

Porsche Hong Kong Ltd.

Terms of Use
for the Porsche Connect Service "Navigation & Infotainment Package"

These Terms of Use govern the use of the Porsche Connect "Navigation & Infotainment Package". These Terms of Use apply in addition to the Terms and Conditions for My Porsche Portal, the Porsche Connect Store and the Porsche Connect Services as well as Porsche Products (T&C). Insofar a provision of the T&C conflicts with these Terms of Use, the Terms of Use shall prevail.

"Navigation & Infotainment Package"

The "Navigation & Infotainment Package" includes - dependent on the equipment of your vehicle and the geographic availability - 18 package of services components described hereafter or less. The current geographic availability can be found in the Porsche Connect Store at <https://connect-store.porsche.com/hk/en>.

Term: 1 year

Inclusive term: In case of the purchase of a new Connect-able vehicle including the option "Connect Plus" or the purchase of a 718 model from May 2018 onwards including the option "Navigation incl. Porsche Connect", the "Navigation & Infotainment Package" can be booked free of charge for a term of 2 years.

Additional requirement of use for all service package components:

The Porsche Communication Management of a Connect-able vehicle (hereinafter **PCM**) has to be connected to the internet. To the extent such internet connection is established using the PCM's integrated SIM-card, the use of such internet connection for this package of services (excluding the service package component "Radio Plus") is included in the price of this package of services. To the extent such internet connection is not established using the PCM's integrated SIM-card (i.e. because the vehicle is not equipped with an integrated SIM-card or because the internet connection using the PCM's integrated SIM-card is not available in every country), a separate contract with a mobile services provider on an internet data plan is required, which may accrue additional costs, including roaming costs for using the service abroad. Either a SIM-card with a respective internet data plan may be plugged into the SIM-card reader of the PCM, or a connection with a mobile phone with respective internet data plan can be established. If you connect the PCM with your mobile phone, please make sure that this is permitted by your internet data plan. The availability and speed of the service package components are subject to the availability and speed of the internet connection.

For models featuring Porsche Connect except the new Cayenne (MY 2018), the new Macan (MY 2018) and the new 911 (MY 2019) (more details on this model see below) the following applies:

1. Real Time Traffic Information

Services: The navigation system of the PCM is using current GPS data and data on volume of traffic to optimize the route to the entered destination by the minute. The volume of traffic will additionally be highlighted in colours in the displayed map: going from green for low traffic, to yellow for slow moving traffic, to red for traffic jams.

2. Online Map Update

Services: The maps of the PCM navigation system can be updated via the internet. The PCM will display available updates.

3. Satellite Map

Services: The PCM navigation system can display the map in satellite view. By a buffering of loaded map data of the current surroundings of the vehicle the display of the satellite view will be kept even if the internet connection is temporarily interrupted. Vehicles up to model year 2019 may need an update in order to be able to use the service. For more information, please contact your Porsche partner.

4. Online Search

Services: With the "Online Search" service package component, you can find addresses or special destinations using a system-defined internet search engine. Partly, the search results include in addition further information like phone numbers, opening hours or ratings by other internet users.

5. Parking

Services: With the "Parking" service package component, you will be displayed the nearest available parking possibilities of integrated commercial parking facilities and car parks (including parking fees and opening hours), reported by the operators, in the surroundings of the vehicle or at the navigation destination of the PCM navigation system. The located parking possibility can be selected for the PCM navigation system as navigation destination.

6. Petrol Stations

Services: With the service package component "Petrol Stations", participating gas stations in the surrounding of the vehicle, on the route to or at the navigation destination of the PCM navigation system will be displayed suitable to the type of fuel of the respective Connect-able vehicle. The results list can be sorted by distance or most favourable price reported by the gas station operator or other users. Via free text search also a specific brand can be searched purposefully. Found gas stations can be selected as navigation destination of the PCM navigation system.

7. E-Stations

Services: With the service package component "E-Stations", participating E-Charging stations in the surrounding of the vehicle, on the route to or at the navigation destination of the PCM navigation system will be displayed. The results list can be

sorted by distance or most favourable price reported by the E-charging operator or other users. Via free text search also stations of a particular power supplier can be searched purposefully. Found E-Charging stations can be selected as navigation destination on the PCM navigation system. In order to ensure the necessary data validity in our E-Charging directory and/or the reliability of the charging process at the respective E-Charging, charging data is collected anonymously and used for appropriate corrections and/or additions to the E-Charging directory.

8. News

8.1 Services: News services that are available via the Internet using RSS feeds can be called up in the vehicle via PCM and read out using the voice function.

8.2 Restrictions of use: The service will be available during the ride fully, partly or only when the vehicle is stationary, depending on country-specific provisions.

9. Weather

Services: The service package component "Weather" displays the current weather situation and the forecast for the next hours and days in the form of an infographic in the PCM. The forecast includes temperature, number of hours of sunshine, probability of rain, wind speed and weather warnings.

10. Gracenote Online

Services: The service package component "Gracenote Online" displays information about the songs you play on the PCM.

For the new Cayenne (MY 2018), the new Macan (MY 2018) and the new 911 (MY 2019) the following service packages apply:

1. Finder

Services: With the service package component "Finder", you can find addresses or points-of-interest (e.g. charging stations, gas stations, restaurants, hotels and parking possibilities) using a system-defined internet search engine. Partly, the search results include in addition further information like phone numbers, opening hours, fuel prices, parking prices or ratings by other internet users. Also on My Porsche Portal and the Porsche My Porsche App, POIs can be searched, saved, managed and sent to the PCM.

2. Navigation Plus

Services: With the service package component "Navigation Plus" the PCM's on-board route calculation will be complemented by an online route calculation.

The navigation system of the PCM is using current GPS data and data on volume of traffic to optimize the route to the entered destination by the minute. The volume of traffic will additionally be highlighted in colours in the displayed map.

The maps of the PCM navigation system can be updated via the internet. The PCM will indicate available updates.

The PCM navigation system can display the map in satellite view. By a buffering of loaded map data of the current surroundings of the vehicle the display of the satellite view will be kept even if the internet connection is temporarily interrupted.

3. Radio Plus

3.1 Services: The service package component "Radio Plus" will enable you to listen to available online streams of radio stations. When Radio Plus is enabled and the current FM or Digital Audio Broadcasting (DAB) radio station is no longer available, the PCM will switch seamlessly to the respective online stream of such radio station, if available. The service also displays metadata available via the PCM about the songs and stations you are playing.

3.2 Restrictions of use: The data connection for this service package component requires (a) the purchase of the Porsche Connect Service "Data Package" (available separately in selected countries) or (b) inserting a SIM-card into the PCM or (c) a mobile phone connected with the PCM. For options (b) and (c) a separate contract with an internet data plan is required, which may accrue additional costs, including roaming costs for using the service abroad (see also above).

4. News

Services: News services that are available via the Internet using RSS feeds can be called up in the vehicle via PCM and read out using the voice function.

5. Weather

Services: The service package component "Weather" displays the current weather situation and the forecast for the next hours and days in the form of an infographic in the PCM. The forecast includes temperature, number of hours of sunshine, probability of rain, wind speed and weather warnings.

Right of withdrawal for consumers

If you are a consumer you have a right of withdrawal for a period of 14 days after the conclusion of the contract. A consumer is an individual acting for purposes which are wholly or mainly outside that individual's trade, business, craft or profession. Information about the right of withdrawal, and instructions on how to exercise that right are set out below:

Instructions on withdrawal

Right of withdrawal

You have the right to withdraw from this contract within 14 days without giving any reason. The withdrawal period will expire after 14 days from the day of the conclusion of the contract. To exercise the right of withdrawal, you must inform us (Contact Porsche - c/o Porsche Hong Kong Ltd. (Rooms 1413-16, 14F, Sun Hung Kai Centre, 30 Harbour Road Wan Chai, Hong Kong), e-mail address: connect@cn.porsche.com) of your decision to withdraw from this contract by an unequivocal statement (e.g. a letter sent by post, a telephone call or e-mail). You may use the attached model withdrawal form, but it is not obligatory. To meet the withdrawal deadline, it is sufficient for you to send your communication concerning your exercise of the right of withdrawal before the withdrawal period has expired.

Effects of withdrawal

If you withdraw from this contract, we shall reimburse to you all payments received from you, including the costs of delivery (with the exception of the supplementary costs resulting from your choice of a type of delivery other than the least expensive type of standard delivery offered by us), without undue delay and in any event not later than 14 days from the day on which we are informed about your decision to withdraw from this contract. We will carry out such reimbursement using the same means of payment as you used for the initial transaction, unless you have expressly agreed otherwise; in any event, you will not incur any fees as a result of such reimbursement. If you requested to begin the performance of services during the withdrawal period, you shall pay us an amount which is in proportion to what has been provided until you have

communicated us your withdrawal from this contract, in comparison with the full coverage of the contract.

