsche Connect Support.

**Transferring navigation destinations to the PCM**

- A Porsche Connect user (Porsche ID) is registered.
- Please refer to chapter "Logging in Porsche Connect user (Porsche ID)" on page 4.

1. In the Porsche Connect App, select **Explore** main area.
2. Enter the navigation destination in the search bar or choose from the following options.
   - **My Destinations**: Select a destination or start a search in **My Destinations**.
   - **Calendar**: Select a calendar entry incl. address data or search in **Calendar**
   - **Contacts**: Select a contact incl. address data or search in **Contacts**
3. Select a destination. Use the symbol to add the destination to the **My Destinations** favourites list. Entries that have already been added to Favourites are marked ⭐.
4. Select **Send to vehicle**.
   - In PCM NAV ➤ select FAV ➤ My Destinations.
5. Start route calculation to the transferred destination.

> Please refer to chapter "First Mile / Last Mile Navigation" on page 19.

**Calendar and music streaming**

- The separate music service app has been downloaded and/or you are registered with the music service. Observe information from the music services provider.
- Porsche Connect App is connected to the PCM.

1. In the Porsche Connect App **My Account** main area, select **PCM services**.
2. Select configure service.
3. In PCM APPS ➤ **Calendar** or select the desired music service.

**Information**

In the **MEDIA** menu in MyMusic, the user can play back existing playlists and tracks stored offline.

**Smart Home**

Via the Porsche Connect App, certain Smart Home functions are transferred directly to your PCM and can be operated there.
- Porsche Connect App is connected to the PCM.
Activating Smart Home

1. In the Porsche Connect App, select My Account main area.
2. Select PCM services.
3. Select available Smart Home service.
4. Log in to Smart Home accounts if necessary.
5. Authorise Porsche to access Smart Home.

Depending on the selected service, the Smart Home functions can be configured and Smart Home devices stored as favourites.

Operating Smart Home devices in the PCM

- Select desired Smart Home service.

The Smart Home devices that were configured via the Porsche Connect App are displayed in the PCM with their current status and can be operated accordingly.

First Mile / Last Mile Navigation

With the Porsche Connect App, you have the option of navigating from your current location to the vehicle or from the vehicle to the final destination. This enables seamless vehicle and pedestrian navigation between the mobile phone and PCM.

First Mile Navigation

First Mile Navigation can determine the vehicle’s location and navigate to that location.

✓ A Porsche Connect user (Porsche ID) is registered.
➢ Please refer to chapter “Logging in Porsche Connect user (Porsche ID)” on page 4.

Last Mile Navigation

Last Mile Navigation allows you to continue to navigate seamlessly to the destination entered after you leave the vehicle.

✓ Porsche Connect App is connected to the PCM.
➢ Please refer to chapter “Transferring navigation destinations to the PCM” on page 18.

1. Transfer navigation destination to the PCM.
➢ Please refer to chapter “Transferring navigation destinations to the PCM” on page 18.

2. Confirm Push notification with Yes.

If the vehicle is parked before the navigation destination is reached, a notification is displayed on the mobile phone.

My vehicle

Fig. 13: Porsche Connect App

All of the functions in the app require the following preconditions:

✓ Remote access authorisation is granted in the PCM.
### Car Control

1. In the Porsche Connect App, select **My Car** main area.

2. Move down in the menu by swiping downwards.

The following vehicle information is displayed, e.g.:
- Range
- Mileage
- Fuel level
- Service information
- Oil level

### Notice

A shortage of fuel may damage the emission control system.

- Never drive the tank dry.
- If the warning light has come on, do not take bends at high speed.

### Trip Data

Driving data is displayed on three different levels.

1. In the Porsche Connect App, select **My Car** main area.

2. Move down in the menu by swiping downwards.

3. Select **All trip data**.

### Information

Driving data can be reset in the multi-function display on the instrument panel. For further information on the multi-function display, please refer to the separate Driver’s Manual.

