Pogoji uporabe
za paket „Navigacija, informacije in zabava“ storitve Porsche Connect
(v nadalnjem besedilu **pogoji uporabe**)

Ti pogoji uporabe urejajo uporabo paketa „Navigacija, informacije in zabava“ storitve Porsche Connect. Ti pogoji uporabe se uporabljajo poleg pogojev za trgovino Porsche Connect, storitve Porsche Connect in izdelke Porsche (pogoji). Če je določba iz teh pogojev v nasprotju s pogoji uporabe, prevlada določba iz pogojev uporabe.

„Navigacija, informacije in zabava“

Paket „Navigacija, informacije in zabava“ vključuje 18 ali manj komponent paketa storitev, opisanih v nadaljevanju, odvisno od opreme vozila in geografske razpoložljivosti. Trenutno geografsko razpoložljivost si lahko ogledate v trgovini Porsche Connect na povezavi <https://connect-store.porsche.com/si/en/>.

Obdobje: 1 leto

Veljavno obdobje: v primeru nakupa vozila s funkcijo Connect, vključno z možnostjo »Connect Plus«, ali nakupa modela 718 od maja 2018 dalje, vključno z možnostmi »Navigation z možnostjo Porsche Connect«, je mogoče paket Navigation & Infotainment Package (navigacija in multimedijiški sistem) brezplačno rezervirati za 2 leti.

Dodatne zahteve za uporabo za vse komponente paketa storitev: Sistem Porsche Communication Management v vozilu z možnostjo storitve Connect (v nadalnjem besedilu **PCM**) mora biti povezan z internetom. Če se ta internetna povezava vzpostavi prek vgrajene kartice SIM sistema PCM, je uporaba takšne internetne povezave za ta paket storitev (razen za komponento paketa storitev „Radio Plus“) vključena v ceno tega paketa storitev. Če se ta internetna povezava ne vzpostavi prek vgrajene kartice SIM sistema PCM (npr. ker vozilo ni opremljeno z vgrajeno kartico SIM ali ker internetna povezava prek vgrajene kartice SIM ni na voljo v vseh državah), se s ponudnikom mobilnih storitev sklene ločena pogodba za naročniški paket za prenos podatkov, zaradi česar lahko nastanejo dodatni stroški, vključno s stroški gostovanja za uporabo storitve v tujini. Kartico SIM z naročniškim paketom za prenos podatkov je treba vstaviti v bralnik kartice SIM sistema PCM ali vzpostaviti povezavo z mobilnim telefonom z naročniškim paketom za prenos podatkov. Če sistem PCM poveže s svojim mobilnim telefonom, se prepričajte, da vaš naročniški paket za prenos podatkov to dovoljuje. Razpoložljivost in hitrost komponent paketa storitev sta odvisni od razpoložljivosti in hitrosti internetne povezave.

Za modele s storitvijo Porsche Connect, razen za novi Cayenne (modelsko leto 2018), za novi Macan (modelsko leto 2018) in za novi 911 (modelsko leto 2019) (več podrobnosti o tem modelu si lahko ogledate spodaj), veljajo spodnja določila:

1. Prometne informacije v realnem času

Storitve: Navigacijski sistem sistema PCM uporablja trenutne podatke GPS in podatke o količini prometa, da lahko optimizira pot do vnesenega cilja na minuto. Količina prometa bo na prikazanem zemljevidu dodatno označena z barvami: zelena za nizko gostoto prometa, rumena za počasno premikanje in rdeča za zastoj.

2. Spletno posodabljanje zemljevidov

Storitve: Zemljevidi navigacijskega sistema PCM se lahko posodobijo prek interneta. Sistem PCM bo prikazal posodobitve, ki so na voljo.

3. Satelitski posnetki

Storitve: Navigacijski sistem PCM lahko prikaže zemljevid v obliki satelitske slike. Z medpomnenjem naloženih podatkov zemljevida o trenutni okolici vozila se bo prikaz satelitske slike ohranil, tudi če pride do začasne motnje internetne povezave. Vozila modelskega leta 2019 je treba po potrebi posodobiti, da se lahko uporablja storitev. Za dodatne informacije se obrnite na svojega partnerja Porsche.

4. Spletno iskanje

Storitve: S komponento paketa storitev „Spletno iskanje“ lahko poiščete naslove ali posebne cilje s sistemsko določenim spletnim iskalnikom. Iskalni rezultati delno dodatno vključujejo nadaljnje podatke, kot so telefonske številke, delovni čas ali ocene drugih uporabnikov interneta.