Model withdrawal form

(complete and return this form only if you wish to withdraw from the contract)

- To Contact Porsche - c/o Porsche Hong Kong Ltd. (Rooms 1413-16, 14F, Sun Hung Kai Centre, 30 Harbour Road Wan Chai, Hong Kong), e-mail address: connect@cn.porsche.com:

Porsche Hong Kong Ltd.

Terms of Use
for the Porsche Connect Service "Car Remote Package"

These Terms of Use govern the use of the Porsche Connect "Car Remote Package". These Terms of Use apply in addition to the Terms and Conditions for the My Porsche portal, the Porsche Connect Store and the Porsche Connect Services as well as Porsche Products (T&C). Insofar a provision of the T&C conflicts with these terms of use, the terms of use shall prevail.

Car Remote Package

The "Car Remote Package" includes - dependent on the geographic availability - 12 or less service components described hereafter. The current geographic availability can be found in the Porsche Connect Store at <https://connect-store.porsche.com/hk/en>. The internet connection in the vehicle necessary for the use of the "Car Remote Package" is established using an integrated SIM-card, the use of such internet connection for this service is included in the price of this service.

The availability of specific service components may vary depending on the vehicle model.

Term: 1 year

Inclusive term: In case of the purchase of a new Connect-able vehicle including the option "Connect Plus", the "Car Remote Package" can be booked free of charge for a term of 5 years for plug-in hybrid vehicles (hereafter PHEV) and for a term of 1 year for combustion engine vehicles.

Additional requirement of use for all service package components: For some functions of the service, a smartphone including an internet connection is required. Therefore, a separate contract with a mobile service provider on an internet data plan is required, which may accrue additional costs, including roaming costs for using the service abroad. The availability and speed of the services package components are subject to the availability and speed of this internet connection. All services and functions are available via the My Porsche portal, unless provided differently in the service descriptions.

In order to meet future customer requirements, Porsche Hong Kong may further develop the My Porsche portal.

Updates: During the service package availability period, which coincides with the term of the service package contract, we will provide you with updates to at least the extent required by law, unless otherwise agreed with you in accordance with the legal requirements.

1. Car Control

1.1 **Service:** You have the ability to remotely check your vehicle's status including information on: mileage, remaining range (fuel and electrical), service interval (main service and oil service interval), status (opened or closed) of doors, windows, hood, trunk and sunroof (if fitted), parking light status, vehicle time,

tire pressure, time of last query. The component tire pressure will only be available from the first half of 2018 onwards.

1.2 **Restrictions of use:** The display of additional PHEV specific information (e.g. electrical range) is only available for such vehicles.

1.3 Car Control is available for the following vehicle models:

- 911
- Cayenne
- Panamera
- Taycan

2. Trip Control

2.1 **Service:** You have the ability to remotely check the trip data of your vehicle. This includes: Travel time, mileage, average speed and average consumption (fuel and electrical) for all trip types (short, cyclic, long).

2.2 **Restrictions of use:** Retrievable information is only updated after the ignition status changes.

2.3 Trip Control is available for the following vehicle models:

- 911
- Cayenne
- Panamera
- Taycan

3. Lock & Unlock

3.1 **Service:** You have the ability to remotely lock and unlock the doors and the trunk of your vehicle. After the event, you will receive a confirmation message or a push notification.

3.2 **Restrictions of use:** The service will only be available when the vehicle is stationary, the driver door is closed, ignition is off and the key is not in the ignition lock. Further restrictions may apply depending on country-specific provisions.

Limited Responsibility: The usage of the unlock function without your presence at the car increases the risk of vehicle theft or theft of items located within the vehicle. Therefore, executing the unlock function requires a four-digit security code to prevent the unauthorized usage. You will set the security code during the initial registration for and setup of the Car Remote Package. This code can be changed in the My Porsche portal later on.

3.3 Lock & Unlock is available for the following vehicle models:

- 911
- Cayenne
- Panamera
- Taycan

4. E-Control

- 4.1 **Service:** You have the ability to remotely check the status of your PHEV as follows and start or stop the charging process. You can check the plug status, the remaining charging time and the current electric range. The electric range is displayed by a circle on the map. Furthermore, you have the ability to remotely optimize the charging process of the high-voltage battery of your PHEV for a specific departure time. You can set departure timers and will receive a confirmation message or a push notification in case of any events (e.g. charging externally interrupted) and once an activated e-timer has passed off.
- 4.2 **Restrictions of use:** The display of PHEV specific information (e.g. electrical range) is only available for such vehicles. The circle indicating the range in the map is schematic only. Actual road distances are not reflected in the range map. Therefore, in reality locations may be beyond the electric range even if they are displayed within the circle indicating the electric range.
- 4.3 E-Control is available for the following vehicle models:
- Panamera
 - Taycan

5. Climate

- 5.1 **Service:** You have the ability to remotely check the status of and activate or deactivate the remote heating and/or air conditioning. Once successfully activated or deactivated the remote heating and/or air conditioning, you will receive a confirmation message or a push notification. Furthermore, you have the ability to remotely program the climate timer for remote heating or air conditioning. Once successfully set, you will receive a confirmation message and a push notification on your mobile device, once an activated climate timer has passed off.
- 5.2 **Restrictions of use:** The display of PHEV specific information is only available for such vehicles.
- 5.3 Climate is available for the following vehicle models:
- Panamera
 - Taycan

Porsche Hong Kong Ltd.

Terms of Use
for the Porsche Connect Service "Breakdown Call"

These Terms of Use govern the use of the Porsche Connect Service "Breakdown Call". These Terms of Use apply in addition to the Terms and Conditions for the My Porsche Portal, the Porsche Connect Store and the Porsche Connect Services as well as Porsche Products (T&C). Insofar a provision of the T&C conflicts with these Terms of Use, these Terms of Use shall prevail.

These Terms of Use are issued by Porsche Hong Kong Ltd. ("Porsche", "we", "us" and "our").

"Breakdown Call"

After the "Breakdown Call" service (hereinafter **Service**) has been triggered, the Service establishes a voice and data connection to the Porsche Support instance assigned to the vehicle and transmits your vehicle location and all relevant vehicle information to the Porsche Support instance. You can use this vehicle information to personally talk to employees at the Porsche Support instance.

The Service is available in certain countries and depends on network availability. The current geographic availability of the Service can be found in the Porsche Connect Store at <https://connect-store.porsche.com/hk/en/>. The connectivity necessary for the provision of the Service is established using an integrated SIM-card. The connectivity is an integrated element of the Service and is not charged separately.

Breakdown Call is available for the following vehicle model:

- Taycan

Term: 10 years

Inclusive term: In case of the purchase of a new Connect-able vehicle including the option "Connect Plus", the Service can be booked free of charge for a term of 10 years.

1. Detailed Description of Service

- 1.1 You can trigger the Service either from the Porsche Communication Management of a Connect-able vehicle or via the My Porsche App. Once triggered, a voice and data connection from the vehicle will automatically be established to the Porsche Support instance in the country selected by you in My Porsche. The data forwarded from the vehicle to the Porsche Support instance may include information such as the vehicle model, production year and optional equipment, vehicle position, occurrence of an accident, number of people in the car, tank level, tire pressure and remaining fuel range (hereinafter **Vehicle Data**). The Porsche Support instance and/or a dialogue in the My Porsche App and/or in the vehicle infotainment system might ask you for your consent for calling up the vehicle identification number and/or other car data,
- 1.2 During the voice connection, the Porsche Support instance employee will ask you questions to further assess your breakdown situation. Depending on the particular breakdown situation, the Porsche Support instance can offer you various help options as follows:

- 1.) Porsche Support instance employees can give advice on how to proceed (such as "Please add oil at the nearest petrol station"); and/or
- 2.) The Porsche Support instance can analyse the received car data in more detail and try to identify the problem. The findings gathered can be passed on to the respective Porsche Centre, which enables them to prepare for the vehicle's visit to the workshop or to initiate further measures. If a problem can be solved via remote repair, the Porsche Support instance can carry this out. The prerequisite for this is the fulfilment of various problem-dependent preconditions such as: engine switched off, vehicle is stationary, engine immobiliser is active, windows are closed, no active charging process. If necessary, further Vehicle Data required for this purpose are read out. In addition, it is possible that the Breakdown and/or Emergency Call functionality will not exist or be limited during the problem solving via remote repair. Before starting to troubleshoot the problem via re-mote repair, the Porsche Support instance will inform you of any such preconditions and/or usage restrictions, which you must then confirm. This is only a troubleshooting attempt, so additional steps may be necessary; and/or
- 3.) Porsche Support instance employees can request external support, such as: breakdown assistance or towing the non-functional vehicle. Your call will not be forwarded to other service providers. If your vehicle needs to be repaired, the Porsche Support instance can forward the Vehicle Data to a Porsche Center, subject to your prior consent.