### Car Finder

The vehicle position and that of the mobile phone are displayed on the navigation map.

1. In the Porsche Connect App, select **Explore** main area.

2. By tapping on the bottom right of the cross hairs, the map is aligned so that both vehicle and mobile positions are displayed.

By tapping on the vehicle, navigation from the mobile phone position to the vehicle can be started.

### Horn & Flash

The function serves to identify the parked vehicle. The function is only available with the ignition switched off.

- The vehicle is stationary and the ignition is switched off.
- The bonnet is fully closed.
- Remote access authorisation is granted in the PCM.

### Information

Please use this function carefully. Local residents may be disturbed by use of the horn. Country-specific regulations may apply.

### Lock & Unlock

- The vehicle is stationary and the ignition is switched off.
- The driver’s door is fully closed.
- Remote access authorisation is granted in the PCM.

- The security code has been assigned in My Porsche.

1. In the Porsche Connect App, select **My Car** main area.

2. Select icon or for longer than one second.

The horn or direction indicator are activated for three seconds. Activation is confirmed by means of a trumpet or light symbol on the mobile phone. The horn or direction indicator function can be terminated by actions on the vehicle (e.g. opening the driver’s door).

- Please refer to chapter "Granting remote access authorisation" on page 5.

- Please refer to chapter "Security code" on page 5.

1. In the Porsche Connect App, select **My Car** main area.

2. Select icon

3. Select unlocked or locked lock.
The vehicle doors and the tailgate are unlocked or locked. The alarm system is activated and the lock symbol is displayed when locking.

**Car Alarm**
If the vehicle alarm system is triggered, a Push notification with information on the type and time of the alarm is sent directly to the mobile phone.

**Location Alarm**
A geographical area can be defined. If the vehicle enters or leaves this area, an alarm message is sent.

Remote access authorisation is granted in the PCM.
- Please refer to chapter "Granting remote access authorisation" on page 5.

1. In the Porsche Connect App, select My Car main area.
2. Move down by swiping vertically (Alarms and Modes).
3. Select Change settings.
4. Select Location.

Geographical areas can be added and activated via the Add alarm function.

Stored geographical areas can be edited or deleted via the Edit function.

**Information**
Changes to limit settings affect all app users that access the same vehicle.

**Speed Alarm**
A limit speed is specified. If this limit speed is exceeded, an alarm message is sent.

Remote access authorisation is granted in the PCM.
- Please refer to chapter "Granting remote access authorisation" on page 5.

1. In the Porsche Connect App, select My Car main area.
2. Move down by swiping vertically (Alarms and Modes).
3. Select Change settings.
4. Select Speed.

Limit speeds can be added via the Add alarm function. One of the added limit speeds can be activated.

Stored limit speeds can be edited or deleted via the Edit function.

**Valet Alarm**
The Valet Alarm is a preconfigured and therefore rapidly activatable combination of Location and Speed Alarm.

Remote access authorisation is granted in the PCM.
- Please refer to chapter "Granting remote access authorisation" on page 5.

1. In the Porsche Connect App, select My Car main area.
2. Move down by swiping vertically (Alarms and Modes).
3. Select Change settings.
4. Select Special.

As soon as the vehicle drives faster than the predetermined limit speed or crosses the specified geographical boundary during valet parking, a notification is sent.

The Valet Alarm can be activated and deactivated.

**Pre-heater**
The auxiliary heater can be used to heat the interior of the vehicle and defrost the windscreen when the engine is not running. The vehicle’s auxiliary heater can be operated using the Porsche Connect App. In addition to the purely heating function, a ventilation mode is also available.

- Do not operate the auxiliary heater in enclosed spaces (e.g. a garage).

**DANGER**
Inhalation of toxic exhaust gases

The auxiliary heater burns fuel when switched on. This produces toxic exhaust gases, which are released under the floor of the vehicle.