Storitve: S komponento paketa storitev „Informacije o parkiriščih“ se vam bodo prikazale najbliže razpoložljive možnosti parkiranja na integriranih komercialnih parkiriščih in v parkirnih hišah (vključno s parkirnimi in delovnim časom), ki jih sporočijo operaterji, v bližini vozila ali na navigacijskem cilju navigacijskega sistema PCM. Najdeno možnost parkiranja lahko izberete kot navigacijski cilj za navigacijski sistem PCM.

6. Cene goriva

Storitve: S komponento paketa storitev „Cene goriva“ se vam bodo prikazale sodeljujoče bencinske črpalke v bližini vozila, na poti ali na navigacijskem cilju navigacijskega sistema PCM glede na vrsto goriva za posamezno vozilo z možnostjo storitve Connect. Seznam rezultatov lahko razvrstite glede na razdaljo ali najugodnejšo ceno, ki jo sporoči operater bencinske črpalke ali drugi uporabniki. Prek brezplačnega besedilnega iskanja lahko iščete tudi posamezne znamke. Najdene bencinske postaje lahko izberete kot navigacijski cilj za navigacijski sistem PCM.

7. Polnilne postaje

Storitve: S komponento paketa storitev „Polnilne postaje“ se vam bodo prikazale sodelujoče polnilne postaje v bližini vozila, na poti ali na navigacijskem cilju navigacijskega sistema PCM. Ti Pogoji uporabe veljajo za uporabo »Paketa za upravljanje avtomobila na daljavo« družbe Porsche Connect. Ti Pogoji uporabe se uporabljajo poleg Splošnih pogojev trgovine Porsche Connect in storitve Porsche Connect ter izdelke Porsche (Splošni pogoji). Če je določilo Splošnih pogojev v nasprotju s temi Pogoji uporabe, prevladajo Pogoji uporabe.

Car Remote Package

Car Remote Package« vključuje – odvisno od geografske razpoložljivosti – 12 ali manj spodaj opisanih komponent storitev. Trenutna geografska razpoložljivost je na voljo v trgovini Porsche Connect na povezavi <https://connect-store.porsche.com/si/en/>. Dodatna zahteva za uporabo vseh komponent paketov storitev: Za nekatere funkcije storitev je potreben pametni telefon z interneto povezavo. V ta namen je potrebna ločena pogodba s ponudnikom mobilnih storitev o zakupu prenosa podatkov preko interneta, kar lahko povzroči dodatne stroške, vključno s stroški gostovanja za uporabo storitev v tujini. Razpoložljivost in hitrost komponent paketa storitev je odvisna od razpoložljivosti in hitrosti internete povezave. Poleg tega se za nekatere funkcije zahteva aplikacija „My Porsche App“ (v nadaljevanju aplikacija My Porsche), ki je na voljo za naprave iPhone® in AndroidTM. Vse storitve in funkcije so na voljo v aplikaciji My Porsche razen če je v opisih storitev navedeno drugače.

Da bi lahko tudi v prihodnje izpolnjevali zahteve strank, lahko Porsche Sales & Marketplace še naprej razvija aplikacijo My Porsche.

Posodobitve: V obdobju zagotavljanja paketa storitev, ki sovpada s trajanjem pogodbe o paketu storitev, vam bomo zagotovili posodobitve vsaj v zakonsko predpisanim obsegu, razen če se z vami v skladu z zakonskimi zahtevami dogovorimo drugače.

1. Car Control

1.1. **Storitev:** Na daljavo lahko preverite stanje avtomobila, vključno s podatki o prevoženi razdalji, preostalem dosegom (za gorivo in električni pogon), servisnih intervalih (glavni servis in servis menjave olja), stanju vrat (odprta ali zaprta), oken, pokrova motorja, prtljažnika in panoramske strehe (če obstaja), stanju parkirnih luči, preverite čas v vozilu, tlak v

pnevmatikah, čas zadnjega preverjanja. Komponenta glede tlaka v pnevmatikah bo na voljo šele od prve polovice leta 2018 dalje.

1.2. **Omejitve uporabe:** Prikaz informacij, specifičnih za priključno hibridno električno vozilo (PHEV) (npr. doseg na električni pogon) je na voljo samo za takšna vozila.