- 1.3 Any services provided by the Porsche Support instance after the breakdown call require a separate contract, which could result in additional costs. You can find more information about the Porsche Support instance and in particular about the service components covered by contacting your Porsche Centre or by inquiring with your support service provider "AXA Assistance Deutschland GmbH/Inter Partner Assistance SA". The Porsche Support instance can determine the Porsche Support instance status of your vehicle.
- 1.4 If you have access to or use third-party products or services, the contractual terms applicable to these products or services apply. Porsche is not responsible for any access to or use of these products or services.
- 1.5 Please note that the triggering of the Service on your mobile device via the My Porsche App may, depending on the terms of the mobile phone contract, which you have concluded with a telecommunications provider as a third party, result in additional costs.

2. Restrictions of Use and System Limitations

- 2.1 The Service is provided via a telematics unit installed in the vehicle, which receives GPS satellite signals and communicates with the Porsche Support instance via wireless communication systems and communication networks. Due to the nature of the technologies that are used for the functions of the Service and are contained in the telematics unit, the functions of the Service (or parts of the Service) may from time to time not be available and/or be negatively affected through physical circumstances, including, but not limited to, the removal or manipulation of the telematics unit or its antenna, electromagnetism, the vehicle being in a garage, in an underpass or in another location where the GPS or wireless communication networks are not available, atmospheric conditions and other negative causes beyond our control (e.g. failure of the GPS or the communication networks). In particular, the operation of the telematics unit and, thus, the provision of the functions of the Service in accordance with these Terms of Use depends on whether the GPS networks and the wireless and fixed communication networks, with which the telematics unit is operated, are operational. Therefore, not all functions of the Service are available at all times and everywhere, and it cannot be guaranteed that all functions of the Service can be used anytime and anywhere.
- 2.2 The Service does not include vehicle insurance or any other insurance. Please note that you may be legally required to take out insurance; furthermore, it is your responsibility to procure further insurance protection, insofar as you consider it reasonable. The fees paid for the Service are unrelated to the value of the vehicle or any property in the vehicle, or to the cost of injury or damage that you or others may suffer.
- 2.3 In the event of a troubleshooting via remote repair (see number 2.) of section 1.2 of these Terms of Use), the Porsche Support instance employee will carry out a verification of the identity of the caller in advance.

3. Data protection

- 3.1 To understand the way in which we collect, use and disclose your personal data in connection with the Service, please also see the Data Protection Notice – Breakdown Call Services.
- 3.2 Further information concerning our collection, use and disclosure of your personal data, including the purposes for which we collect personal data, the third parties to whom we generally disclose personal data (including any overseas recipients), the main consequences for you if we do not collect your personal data, and how you may access and seek the correction of your personal data or make a privacy complaint, can be found in our Privacy Policy.
- 3.3 If you have any questions about our privacy practices, you may contact us at connect@cn.porsche.com or using the details in our Privacy Policy.
- 3.4 As further outlined in this document, Porsche and various third parties may be able to track and monitor the vehicle's location using the SIM and/or GPS functionality.
- 3.5 Unless otherwise stated, this tracking will start immediately and will be continuous and ongoing.
- 3.6 You consent to this tracking and warrant and must ensure that all drivers or users of the vehicle are aware of this location tracking and consent to it also (where required by applicable law).
- 3.7 We may use, disclose and process this location data (which may include personal data) for the purposes outlined in this document and our Privacy Policy.

4. **Updates:** During the service package availability period, which coincides with the term of the service package contract, we will provide you with updates to at least the extent required by law, unless otherwise agreed with you in accordance with the legal requirements.

5. Right of withdrawal for consumers

If you are a consumer you have a right of withdrawal for a period of 14 days after the conclusion of the contract. A consumer is an individual acting for purposes which are wholly or mainly outside that individual's trade, business, craft or profession. Information about the right of withdrawal, and instructions on how to exercise that right are set out below:

Instructions on withdrawal

Right of withdrawal

You have the right to withdraw from this contract within 14 days without giving any reason. The withdrawal period will expire after 14 days from the day of the conclusion of the contract. To exercise the right of withdrawal, you must inform us (Porsche Connect Support - c/o Porsche Hong Kong Ltd. (Rooms 1413-16, 14F, Sun Hung Kai Centre, 30 Harbour Road Wan Chai, Hong Kong), e-mail address: connect@cn.porsche.com) of your decision to withdraw from this contract by an unequivocal statement (e.g. a letter sent by post, a telephone call or e-mail). You may use the attached model withdrawal form, but it is not obligatory. To meet the withdrawal deadline, it is sufficient for you to send your communication concerning your exercise of the right of withdrawal before the withdrawal period has expired.

Effects of withdrawal

If you withdraw from this contract, we shall reimburse to you all payments received from you, including the costs of delivery (with the exception of the supplementary costs resulting from your choice of a type of delivery other than the least expensive type of standard delivery offered by us), without undue delay and in any event not later than 14 days from the day on which we are informed about your decision to withdraw from this contract. We will carry out such reimbursement using the same means of payment as you used for the initial transaction, unless you have expressly agreed otherwise; in any event, you will not incur any fees as a result of such reimbursement. If you requested to begin the performance of services during the withdrawal period, you shall pay us an amount which is in proportion to what has been provided until you have communicated us your withdrawal from this contract, in comparison with the full coverage of the contract.

Porsche Hong Kong Ltd.

Terms of Use for the Porsche Connect Service "Porsche Connect Care" (hereafter referred to as **ToU Porsche Connect Care**)

Porsche Hong Kong Ltd., Rooms 1413-16, 14/F, Sun Hung Kai Centre, 30 Harbour Road, Wan Chai, Hong Kong, (hereafter referred to as **Porsche HK** or **We**) operates under www.porsche.com/pap/_hong-kong/ (1) the My Porsche Portal and (2) various online marketplace functionalities (hereafter referred to as **Marketplace**) for the (i) sale of Porsche vehicles, parts, equipment and other vehicle-related and vehicle independent products and (ii) provision of vehicle-related and vehicle independent services. On the Marketplace, Porsche HK also operates the Porsche Connect Store. For the use of the Marketplace including the Porsche Connect Store, the Terms and Conditions for the use of My Porsche Portal and Porsche's Online Marketplace Functionalities (incl. the Porsche Connect Store) as well as the sale of Porsche Connect Services and Porsche HK Products (hereafter referred to as **T&C**) apply. The current version of the T&C can be accessed, downloaded and printed at any time at <https://connect-store.porsche.com/hk/en/t/termsandconditions>.

In the Porsche Connect Store, the user may also book "Porsche Connect Care". These ToU Porsche Connect Care govern the use of Porsche Connect Care and apply to the order, use and/or renewal of Porsche Connect Care. These ToU Porsche Connect Care apply in addition to the T&C. Insofar as a provision of the T&C conflicts with these ToU Porsche Connect Care, the ToU Porsche Connect Care prevail.

Any terms defined in the T&C shall have the same meaning in these ToU Porsche Connect Care. This shall in particular apply to the following terms:

- Customer: defined in section 1.3 of the T&C;
- Primary and Secondary User: defined in section 3.2 of the T&C;
- Porsche Connect Store and Porsche Connect Services: defined in section 3.1.1 of the T&C.

"Porsche Connect Care"

Porsche Connect Care (hereafter referred to as **Service Package**) is available for the following vehicle models:

- Taycan
- [Cayenne (from model year 2022)
- 911 (from model year 2022)
- Panamera (from model year 2022)]

Taycan vehicles of the model year 2020, however, require a free software update from an authorised Porsche workshop in order to book the Service Package "Porsche Connect Care" (however, individual services of the Service Package may not be available despite this software update). You can recognise Taycan vehicles of the model year 2020 by the letter L at the 10th position of the vehicle identification number (VIN). For further information on the software update, please contact your Porsche Center.

The Service Package is only available in certain countries and depends on the network availability. You can find the current geographical availability of the Service Package in the Porsche Connect Store at <https://connect-store.porsche.com/hk/en/>. You will also find the re-

spective geographical availability of the various functions of the Service Package in the following provisions of these ToU Porsche Connect Care.

Term: 10 years

Free Service Package: The Service Package can be booked free of charge for new Connect-able vehicles, including new Connect-able vehicles that have already been purchased.

Connectivity: The connectivity that is required to provide the Service Package is established by an embedded SIM card. The connectivity is an integral part of the Service Package and is not charged separately.

Porsche Connect Care includes various functions (hereinafter referred to as **Services**), which are described below:

1. Breakdown Call

Breakdown Call is available for the following vehicle model:

- Taycan

After the "Breakdown Call" service has been triggered, the service establishes a voice and data connection to the Porsche Support instance assigned to the vehicle and transmits your vehicle location and all relevant vehicle information to the Porsche Support instance. You can use this vehicle information to personally talk to employees at the Porsche Support instance.

The service "Breakdown Call" is independent of the Emergency Call (Private eCall). In emergencies, the Emergency Call (Private eCall) must be used in your vehicle to contact the responsible emergency call center or an emergency call is triggered automatically via the Emergency Call (Private eCall).