- Switch off the auxiliary heater before refuelling.
- Park the vehicle so that hot exhaust gases can be discharged without obstruction on the underside of the body and cannot come into contact with easily combustible materials such as grass or leaves.

**WARNING**
Hot exhaust gases

The emissions produced during auxiliary heater operation are very hot.
- Switch off the auxiliary heater before refuelling.
- Park the vehicle so that hot exhaust gases can be discharged without obstruction on the underside of the body and cannot come into contact with easily combustible materials such as grass or leaves.

- Engine is switched off.
- Outside temperatures below approx. 15 °C (for heating mode).
- Adequate fuel level (reserve not reached).
- Battery is sufficiently charged.
- The security code has been assigned in My Porsche.
- Please refer to chapter "Security code" on page 5.
- Remote access authorisation is granted in the PCM.
Please refer to chapter "Granting remote access authorisation" on page 5.

Immediate start (auxiliary heater)
The auxiliary heater can be activated and deactivated immediately.

1. In the Porsche Connect App My Car main area, select **Pre-heater**.
2. Select duration ▶ Select Start. Confirm the message if necessary.
3. Enter and confirm the security code. The timer is activated if the checkbox is ticked.

Manage Timer (auxiliary heater)
Using this function, the vehicle's timer-controlled auxiliary heater can be managed. Three timers can be configured and saved.

1. In the Porsche Connect App My Car main area, select **Pre-heater**.
2. Manage timer ▶ select Edit.
3. Edit the required timer via **Add**. Make settings.
4. Select Save.
5. Activate the timer via the checkbox. Confirm the message if necessary.
6. Enter and confirm the security code. The timer is activated if the checkbox is ticked.

Activate timer (auxiliary heater)
Using this function, a timer that has already been set can be activated.

1. In the Porsche Connect App My Car main area, select **Pre-heater**.
2. Select **Manage timer**.
3. Activate the timer via the checkbox. Confirm the message if necessary.
4. Enter and confirm the security code. The timer is activated if the checkbox is ticked.

Air conditioning
The air-conditioning system of your E-Hybrid vehicle can be controlled remotely using the Porsche Connect App. When precool/heat is switched on, an air flow animation is played. Advanced settings can be made using the Preconditioning menu and, depending on the vehicle equipment, air-conditioning can be activated in specific zones.

The availability of the function depends on the vehicle type and configuration. Further information is available from your Porsche partner.

Immediate start (air conditioning)
Precool/heat can be activated and deactivated immediately.

✔ Battery is sufficiently charged.
✔ Remote access authorisation is granted in the PCM.

Please refer to chapter "Granting remote access authorisation" on page 5.

1. In the Porsche Connect App My Car main area, select **Air conditioning**.
2. Select Start.
The air conditioning is immediately switched on and adopts the last temperature set in the vehicle. Air conditioning stops after 30 minutes. The temperature can be adjusted under My Car ▶ Air conditioning (header).

Manage timer (air conditioning)
Using this function, the vehicle's timer-controlled air conditioning can be managed. The vehicle attempts to establish the set climatic conditions at the set time. This enables the passenger compartment to be heated or cooled without starting the engine. The planned precooling/heating of the vehicle using the timer is also performed when the vehicle plug is not connected to the charge port. A timer can be configured and saved.

✔ Battery is sufficiently charged.
✔ Remote access authorisation is granted in the PCM.

Please refer to chapter "Granting remote access authorisation" on page 5.

1. In the Porsche Connect App, My Car main area ▶ Select Air conditioning
2. Select Manage timer.
3. Make settings.
   - Repeat: Timer operates on each selected
weekday at the same time. Otherwise a set timer operates once at the desired time.

4. Select Save.
A set timer is activated and the vehicle will be precooled/heated at the required time. The temperature will then be sustained for 10 minutes.
The temperature can be adjusted under My Car ▶ Air conditioning ▶ 📊 (header).