2. Trip Control

2.1. **Storitev:** Na daljavo lahko preverite podatke o opravljenih vožnjah vašega vozila. To vključuje: čas vožnje, prevoženo razdaljo, povprečno hitrost in povprečno porabo (goriva in električne energije) za vse vrste voženj (kratke, ciklične, dolge).

2.2. **Omejitve uporabe:** Podatki se posodabljujo šele po spremembah statusa električnega kontakta v vozilu.

3. Hupa in utripalke

3.1. **Storitev:** Na daljavo lahko v vašem vozilu na kratko vključite utripalke ali hupo. Potem boste v prejeli potrditveno sporočilo ali potisno obvestilo.

3.2. **Omejitve uporabe:** Storitev bo na voljo le, ko vozilo stoji in so luči za kontakt ter opozorilne luči izključene. Lahko obstajajo še dodatne omejitve, odvisno od predpisov za posamezno državo.

4. Zaklepanje in odklepanje

4.1. **Storitev:** Na daljavo lahko zaklenete in odklenete vrata in prtljažnik vašega vozila. Ko bo dejanje opravljeno, boste v prejeli potrditveno sporočilo ali potisno obvestilo.

4.2. **Omejitve uporabe:** Storitev bo na voljo le, ko vozilo stoji, so voznikova vrata zaprta, vozilo izključeno in ključa ni v kontaktni ključavnici. Lahko obstajajo še dodatne omejitve, odvisno od predpisov za posamezno državo.

Omejitev odgovornosti: Uporaba funkcije za odklepanje, kadar niste prisotni pri avtomobilu, povečuje tveganje za krajo vozila ali krajo predmetov, ki se nahajajo v vozilu. Zato izvajanje funkcije odklepanja zahteva štirimestno varnostno kodo, ki preprečuje nepooblaščeno uporabo. Varnostno kodo boste nastavili pri uvodni prijavi in nastavitevih Paketa za upravljanje avtomobila na daljavo. To varnostno kodo lahko pozneje spremenite v profilu stranke.

5. Carfinder

5.1. **Storitev:** Na daljavo lahko prikažete lokacijo in položaj vašega vozila. Poleg tega je trenutni položaj mobilne naprave, ki se uporablja za to funkcijo, prikazan na zemljevidu. Če trenutni položaj vozila ni na voljo (npr. če je vozilo v podzemni garaži), se uporabi zadnji shranjeni GPS položaj. Prenos podatkov lahko izključite, tako da vključite zasebni način.

- 5.2 **Omejitve uporabe:** Storitev je na voljo samo v primeru, da oddajanje ISDB ni prekinjeno. Če ni prekinjeno, bo storitev v celoti na voljo med vožnjo, kot tudi pri mirujočem vozilu.

6. Ogrevanje mirujočega vozila

- 6.1 **Storitev:** Na daljavo lahko preverite stanje, aktivirate, deaktivirate in programirate časovnik za ogrevanje mirujočega vozila (če je nameščeno v vozilu). Pred uporabo funkcije morate sprejeti pravno omejitev odgovornosti. Ko bo aktivirani časovnik za ogrevanje mirujočega vozila potekel, boste v mobilno napravo prejeli potrditveno sporočilo in potisno obvestilo. Storitev ogrevanja mirujočega vozila bo na voljo od druge polovice leta 2018.

- 6.2 **Omejitve uporabe:** Storitev je na voljo samo v vozilih z motorjem iz zgorjanjem, v katerih je nameščeno ogrevanje mirujočega vozila. Storitev bo na voljo samo v mirujočem vozilu, vendar pa je lahko kontakt vklopljen. Odvisno od določil za posamezno državo lahko veljajo dodatne omejitve.

7. E-Control

- 7.1 **Storitev:** Na daljavo lahko preverite stanje priključnega hibridnega električnega vozila (PHEV), kot je opisano v nadaljevanju, poleg tega pa lahko začnete ali zaustavite postopek polnjenja. Preverite lahko stanje polnjenja, preostali čas polnjenja ter trenutni doseg na električni pogon. Doseg na električni pogon je prikazan s krogom na zemljevidu. Poleg tega, lahko na daljavo optimizirate postopek polnjenja visokonapetostne baterije priključnega hibridnega električnega vozila (PHEV) za določen čas odhoda. Nastavite lahko programirani čas odhoda in prejeli boste potrditveno sporočilo in potisno obvestilo v primeru kakršnega koli dogodka (npr. polnjenje prekinjeno zaradi zunanjih dejavnikov) in ko bo aktivirani e-časovnik potekel.