1.1 Detailed description of the service

- 1.1.1 You can trigger the service either via the Porsche Communication Management of a Connect-able vehicle (hereinafter referred to as **PCM**) or via the My Porsche App. The Service can therefore be triggered by every Primary and Secondary User, as well as by anyone who has access to the vehicle interior. After the service has been triggered, a voice and data connection is automatically established from the vehicle to the assigned Porsche Support instance. The data sent by the vehicle to the Porsche Support instance can include information such as the vehicle identification number (VIN), vehicle model, year of production and optional equipment, vehicle location, occurrence of an accident, fuel level, tyre pressure, remaining range with the available fuel, vehicle status and error messages (hereinafter referred to as **Vehicle Data**). The Porsche Support instance and/or a dialogue in the My Porsche App and/or in the vehicle infotainment system might ask you for your consent for calling up the vehicle identification number and/or other Vehicle Data.

- 1.1.2 During the voice connection, the Porsche Support instance employee will ask you questions to further assess your breakdown situation. Depending on the particular breakdown situation, the Porsche Support instance can offer you various help options as follows:
- 1.) Porsche Support instance employees can give advice on how to proceed (such as "Please add oil at the nearest petrol station"); and/or
 - 2.) The Porsche Support instance can analyse the received car data in more detail and try to identify the problem. The findings gathered can be passed on to the respective Porsche Centre, which enables them to prepare for the vehicle's visit to the workshop or to initiate further measures. If a problem can be solved via remote repair, the Porsche Support instance can carry this out. The prerequisite for this is the fulfilment of various problem-dependent preconditions such as: engine switched off, vehicle is stationary, engine immobiliser is active, windows are closed, no active charging process. If necessary, further Vehicle Data required for this purpose are read out. In addition, it is possible that the Breakdown and/or Emergency Call functionality will not exist or be limited during the problem solving via remote repair. Before starting to troubleshoot the problem via re-mote repair, the Porsche Support instance will inform you of any such preconditions and/or usage restrictions, which you must then confirm. This is only a troubleshooting at-tempt, so additional steps may be necessary; and/or
 - 3.) Porsche Support instance employees can request external support, such as: breakdown assistance or towing the non-functional vehicle. Your call will not be forwarded to other service providers. If your vehicle needs to be repaired, the Porsche Support instance can forward the Vehicle Data to a Porsche Center, subject to your prior consent.
- 1.1.3 Any services provided by the Porsche Support instance after the breakdown call require a separate contract, which could result in additional costs. You can find more information about the Porsche Support instance and in particular about the service components covered by contacting your Porsche Centre or by inquiring with your support service provider "AXA Assistance Deutschland GmbH/Inter Partner Assistance SA". The Porsche Support instance can determine the Porsche Support instance status of your vehicle.
- 1.1.4 If you have access to or use third-party products or services, the contractual terms applicable to these products or services apply. Porsche HK is not responsible for any access to or use of these products or services.
- 1.1.5 Please note that the triggering of the Service on your mobile device via the My Porsche App may, depending on the terms of the mobile phone contract, which you have concluded with a telecommunications provider as a third party, result in additional costs.
- 1.2 Restrictions on use and system restrictions**
- 1.2.1 The Service is provided via a telematics unit installed in the vehicle, which receives GPS satellite signals and communicates with the Porsche Support instance via wireless communication systems and communication networks. Due to the nature of the technologies that are used for the functions of the Service and are contained in the telematics unit, the functions of the Service (or parts of the Service) may from time to time not be available and/or be negatively affected through physical circumstances, including, but not limited to, the removal or manipulation of the telematics unit or its antenna, electromagnetism, the vehicle being in a garage, in an underpass or in another location where the GPS or wireless communication networks are not available, atmospheric conditions and other negative causes beyond our control (e.g. failure of the GPS or the communication networks). In particular, the operation of the telematics unit and, thus, the provision of the functions of the Service in accordance with these ToU Porsche Connect Care depends on whether the GPS networks and the wireless and fixed communication networks, with which the telematics unit is operated, are operational. Therefore, not all functions of the Service are available at all times and everywhere, and it cannot be guaranteed that all functions of the Service can be used anytime and anywhere.
- 1.2.2 The Service does not include vehicle insurance or any other insurance. Please note that you may be legally required to take out insurance; furthermore, it is your responsibility to procure further insurance protection, insofar as you consider it reasonable. The fees paid for the Service are unrelated to the value of the vehicle or any property in the vehicle, or to the cost of injury or damage that you or others may suffer.
- 1.2.3 In the event of a troubleshooting via remote repair (see number 2.) of section 1.1.2 of these ToU Porsche Connect Care), the Porsche Support instance employee will carry out a verification of the identity of the caller in advance.
- 2. Smart Service**
- Smart Service is available for the following vehicle model:
- Taycan
- The service "Smart Service" informs you in your PCM and in the My Porsche portal through messages and status displays about individual maintenance and repair needs for selected vehicle components. It is a prediction, especially in terms of the chassis, drive train and batteries, and is based on ongoing evaluations of your vehicle data. We endeavour (i) to make the prediction more precise over time, particularly by optimising the prediction models and/or the composition of the vehicle data used and/or (ii) to expand the scope of the maintenance and repair needs covered and/or (iii) to expand this scope to other vehicle components. The corresponding vehicle data is automatically transmitted to Porsche's systems and your Porsche Centre can retrieve this data if required. Your Porsche Center can contact you proactively based on this Vehicle Data via the channel you have selected.
- 2.1 Restrictions on use and system restrictions**
- The functionality of the Service exists only in relation to original Porsche vehicle components.
- 2.2 Contractual territory**
- Porsche HK provides you with the Service in accordance with these ToU Porsche Connect Care in Hong Kong.
- 3. Good to know – Driver's Manual**
- Good to know – Driver's Manual is available for the following vehicle model:
- Taycan
- Good to know - Driver's Manual provides you with a digital version of the driver's manual for your vehicle in PCM. In addition to the printed Driver's Manual included with the vehicle, the service offers additional functions described in section 3.1.

3.1 Detailed description of the service

- 3.1.1. The service provides you with Driver's Manual content in text and visual form (i.e. images, interactive graphics, animations) in PCM.
- 3.1.2. Any future changes to the contents of the Driver's Manual can be downloaded and updated.
- 3.1.3. The service also provides proactive references to the Driver's Manual based on the vehicle's warning and information messages. This provides you with more detailed information on the error messages.
- 3.1.4. The service also permits device-independent and synchronous use of the digital Driver's Manual. This means that pages bookmarked and selected as favourites in the vehicle, as well as those most recently visited, are also displayed on the digital output channels of Porsche AG, depending on country (assuming online availability of the vehicle, as well as login to the output channels).
- 3.1.5. In addition, "Good to know – Driver's Manual" can also be called up via the Voice Pilot.

3.2 Restrictions on use and system restrictions

The Driver's Manual content described in 3.1.1 is also available offline in PCM and the My Porsche App (download required). All other functions require a data connection. The display of Driver's Manual content in the form of additional animations is part of the Good to know – Driver's Manual Plus service, which is part of the Porsche Connect service package that can be booked separately.

4. Online Software Update

Online Software Update is available for the following vehicle model:
- Taycan

The Online Software Update is installed in your vehicle using over-the-air technology, without a workshop visit being required. Updates are downloaded in the background and can then be installed by you at any time, for example, when parking the vehicle overnight.

4.1. Detailed description of service

Regularly performing the updates means that the vehicle always has the latest software version. The updates are carried out in a similar manner to the update processes that you already know from other media/devices. If an update is available for your vehicle, it will be downloaded in the background. Once successfully downloaded, the update will be available for you to install in your vehicle's PCM. To start the installation, you must carry out the steps listed in the PCM (e.g. park the vehicle, switch on the handbrake, etc.). The vehicle cannot be used while the update is being carried out. You will receive a message in the PCM once the update has been successfully installed. You can deactivate and reactivate the Online Software Update service in the My Porsche portal at any time.

4.2. Restrictions on use and system restrictions

The functions described in 4.1 can be accessed in the PCM at any time, provided that your vehicle has connectivity, i.e. a reliable mobile phone connection. It is not possible to install an Online Software Update if your vehicle is in private mode. Additional requirements (e.g. parking the vehicle safely or not connecting the vehicle to a charging station) are update-specific and will be displayed in the PCM before each installation.

5. Updates

During the service package availability period, which coincides with the term of the service package contract, we will provide you with updates to at least the extent required by law, unless otherwise agreed with you in accordance with the legal requirements.

6. Use of data

In connection with the booking of the Service Package, certain data - potentially also personal data - may be collected in order to perform the respective Service. Depending on the Service, it may, for example, be necessary for the provision of such Service to collect and process data of components (e.g. 12 V battery, wiper blades) and to analyse such data.