Information
The timer uses the time set in the vehicle not the time set on the mobile phone.

Activate timer (air conditioning)
Using this function, an already set timer can be activated. The planned precooling/heating of the vehicle is also performed when the vehicle plug is not connected to the charge port.
✔️ Battery is sufficiently charged.
✔️ Remote access authorisation is granted in the PCM.
▶ Please refer to chapter “Granting remote access authorisation” on page 5.
✔️ Timer set.
▶ Please refer to chapter ”Manage timer (air conditioning)” on page 22.

1. In the Porsche Connect App My Car main area ▶ Select Air conditioning.
2. Activate the timer via the slide control.
A set timer is activated and the vehicle will be precooled/heated at the required time (time in the vehicle). The temperature will then be sustained for 10 minutes.

E-Control
Using the Porsche Connect App, you can remotely control the charging process of your E-Hybrid vehicle and display the current status.
The availability of the function depends on the vehicle type and configuration. Further information is available from your Porsche partner.

Information
For further information on the high-voltage battery charging process, please refer to the separate Driver’s Manual.

Immediate start (E-Control)
The charging process can be started immediately.
✔️ Charging equipment connected.
✔️ Remote access authorisation is granted in the PCM.
▶ Please refer to chapter ”Granting remote access authorisation” on page 5.

1. In the Porsche Connect App, select My Car main area.
2. Move down in the menu by swiping vertically (Charging details).
3. Select Start charging.
The charging process is started immediately.

Manage timer (E-Control)
Timer-controlled charging for the high-voltage battery can be started using this function. As an option, the vehicle can also be precooled/heated to a pre-defined temperature range.
Three timers can be configured and saved.
✔️ Charging equipment connected.
✔️ Remote access authorisation is granted in the PCM.
▶ Please refer to chapter ”Granting remote access authorisation” on page 5.

1. In the Porsche Connect App, select My Car main area.
2. Move down in the menu by swiping vertically (Charging details).
3. Select Manage timer ▶ Edit.
4. Edit the required timer with ✂.
5. Make settings.
   - Repeat: Timer operates on each selected weekday at the same time. Otherwise a set timer operates once at the desired time.
   - Precool/heat: Precooling/heating can be selected when charging.
The temperature from Air conditioning is used.

6. Select Save.
A set timer is activated and the vehicle will be charged at the required time.

Information
The timer uses the time set in the vehicle not the time set on the mobile phone.

Activate timer (E-Control)
An already set timer can be activated. If the timer is activated, the vehicle is charged up to the programmed time, provided that a vehicle plug is
connected to the charge port. As an option, the vehicle can also be precooled/heated to a predefined temperature range.

✓ Charging equipment connected.
✓ Remote access authorisation is granted in the PCM.
   ▶ Please refer to chapter “Granting remote access authorisation” on page 5.

✓ Timer set.

1. In the Porsche Connect App, select My Car main area.
2. Move down in the menu by swiping vertically (Charging details).
3. Select Manage timer.
4. Activate the timer via the checkbox. A set timer is activated and the vehicle will be charged at the required time.

### Porsche Vehicle Tracking System (PVTS)

The functions of the Porsche Vehicle Tracking System (PVTS) can be remotely activated/deactivated using the Porsche Connect App.

The following special modes are available:

- **Service mode**: When the mode is activated, no theft alarm is triggered if the vehicle is being serviced (e.g. battery is disconnected).
- **Transport mode**: When the mode is activated, no theft alarm is triggered if the vehicle is moved with the ignition switched off (e.g. on a ferry).
- **Disarmed mode (PVTS Plus)**: When the mode is activated, monitoring of the Driver Card is deactivated so that a missing Driver Card no longer triggers an alarm.