Porsche HK may use such data - potentially in an anonymised form - for (i) the purpose of managing and improving quality, safety and security of the Service Package and/or Porsche HK Products (including Porsche vehicles), and (ii) for other commercial purposes. The use of certain data for the purpose of managing and improving quality, safety and security of the Service Package and/or Porsche HK Products (including Porsche vehicles) can be activated and deactivated using appropriate functionalities in the Porsche vehicle and/or My Porsche Portal.

For the above purposes, such data may also be transferred to other Porsche entities and other third parties that are engaged by Porsche HK or other Porsche entities in this context and - to the extent such data is anonymised - to other third parties.

The use of such data will be in compliance with applicable data protection law. Where required by law, Porsche HK will obtain the relevant consents. Further information can be found in the data protection and privacy information at <https://connect-store2.porsche.com/hk/en/t/privacy>.

7. Right of Withdrawal for Consumers

If the Customer is a consumer, he/she has a right of withdrawal for a period of 14 days in case of the conclusion of the contract. Consumer means every natural person who enters into a legal transaction for purposes that predominantly are outside his/her trade, business or profession. Hereafter, the term "contract" means the purchase of the Service Package "Porsche Connect Care". In the following, the Customer is instructed on his/her right of withdrawal:

Instructions on withdrawal

Right of withdrawal

You have the right to withdraw from this contract within 14 days without giving any reason.

The withdrawal period will expire after 14 days from the day on which the Service Package is made available to you for use (activation day). To exercise the right of withdrawal, you must inform us (Contact Porsche - c/o Porsche Hong Kong Ltd. - Rooms 1413-16, 14/F, Sun Hung Kai Centre, 30 Harbour Road, Wan Chai, Hong Kong, e-mail address: connect@cn.porsche.com) of your decision to withdraw from this contract by an unequivocal statement (e.g. a letter sent by post or email). You may use the attached model withdrawal form, but it is not obligatory.

To meet the withdrawal deadline, it is sufficient for you to send your communication concerning your exercise of the right of withdrawal before the withdrawal period has expired.

Effects of withdrawal

If you withdraw from this contract, we shall reimburse to you all payments received from you, including the costs of delivery (with the exception of the supplementary costs resulting from your choice of a type of delivery other than the least expensive type of standard delivery offered by us), without undue delay and in any event not later than 14 days from the day on which we are informed about your decision to withdraw from this contract. We will carry out such reimbursement using the same means of payment as you used for the initial transaction, unless you have expressly agreed otherwise; in any event, you will not incur any fees as a result of such reimbursement. If you requested to begin the performance of the services during the withdrawal period, you shall pay us an amount which is in proportion to what has been provided until you have communicated us your withdrawal from this contract, in comparison with the full coverage of the contract.

Model withdrawal form

(Complete and return this form only if you wish to withdraw from the contract)

Porsche Hong Kong Ltd.

Terms of Use for the Porsche Connect Services "Porsche Connect" (hereafter referred to as **ToU Porsche Connect**)

Porsche Hong Kong Ltd., Rooms 1413-16, 14/F, Sun Hung Kai Centre, 30 Harbour Road, Wan Chai, Hong Kong, (hereafter referred to as **Porsche HK, PHK or We**) operates under www.porsche.com (1) the My Porsche Portal and (2) various online marketplace functionalities (hereafter referred to as **Marketplace**) for the (i) sale of Porsche vehicles, parts, equipment and other vehicle-related and vehicle-independent products and (ii) provision of vehicle-related and vehicle-independent services. On the Marketplace, PHK also operates the Porsche Connect Store. For the use of the Marketplace including the Porsche Connect Store, the Terms and Conditions for the use of My Porsche Portal and Porsche's Online Marketplace Functionalities (incl. the Porsche Connect Store) as well as the sale of Porsche Connect Services and Porsche HK Products (hereafter referred to as **T&C**) apply. The current version of the T&C can be accessed, downloaded and printed at any time at <https://connect-store.porsche.com/hk/en/t/termsandconditions>.

In the Porsche Connect Store, the user may also book "Porsche Connect" (hereafter **Service Package**). These ToU Porsche Connect govern the use of Porsche Connect and apply to the order, use and/or renewal of Porsche Connect. These ToU Porsche Connect apply in addition to the T&C. Insofar as a provision of the T&C conflicts with these ToU Porsche Connect, the ToU Porsche Connect prevail.

Any terms defined in the T&C shall have the same meaning in these ToU Porsche Connect. This shall in particular apply to the following terms:

- Customer: defined in section 1.3 of the T&C;
- Porsche Connect Store and Porsche Connect Services: defined in section 3.1.1 of the T&C;
- PHK Customer: defined in section 3.1.2 of the T&C.

"Porsche Connect"

Porsche Connect is exclusively available for the following vehicle models:

- Taycan
- Cayenne (from model year 2022)
- 911 (from model year 2022)
- Panamera (from model year 2022)

Note on Taycan:

The services offered vary depending on the model year and software update. For vehicles of the model year 2020 (you can identify the model year from the tenth digit of the vehicle identification number (VIN) with the letter L), the "Lock & Unlock" service and the "Horn & Indicator" services are not available. For the vehicles model year 2020 a software update in the workshop is required to use in particular the service Apple Podcasts® (feature of Media Streaming service). Please contact your dealer for further information. Model year 2022 vehicles also require a software update in the workshop, in particular to enable use of the Spotify service (media streaming service function). Contact your dealer for further information.

Porsche Connect includes – depending on the geographic availability – the services described in the following. The current geographic availability can be found in the Porsche Connect Store at <https://connect-store.porsche.com/hk/en/>

Term: from 1 month

Free-of-charge inclusive period: When buying a new Connect-able vehicle, Porsche Connect may be booked free-of-charge for 36 months.

Further requirements for the use of all services included in the Service Package: The Porsche Communication Management of a Connect-able vehicle (hereafter referred to as **PCM**) must have connectivity. If the connectivity is provided via the embedded SIM card of the PCM, the use of such connectivity for this Service Package is included in the price of the Service Package. If the connectivity is not provided via the embedded SIM card of the PCM (e.g. because connectivity via the embedded SIM card of the PCM is not available in all countries), connectivity may be established using a mobile phone with an appropriate mobile data plan. This requires a separate contract with a mobile service provider. Depending on the contract concluded with the mobile phone provider, this may result in additional costs, including roaming costs when the service is used abroad. If you connect the PCM via your mobile phone, please ensure that this is permitted according to your mobile plan. The availability and speed of the services included in the Service Package depends on the availability and speed of the data connection provided by your mobile service provider.

The following applies to models with Porsche Connect:

1. Finder

1.1 **Description:** With the service "Finder" you can search for points of interest (e.g. charging stations, petrol stations, restaurants, hotels, and parking spaces) via a system-defined online search engine in a **pre**-defined database. The search results may provide additional information such as telephone numbers, opening hours, fuel prices, parking fees, or ratings by other users. Points of interest may also be searched, stored, managed and forwarded to the PCM in My Porsche and in the My Porsche App.

1.2 Finder (except Panoramic View) is available for the following vehicle model:
– Taycan

2. Navigation Plus

2.1 **Description:** With the service "Navigation Plus", the route calculation of the PCM in the vehicle is supplemented by online services.

The PCM's navigation system uses current GPS and traffic data to optimise the route to the entered destination to the minute. In the map view, the roads are marked in colour according to the traffic situation. The maps of the PCM navigation system are updated online.

The PCM navigation system can display the map in satellite view. By caching the loaded map data of the current vehicle environment, the satellite view will be maintained even if the connectivity is interrupted temporarily.

- 2.2 Navigation Plus (except 3D Buildings, Lane based navigation, My Destinations and Personal Routes) is available for the following vehicle model:
- Taycan

3. Radio Plus

- 3.1 **Description:** With the service "Radio Plus", you can access the online channels of radio stations. When Radio Plus is activated and the reception of the radio sources FM or Digital Audio Broadcasting (DAB) is temporarily impaired, the PCM automatically switches to the corresponding online channel of that station (if available). The service also displays metadata available via the PCM about the songs and stations you are playing.
- 3.2 **Restrictions of use:** The online and hybrid radio functionalities are available in selected countries only. The data connection for this service requires (a) a data package (available separately from the cooperation partner in selected countries) or (b) a connection via the mobile phone connected to the PCM (tethering), with a corresponding mobile data tariff.
- 3.3 Radio Plus is available for the following vehicle model:
- Taycan

4. News

- 4.1 **Description:** The service allows to call up the latest news by subscribing to RSS feeds directly in the PCM. With the Voice Pilot you can have the articles read to you. Via keyword search, the subscribed channels may be browsed for information on preferred topics or keywords.
- 4.2 **Requirements:** For a personalized use the customer can subscribe to feeds under his or her Porsche ID. In this case, these feeds, are available in the vehicle only.
- 4.3 News is available for the following vehicle model:
- Taycan

5. Weather

- 5.1 **Description:** The service "Weather" displays the current weather situation and the forecast for the following hours and days for the current position, the activated destination as well as any stored favourites. The forecast comprises for example temperature, number of hours of sunshine, probability of rain, wind speed and air quality. Reading aloud via Voice Pilot is possible, too.
- 5.2 **Restrictions of use:** The air quality is displayed in China only.
- 5.3 Weather is available for the following vehicle model:
- Taycan

6. Car Control

- 6.1 **Services:** You have the option to check the status of your vehicle remotely on the smartphone. The service comprises the display of the outer casing status (e.g. status of the doors), the display of service intervals or the mileage.

- 6.2 Car Control is available for the following vehicle model:
- Taycan

7. Trip Control

- 7.1 **Services:** You have the option to check the trip data of your vehicle remotely. This includes: driving time, route, average speed and average consumption for all types of journey (short, recurring, long).
- 7.2 **Restrictions of use:** Accessible information is updated only after the ignition status has changed.
- 7.3 Trip Control is available for the following vehicle model:
- Taycan

8. Lock & Unlock (available for the Taycan only from model year 2021)

- 8.1 **Services:** You have the option to remotely lock and unlock the doors and the trunk of your vehicle. You receive a confirmation message or a push notification after the process.
- 8.2 **Restrictions of use:** This service is only available if the vehicle is stationary, the driver's door is closed, the ignition is switched off and the key is not inserted into the ignition lock. Further restrictions may apply according to country-specific regulations.
- Note:** Using the unlock function in your absence from the vehicle increases the risk of vehicle theft or theft of items placed in the vehicle. To prevent unauthorised use, a four-digit security code must be entered to use the unlock function. You will determine the security code when you register and set up Porsche Connect for the first time. The security code can be changed subsequently in the My Porsche Portal.

9. E-Control (only available for electric and hybrid vehicles)

- 9.1 **Services:** You can remotely check the status of your vehicle and start or stop the charging process as follows. You can check the connection status, the remaining charging time and the current electric range. The electric range is indicated by a circle on the map. You also have the option of optimising the charging process of the high-voltage battery of your vehicle for a certain departure time. You can set departure timers and receive a confirmation message or push notification when events occur (for example, charging interrupted) and when an activated E-Timer has expired.
- 9.2 **Use restrictions:** The range indicated by the circle on the map is only an estimated value. The values on the map do not reflect the actual route distances. Therefore, in reality, locations could be beyond the electric range even if they appear within the electric range circle. This service is available exclusively for electric and hybrid vehicles.
- 9.3 E-Control is available for the following vehicle model:
- Taycan

10. Climate (only available for electric and hybrid vehicles)

- 10.1 **Services:** You can remotely check the status of the heating and/or air conditioning system and activate or deactivate them as follows. Once the heating and/or air conditioning has been successfully activated or deactivated, you will receive a confirmation message or a push notification. You also have the option to remotely set the Climate Timer for remote heating and/or air conditioning. Once it is set, you will receive a confirmation message or a push notification on your mobile device when an activated Climate Timer has expired.

10.2 **Use restrictions:** This service is available exclusively for electric and hybrid vehicles.

10.3 Climate is available for the following vehicle model:
– Taycan

11. Calendar

11.1 **Description:** The service Calendar allows third-party calendars available online to be directly linked to the PCM. Additionally, calendars approved for the My Porsche App on the smartphone may be connected to the PCM via the My Porsche App. The service offers a daily view. Furthermore, addresses contained in calendar entries can be identified and used directly as navigation destination. Direct dial-in to conference calls is also possible, whereas the dial-in can only take place via your mobile phone connected to the PCM via Bluetooth.

11.2 **Restrictions of use:** The direct dial-in to conference calls (i.e. dial-in without entering a PIN or other conference ID) is only possible for supported meeting invitation formats and via Bluetooth with the PCM-connected mobile phone.

11.3 **Requirements** The My Porsche App must be downloaded on the PHK Customer's smartphone to be connected with the vehicle. The service can only access the smartphone calendar if access to the calendar is authorised explicitly for the My Porsche App in the settings of the operating system.

11.4 Calendar is available for the following vehicle model:
– Taycan

12. Media Streaming

12.1 **Description:** The music streaming (Apple Music®) and podcasts (Apple Podcasts®) and Spotify services offer direct and personalized access to the customer's linked media library and features of the respective third-party music streaming provider and podcast provider, provided they are supported in the vehicle. After the initial setup, the PHK customer no longer needs their smartphone and can use the service with their Porsche ID in all supported vehicles. The services can also be used in guest mode if third-party provider accounts are linked. Exclusive features such as direct storage of radio titles in the customer-specific media library or navigation via Voice Pilot are available with selected providers.

12.2 **Restrictions of use:** These services may only be used in countries where the service is also offered by the third-party provider. An exception applies to the countries of Andorra and Bosnia-Herzegovina, where the services cannot be used. In guest mode, the service of a third-party provider may only be used locally in the respective vehicle, but not in any other vehicle.

12.3 **Requirements:** In order to use the contents of the service Music Streaming, the PHK Customer must have an account as well as an active subscription of the Service Package. Additionally an active subscription of the respective third-party provider is necessary. The data required for using the service are included in the Service Package. In order to be able to use the service in a personalized manner, the PHK Customer must link his/her third-party account to the Porsche account once.

12.4 Media Streaming (except Apple Podcasts – Video) is available for the following vehicle model:
– Taycan

If the PHK Customer is a consumer, he/she has a right to cancel for a period of 14 days in case of the conclusion of the contract. A consumer means a natural person who enters into a legal transaction for purposes that predominantly are outside the person's trade, business or profession. Hereafter, the term "contract" means the purchase of Porsche Connect. In the following, the PHK Customer is instructed on its right of cancel:

Instructions for cancellation

Right to cancel

You have the right to cancel from this contract within 14 days without giving any reason.

The cancellation period will expire after 14 days from the day on which Porsche Connect is made available to you for use (activation day).

To exercise the right to cancel, you must inform us (Contact Porsche - c/o Porsche Hong Kong Ltd. - Rooms 1413-16, 14/F, Sun Hung Kai Centre, 30 Harbour Road, Wan Chai, Hong Kong, e-mail address: connect@cn.porsche.com) of your decision to cancel this contract by an unequivocal statement (e.g. a letter sent by post or email). You may use the attached model cancellation form, but it is not obligatory.

To meet the cancellation deadline, it is sufficient for you to send your communication concerning your exercise of the right to cancel before the cancellation period has expired.

Effects of cancellation

If you cancel this contract, we shall reimburse to you all payments received from you, including the costs of delivery (with the exception of the supplementary costs resulting from your choice of a type of delivery other than the least expensive type of standard delivery offered by us), without undue delay and in any event not later than 14 days from the day on which we are informed about your decision to cancel this contract. We will carry out such reimbursement using the same means of payment as you used for the initial transaction, unless you have expressly agreed otherwise; in any event, you will not incur any fees as a result of such reimbursement. If you requested to begin the performance of services during the cancellation period, you shall pay us an amount which is in proportion to what has been provided until you have communicated us your decision to cancel this contract, in comparison with the full coverage of the contract.

Right to cancel for consumers

Porsche Hong Kong Ltd.

Terms of Use
for the Porsche Connect services "Porsche Connect"
(hereinafter referred to as **ToU Porsche Connect**)

Porsche Hong Kong Ltd., Rooms 1413-16, 14/F, Sun Hung Kai Centre, 30 Harbour Road, Wan Chai, Hong Kong (hereinafter **Porsche HK, PHK or We**) operates, at www.porsche.com, (1) the My Porsche portal and (2) various online marketplace functionalities (hereinafter **Marketplace**) for (i) the sale of Porsche vehicles, parts, accessories and other vehicle-related and vehicle-independent products and (ii) the provision of vehicle-related and vehicle-independent services. PHK also operates the Porsche Connect Store on the Marketplace. For the use of the Marketplace, including the Porsche Connect Stores, the General Terms and Conditions (hereinafter **GTC**) for the use of the My Porsche portal and the Porsche Online Marketplace functionalities (including the Porsche Connect Store), as well as for the sale of Porsche Connect services and Porsche HK products apply. The current version of the GTC can be accessed, downloaded and printed out at any time at <https://connect-store2.porsche.com/hk/en/t/termsandconditions>.

The user can also book "Porsche Connect" (hereinafter **Service Package**) in the Porsche Connect Store. These ToU Porsche Connect govern the use of Porsche Connect and apply to the ordering, use and/or extension of Porsche Connect. The ToU Porsche Connect apply in addition to the GTC. Insofar as any provision of the GTC is in conflict with these ToU Porsche Connect, the ToU Porsche Connect shall prevail.