### Display range

1. In the Porsche Connect App, select My Car main area.
2. Move down in the menu by swiping vertically (Range).

### Display range in the map

1. In the Porsche Connect App, select My Car main area.
2. Move down in the menu by swiping vertically (Range).
3. Select Show map.
4. Show the range via the slide control.

### NOTICE

Please use these functions carefully.

▶ Activation of the special modes temporarily restricts the security of your vehicle.

PVTS or PVTS Plus depends on the vehicle equipment.

### Information

- The Porsche Vehicle Tracking System (PVTS) vehicle equipment (with or without Driver Card) is affected by the insurance and legal requirements in the relevant country.
- For further information on the Porsche Vehicle Tracking System (PVTS), please refer to the separate Driver’s Manual.

### Switching special mode on and off

✓ Remote access authorisation is granted in the PCM.

Please refer to chapter “Granting remote access authorisation” on page 5.

✓ The security code has been assigned in My Porsche.

▶ Please refer to chapter “Security code” on page 5.

1. In the Porsche Connect App, select My Car main area.
2. Move down by swiping vertically (Alarms and Modes).

Before activating, the security code assigned in My Porsche must be entered.

### Information

In certain countries, the maximum period of use is restricted due to insurance requirements.
The Porsche Offroad Precision App, which is available in some countries, provides for the networking of vehicle and mobile phone. This enables driving data to be displayed, recorded and analysed directly on a mobile phone. The transmission takes place via WiFi. You do not necessarily need a SIM card/data connection to use the Porsche Offroad Precision App. For further information establishing a WiFi connection in the PCM, please refer to the separate Driver’s Manual.

The Porsche Offroad Precision App your personal companion for your all-terrain adventure and offers the following options:

- Offroad Manual
- Record off-road trips
- Capture moments
- Create a video of highlights
- Trip summary

Detailed information on installation and on the functions of the Porsche Offroad Precision App can be found in the app itself and at or from your Porsche partner.

**Information**

Since vehicle-specific data can be accessed using the app, it is recommended to protect this data from unauthorised access by third parties.

**WARNING** Configuring settings and operating while driving

Configuring settings and operating apps while driving may distract you from the traffic situation. You may lose control of the vehicle.

- Only use and manage apps when the vehicle is stationary.

**DANGER** Loss of control over the vehicle

An inappropriate driving style and risky manoeuvres may lead to loss of control over the vehicle.

- Adapt your driving style and manoeuvres to your personal ability, the road and weather conditions, as well as the traffic situation.
- Only use the Porsche Offroad Precision App on tracks that are closed to the public.
Radio Plus

With the Radio Plus service it is possible to switch between the Internet radio and the hybrid radio. The Internet radio receives radio stations online, the hybrid radio automatically selects the best possible reception.

![Radio Plus](image)

Fig. 15: Radio Plus

- Data connection is established.
- Porsche Connect services are activated in My Porsche.

Please refer to chapter "Activating services via My Porsche" on page 3.

Opening Internet radio

With the Internet radio integrated in the PCM, online channels of radio stations can be received.

1. Select MEDIA » PLAY.
2. Select Media source (in the header) » Online.

Station categorisation

The Internet radio stations can be selected according to the categories popularity, country, genre and language.

1. Select MEDIA » LIST.
2. Select the desired category, e.g. Genre.

Activating hybrid radio

The Hybrid radio function enables continuous perfect reception. If the DAB or FM reception is subject to environmental interference, the PCM automatically receives the radio station online when the function is active.

- Media source DAB/FM is selected.

1. Select MEDIA » Options.
2. Activate Tuner settings » Online station tracking.
   In the case of poor reception, stations are automatically received online and Online appears under the station name.

Setting streaming quality

In order to restrict data usage, the streaming quality for the reception of Internet radio stations can be set.

1. Select MEDIA » PLAY.
2. Select Media source (in the header) » Online.
3. Options » Streaming quality

Activate/deactivate online additional data

With this option, additional metadata and album covers are displayed.

1. Select MEDIA.
2. Select Options » Tuner settings » Online additional data.
Risk Radar

With the Safety Radar service, the Local Hazard Warning and Traffic sign recognition functions are available (in some countries).

Fig. 16: Risk Radar

Through the networking of vehicles, separate anonymised information from other vehicles can be accessed. The PCM can therefore indicate hazards in advance and offers optimised traffic sign display through continuously updated data.

✔️ Data connection is established.
✔️ Porsche Connect services are activated in My Porsche.
  ➤ Please refer to chapter "Activating services via My Porsche" on page 3.

Activating online navigation

1. NAV ➤ MAP ➤ Icon (in the headline)
2. Online navigationSelect .

Opening messages

✔️ Route guidance active.

➤ NAV ➤ TRAFFIC ➤ The hazards that are received via Risk Radar are indicated by the symbol ➤ ➤ A message appears in the instrument cluster (Speed & Assist display) appears shortly before the danger spot is passed.
You can use the **Voice Pilot** service to operate selected functions in the Porsche Communication Management (PCM) system by voice command. The **Voice Pilot** service is not available in all languages and markets.

Voice control can be interrupted in order to say other voice commands. Activating/deactivating voice control interruption in the PCM:

- Select SET ➔ System settings ➔ Voice control ➔ Interrupt voice control.

**Calling up voice control**

**WARNING** Impaired voice recognition

Your voice may change in stressful situations. This can lead to the desired telephone connection failing or not coming about quickly enough under certain circumstances.

- Select SET ➔ System settings ➔ Voice control ➔ Interrupt voice control.
- Do not use voice control in an emergency.
- Enter the emergency number via the touch display.

**Activating voice control**

- Ignition is switched on.
- No telephone call is in progress.
- Parking aid is not active.

1. Briefly press on the control stalk. A rising acoustic signal is heard and the symbol for voice control appears on the PCM.
2. Say the voice command.

**Deactivating voice control**

- Voice control is active.
- Press button on the control stalk. A fading acoustic signal sounds.

**Information**

The dialogue can be paused by tapping on the microphone symbol and started again by tapping again.

**Other functions of the voice control button**

The button on the control stalk can activate different functions, depending on the application:

- Skips a running announcement when pressed briefly.
- Interrupts the current dialogue when pressed briefly.
- Activates the Siri voice control system through a longer press.

**Information**

- Navigation announcements and traffic notices are not given during a dialogue.
- With voice control active, list entries can be selected via voice control, the rotary push button or the touch display.
- If the spoken voice command is not understood or if it cannot be interpreted, voice control responds with the question *Excuse me?* and the voice command can then be repeated.

**Notes on communication using voice control**

Note the following points when using voice control:

- Speak clearly and at a normal volume.
- Stress voice commands evenly, without long pauses in your speech.
- Do not speak when the voice control function is making an announcement.
- Reduce disruptive sounds caused by closing doors, windows and sliding roof, for example.
- Only the driver should issue voice commands, as the hands-free microphone is pointed towards the driver’s side.
Weather
With the **Weather** service, weather information, e.g. at the destination, can be displayed in the Porsche Communication Management (PCM).

**Displaying the weather**

The time of the last update is displayed along with the option.

**Displaying Rain Radar (available in some countries)**

This function can be used to show the probability of rain at the selected location. Pressing on the displayed time will show the rain forecast at 15-minute intervals. The maximum forecast time is 1.5 hours. Regions with a high probability of rain are shown in green.

- **Active route.**
- **Data connection is established.**
- **Porsche Connect services are activated in My Porsche.**

1. APPS ![Weather](image)
2. ![icon (in the header)](image) Select the desired option:
   - **Nearby**: Displays weather information in the vicinity of the vehicle.
   - **At destination**: If route guidance is active, weather information at the destination is displayed.
   - **At another location**: Weather information at the desired location is displayed.

**Updating display**