Terms defined in the GTC have the same meaning with regard to these Porsche Connect ToU. This applies in particular to the following terms:

- Customer: defined in point 1.3 of the GTC;
- Porsche Connect Store and Porsche Connect services: defined in point 3.1.1 of the GTC;
- PHK Customer: defined in point 3.1.2 of the GTC;

"Porsche Connect"

These ToU Porsche Connect apply to the following vehicle models:

- Macan (from model year 2024)

Depending on geographic availability, Porsche Connect includes the services described below. The current geographical availability can be found in the Porsche Connect Store at <https://connect-store.porsche.com/hk/en/>.

Duration: from 1 month

Free inclusive period: Porsche Connect can be booked free of charge for 10 years when purchasing a new vehicle with Connect capabilities.

Your vehicle remains Porsche Connect-enabled for 10 years, which means that the Porsche Connect services can be used in your vehicle. The required connectivity for the use of 3rd party apps and the Wi-Fi hotspot will be provided to you free of charge (by our contractual partner) for 4 years from the vehicle handover. More details can be found at <https://connect-store.porsche.com/hk/en/>.

store.porsche.com/hk/en. PHK is continuously developing its services and functionalities. It is therefore possible under certain circumstances that not all software functions or new features that Porsche introduces for newer or different models will be usable or functional in your vehicle.

Another precondition for using all the services included in the Service Package: The Porsche Communication Management (hereinafter **PCM**) in a Connect-enabled vehicle must have connectivity. Connectivity is provided via the PCM's integrated SIM card. The use of connectivity for this Service Package (with the exception of the "App Centre", "Online/Hybrid Radio" services and Internet access via WiFi hotspot) is included in the price of the Service Package. For the services "App Centre", "Online/Hybrid Radio" and Internet access via WiFi hotspot, (a) a data package or (b) a connection via a mobile phone (tethering) with a corresponding mobile data tariff is also required. A separate contract must be concluded with a mobile service provider for this purpose. This may incur additional costs, including roaming charges for using the service abroad, depending on the contract concluded with the mobile service provider. If you connect the PCM via your mobile phone, please make sure that this is permitted by your mobile data plan. The availability and speed of the services included in the Service Package are subject to the availability and speed of the data connection provided by your mobile service provider. In some countries, you can book a free Data Pass 5GB for 4 years with our respective cooperation partner.

1 Finder

Description: With the "Finder" service, you can use a system-defined online search engine in a predefined database for points of interest (e.g. charging stations, petrol stations, restaurants, hotels, and parking spaces). The search results sometimes contain additional data, such as telephone numbers, opening times, fuel prices, parking fees or reviews by other users. Points of interest can also be searched for, saved, managed and transmitted to the PCM in My Porsche and in the My Porsche app.

2 Voice Pilot

2.1 Description:

With the "Voice Pilot" service, various functions of the PCM and other services can be operated using voice input. Additional functionalities, such as media searches, points of interest or weather information, are made possible by means of online speech recognition.

2.2 Use restrictions:

Operation of the Voice Pilot is limited to the supported languages. The lack of an online connection can limit the results.

Due to external influences, such as background noise, for example, the **speech recognition** may not always produce the desired results.

3 Navigation Plus

Description: With the “Navigation Plus” service, route calculation by the PCM in the vehicle is supplemented by online services.

The PCM navigation system uses current GPS data and traffic data to optimise the route to the specified destination down to the minute. Roads are shown in colour in the map display according to the traffic situation. The maps of the PCM navigation system are updated online.

The PCM navigation system can display the map in satellite view. By caching the loaded map data of the current environment of the vehicle, the satellite view is retained even if the connection is temporarily interrupted.

4 Charging Planner

4.1 Description:

The “Charging Planner” service improves the route of the PCM navigation system to achieve the shortest possible total travel time (journey time and charging stops), based on the selected destination, the remaining range, the driving profile, available real-time traffic data, as well as available charging stations and their charging capacity. Necessary charging stops are automatically planned into the itinerary.

4.2 Use restrictions:

The service does not always have precise information. As a result, information regarding charging station availability may be inaccurate.

5 Radio Plus

5.1 Description:

The “Radio Plus” service can be used to access online channels provided by radio stations. If Radio Plus is active and the reception of the radio sources FM or Digital Audio Broadcasting (DAB) is currently disrupted, the PCM automatically switches to the respective online channel from the station (if available). The service also displays metadata available via the PCM about the songs and stations you are playing.

5.2 Use restrictions:

The online and hybrid radio functions are only available in select countries. The data connection for this service requires (a) a data package (available separately from the cooperation partner in selected countries) or (b) a connection via the mobile phone connected to the PCM (tethering), with a corresponding mobile data tariff.

6 Car Control

6.1 Description:

It is possible to check the status of your vehicle remotely on your smartphone. The service includes display of information regarding the outer shell status (e.g. status of the doors), service intervals or the current mileage.

6.2 Use restrictions:

The screen for additional PHEV information (e.g. electric range) is available solely for such vehicles.

7 Trip Control

7.1 Description:

It is possible to check the driving data of your vehicle remotely on your smartphone. This includes: travel time, distance, average speed and average consumption for all trip types (short, repetitive, long).

7.2 Use restrictions:

Retrieval information is only updated when the ignition status changes.

8 Lock & Unlock

8.1 Description:

It is possible to open the doors and luggage compartment of your vehicle remotely. Afterward, you will receive a confirmation message or a push notification.

8.2 Use restrictions:

This service is only available when the vehicle is stationary, the driver's door is closed, the ignition is switched off and the key is not in the ignition switch. Further restrictions may apply depending on country-specific regulations.

8.3 Note:

Using the unlock function when you are not present in the vehicle increases the risk of vehicle theft or theft of items in the vehicle. To prevent unauthorised use, execution of the open function therefore requires the entry of a four-digit security code. You specify the security code when you register and set up Porsche Connect for the first time. This security code can be changed at a later point in the My Porsche portal.

9 E-Control

9.1 Description:

You can check the status of your vehicle remotely as well as start or stop the charging process as follows. You can check the connection status, the remaining charging time, and the current electric range. The electric range is indicated by a circle on the map. You also have the option of optimising the charging process of the high-voltage battery of your vehicle for a certain departure time. You can set departure timers and receive a confirmation message or push notification when events occur (for example, charging interrupted) and when an activated E-Timer has expired.

9.2 Use restrictions:

The range indicated by the circle on the map is only an estimated value. The values on the map do not reflect the actual route distances. Therefore, in reality, locations could be beyond the electric range even if they appear within the electric range circle. This service is available exclusively for electric and hybrid vehicles.

10 Climate

10.1 Description:

You can check the status of the heating/air-conditioning system remotely, and activate or deactivate them as follows. Once the heating and/or air-conditioning has been successfully activated or deactivated, you will receive a confirmation message or a push notification. You can also set the Climate Timer for remote-controlled heating and/or air-conditioning remotely. Once you have configured this setting, you will receive a confirmation message or a push notification on your mobile device as soon as an activated Climate Timer has expired.

10.2 Use restrictions:

This service is available for electric and hybrid vehicles. The service is available for vehicles with a combustion engine equipped with a pre-heater. The service is only available when the vehicle is stationary, but the ignition may be switched on. For further information on using the pre-heater, please refer to the driver's manual for the vehicle. Further restrictions may apply as a result of country-specific regulations.

11 Breakdown Call

After the "Breakdown Call" service has been triggered, the service establishes a voice and data connection to the Porsche Support instance assigned to the vehicle and transmits your vehicle location and all relevant vehicle information to the Porsche Support instance. You can use this vehicle information to personally talk to employees at the Porsche Support instance..

11.1 Description:

11.1.1

You can trigger the service either via the Porsche Communication Management of a vehicle with Connect capabilities (hereinafter **PCM**) or via the Porsche Connect app. Activation can therefore be carried out by any main- or secondary user, as well as by anyone who has access to the vehicle interior. After the service has been triggered, a voice and data connection is automatically established from the vehicle to the assigned Porsche Support instance. The data sent from the vehicle to the Porsche Support instance can contain information such as the vehicle identification number (Vehicle ID), vehicle model, year of production and special equipment, vehicle location, occurrence of an accident, fuel level, tyre pressure, remaining range with the available fuel, vehicle status and error messages (hereinafter car data). The Porsche Support instance and/or a dialogue in the My Porsche App and/or in the vehicle infotainment system might ask you for your consent for calling up the vehicle identification number and/or other car data.

11.1.2

During the voice connection, the Porsche Support instance will ask you questions to further assess your breakdown situation. Depending on the particular breakdown situation, the Porsche Support instance can offer you various assistance options as follows:

11.1.2.1

The Porsche Support instance can give advice on how to proceed (e.g. "Please top up oil at the nearest gas station"); and/or

11.1.2.2

The Porsche Support instance can analyse the received car data in more detail and try to identify the problem. The findings gathered can be passed on to the respective Porsche Centre, which enables them to prepare for the vehicle's visit to the workshop or to initiate further measures. If a problem can be solved via remote repair, the Porsche Support instance can carry this out. The prerequisite for this is the fulfilment of various problem-dependent preconditions such as: engine switched off, vehicle is stationary, engine immobiliser is active, windows are closed, no active charging process. If necessary, further car data required for this purpose are read out. In addition, it is possible that the breakdown and/or emergency call functionality will not exist or be limited during the problem solving via remote repair. Before starting to troubleshoot the problem via remote repair, the Porsche Support instance will inform you of any such preconditions and/or usage restrictions, which you must then confirm. This is only a troubleshooting attempt, so additional steps may be necessary; and/or

11.1.2.3

The Porsche Support instance can request external support, e.g. breakdown assistance or towing of the non-functional vehicle. Your call will not be forwarded to other service providers. If your vehicle needs to be repaired, the Porsche Support instance can, subject to your prior consent, forward the car data to a Porsche Centre.

11.1.3

Any services provided by the Porsche Support instance after the breakdown call require a separate contract, which could result in additional costs. You can find more information about the Porsche Support instance and in particular about the service components covered by contacting your Porsche Centre or by

inquiring with your support service provider " Inter Partner Assistance Hong Kong". The Porsche Support instance can determine the Porsche Support instance status of your vehicle.

11.1.4

If you access or use third-party products or services, the terms and conditions of those products or services apply. PHK is not responsible for access to or use of these products or services.

11.1.5

Please note that triggering the service via the My Porsche app on your mobile device may incur additional costs, depending on the terms of the mobile phone contract that you have concluded with a third-party telecommunications provider.

11.2 Use restrictions:

11.2.1

The service is provided via a telematics unit installed in the vehicle, which receives GPS satellite signals and communicates with the Porsche Support instance via wireless communication systems and communication networks. Due to the nature of the technologies used for the functions of the service and contained in the telematics unit, the functions of the service (or parts of the service) may from time to time not be available in all parts of the contract territory of these ToU Porsche Connect and/or may be negatively affected by physical conditions, including but not limited to removal or tampering with the telematics unit or its antenna, electromagnetism, the vehicle being in a garage, underpass or any other location where the GPS or wireless communication networks are not available, atmospheric conditions and other causes of interference that are beyond our control (e.g. failure of GPS or communication networks). In particular, the operation of the telematics unit and thus the provision of the functions of the service in accordance with these ToU Porsche Connect depends on the GPS networks and the wireless and fixed communication networks used by the telematics unit being operational. Therefore, not all functions of the service are available anytime and anywhere, and there is no guarantee that all functions of the service will be operational anytime and anywhere.

11.2.2

The service does not include vehicle insurance or any other insurance. Please note that you may be required by law to have insurance; furthermore, it is your responsibility to arrange for such other insurance cover as you deem reasonable. The fees paid for the service are unrelated to the value of the vehicle or any property in the vehicle, or the cost of any injury or damage suffered by you or others.

11.2.3

In the event that a problem is to be solved by remote repair as per point 18.1.2.2 of these ToU Porsche Connect, the customer must give consent to the Porsche Support instance in advance.

12 Good to know – Driver's Manual

Good to know - Driver's Manual provides you with a digital version of the driver's manual for your vehicle in Porsche Communication Management (PCM). In addition to the printed Driver's Manual included with the vehicle, the service offers additional functions described in paragraph 20.1.

12.1 Description:

12.1.1

The service provides you with Driver's Manual content in text and visual form (i.e. images, interactive graphics, animations) in PCM.

12.1.2

Any future changes to the contents of the Driver's Manual can be downloaded and updated.

12.1.3

The service also provides proactive references to the Driver's Manual based on the vehicle's warning and information messages. This provides you with more detailed information on the error messages.

12.1.4

The service also permits device-independent and synchronous use of the digital Driver's Manual. This means that pages bookmarked and selected as favourites in the vehicle, as well as those most recently visited, are also displayed on the digital output channels of Porsche AG, depending on the country (assuming online availability of the vehicle, as well as login to the output channels).

12.1.5

In addition, "Good to know – Driver's Manual" can also be called up via the Voice Pilot.

12.2 Use restrictions:

The Driver's Manual content described in 20.1.1 is also available offline in PCM and the My Porsche App (download required). All other functions require a data connection.

13 Online Software Update

Online Software Update is installed in your vehicle using over-the-air technology, without a workshop visit being required. Updates are downloaded in the background and can then be installed by you at any time, for example, when parking the vehicle overnight.

13.1 Description:

Regularly performing updates means that the vehicle always has the latest software version. The updates are carried out in a similar manner to the update processes that you already know from other media/devices. If an update is available for your vehicle, it will be downloaded in the background. Once successfully downloaded, the update will be available for you to install in your vehicle's PCM. To start the installation, you must carry out the steps listed in the PCM (e.g. park the vehicle, switch on the handbrake, etc.). The vehicle cannot be used while the update is being carried out. You will receive a message in the PCM once the update has been successfully installed. You can deactivate and reactivate the Online Software Update service in the My Porsche portal at any time.

13.2 Use restrictions:

The functions described in 21.1 can be accessed in the PCM at any time, provided that your vehicle has connectivity, i.e. a reliable mobile phone connection. It is not possible to install an Online Software Update if your vehicle is in private mode. Additional requirements (e.g. parking the vehicle safely or not connecting the vehicle to a charging station) are update-specific and will be displayed in the PCM before each installation.

14 Updates

During the Service Package availability period, which coincides with the term of the Service Package contract, we will provide you with updates to at least the extent required by law, unless otherwise agreed with you in accordance with the legal requirements.

15 Data usage

In connection with booking the Service Package, certain data, which possibly includes personal data, can be collected in order to fulfil the respective service. Depending on the service, it may be necessary, for example, to collect, store and analyse data about components (e.g. 12 V battery, wiper blades) in order to provide the service.

Porsche HK may use this data – possibly in anonymised form – for (i) the management and improvement of the quality and safety of the Service Package and/or PHK products (including Porsche vehicles) and (ii) other commercial purposes. The use

of certain data for management purposes and for improving the quality and safety of the Service Package and/or the PHK products (including Porsche vehicles) can be activated and deactivated using the corresponding functionalities in the Porsche vehicle and/or in the My Porsche portal.

For the aforementioned purposes, this data can also be passed on to other Porsche companies and other third parties commissioned by Porsche HK or other Porsche companies in this context and – if this data is anonymised – disclosed to third parties.

The use of data as described takes place in accordance with the applicable data protection regulations. To the extent required by law, Porsche HK will obtain the appropriate consent. Further information can be found in the data privacy policy at <https://connect-store2.porsche.com/hk/en/t/privacy>.

16 Right to cancel for consumers

If a customer is a consumer, the customer has a 14-day right of cancellation when a contract is concluded. A consumer is an individual acting for purposes which are wholly or mainly outside that individual's trade, business, craft or profession. In the following, the term "contract" means the purchase of Porsche Connect. The customer is informed of their right of cancellation below:

Cancellation policy

Right of cancellation

You have the right to cancel this contract within 14 days without specifying a reason.

The cancellation period is fourteen days from the day on which Porsche Connect is made available to you for use (day of activation).

To exercise your right of cancellation, you are required to inform us of this (Contact Porsche - c/o Porsche HK - Rooms 1413-16, 14/F, Sun Hung Kai Centre, 30 Harbour Road, Wan Chai, Hong Kong, e-mail address: connect@cn.porsche.com) by submitting a clear statement (e.g. a letter sent by post or email) detailing your decision to cancel this contract. You can use the enclosed sample cancellation letter for this, but it is not obligatory.

In order to cancel within the cancellation period, it is sufficient for your notice to cancel to have been sent before the period expires.

Effects of cancellation

If you cancel this contract, we shall reimburse all payments received from you, including the costs of delivery (with the exception of the additional costs resulting from your choice of a type of delivery other than the least expensive type of standard delivery offered by us), immediately and no later than 14 days from the day on which we receive your letter concerning your decision to cancel this contract. We will reimburse all payments using the same method of payment you used for the original transaction, unless we have expressly agreed otherwise with you; in any event, you will not incur any charges as a result of this reimbursement. If you have requested that the services should begin during the cancellation period, you must pay us an appropriate amount to cover the share of services already provided up to the time at which you inform us of your intention to exercise your right of cancellation for this contract, as compared with the total scope of services included in the contract.

Sample cancellation form

(If you wish to cancel the contract, please complete and return this form.)

- To Contact Porsche - c/o Porsche HK - Rooms 1413-16, 14/F, Sun Hung Kai Centre, 30 Harbour Road, Wan Chai, Hong Kong, e-mail address: connect@cn.porsche.com:
- I/we(*) hereby cancel the contract concluded by me/us(*) for the purchase of the following goods(*)/the provision of the following service(*)
- Ordered on(*)/received on(*)
- Name of the consumer(s)
- Address of the consumer(s)

- Signature of the consumer(s) (required for paper notifications only)