- 7.2 **Omejitve uporabe:** Prikaz informacij, specifičnih za priključno hibridno električno vozilo (PHEV) (npr. doseg na električni pogon) je na voljo samo za takšna vozila. Krog na zemljevidu, ki prikazuje doseg na električni pogon je samo okvirna ocena. Na zemljevidu dosega niso označene dejanske razdalje na cesti. Zato so lahko lokacije v resnici zunaj dosega na električni pogon, tudi če so znotraj kroga, ki označuje doseg na električni pogon.

8. Klimatiziranje

- 8.1 **Storitev:** Na daljavo lahko preverite stanje ogrevanja/klimatiziranja na daljavo ter ga aktivirate ali deaktivirate. Ko bo ogrevanje/klimatiziranje na daljavo uspešno aktivirano/deaktivirano, boste prejeli potrditveno sporočilo in potisno obvestilo. Poleg tega lahko na daljavo programirate časovnik klimatiziranja za ogrevanje/klimatiziranje na daljavo. 9. Car Alarm

- 9.1 **Storitev:** Ko se v vozilu sproži alarm proti kraju, boste prejeli sporočilo ali potisno obvestilo. Sporočilo vsebuje informacijo, da se je sprožil alarm, in časovni žig. Za razliko od »Paketa varnost v avtomobilu« tretje osebe ne bodo obveščene o tem, da se je sprožil alarm.

- 9.2 **Omejitve uporabe:** Storitev lahko pošlje sporočilo ali potisno obvestilo le, če vozilo lahko vzpostavi povezavo z internetom. Če se sproži alarm v vozilu, vendar kontrolna enota v vozilu nima internetne povezave (npr. če je vozilo v podzemni garaži), bo sporočilo ali potisno obvestilo poslano takoj, ko se vzpostavi povezava.

Omejitve odgovornosti: Če je vozilo nastavljeno na zasebni način, v primeru alarmova ne boste prejeli nobenega sporočila.

10. Location Alarm

- 10.1 **Storitev:** Na daljavo lahko določite krožno geografsko območje. V primeru, da vozilo zapusti ali vstopi v to območje, boste prejeli obvestilo. Upravljate lahko do štiri območja hkrati. V primeru takšnega dogodka (vstop ali izstop iz območja) boste prejeli sporočilo ali potisno obvestilo, vključno z zemljevidom, ki prikazuje lokacijo dogodka.

- 10.2 **Omejitve uporabe:** Storitev bo poslala obvestilo le, če je v vozilu vključen kontakt in če zazna premikanje koles.

11. Speed Alarm

Trenutna geografska razpoložljivost je na voljo v Trgovini Porsche Connect na povezavi <https://connect-store.porsche.com/si/en/>. - 2.2 Sistem PVTS ali PVTS Plus lahko ugotovi krajo na podlagi naslednjih dejanj:
 - Nedovoljeno premikanje vozila: Vozilo se premika/ga premikajo (vključno s klančino) z izključenim kontaktom oz. če obstaja voznikova kartica, vozilo se premika/ga premikajo brez voznikove kartice;

Potem ko potrdite, da je prišlo do kraje vašega vozila, bo varnostno-operativni center aktiviral način za primer kraje.
- 2.5 V primeru kraje vozila ste odgovorni, da jo prijavite uradnim organom pregona takoj, ko je mogoče. - vzpostavi stik z uradnimi organi pregona. Preko identifikacije s številko spisa varnostno-operativni center lahko uradnim organom pregona pomaga pri zasegu vozila. Če je potrebno, lahko varnostno-operativni center uradnim organom pregona posreduje podatke o lokaciji vozila in aktivira dodatne funkcije oz. dejavnosti v vozilu (npr. prepreči zagon motorja), če je ustrezno.
- 2.6 Družba Porsche Sales & Marketplace ne prevzema odgovornosti za kakršna koli dejanja ali opustitve s strani uradnih organov pregona.
- 2.7 Za preprečevanje morebitnih lažnih prijav kraje varnostno-operativnemu centru ste dolžni varnostno-operativni center vnaprej obvestiti o kakršnem koli (i) prevozu vozila (kot je na primer prevoz s trajektom, prikolico, vlakom), (ii) vzdrževanju vozila (kot je servisni pregled, kadar je prekinjena povezava z akumulatorjem) ali (iii) pri sistemu PVTS Plus, kakršni koli uporabi vozila brez veljavne voznikove kartice. Varnostno-operativni center obvestite (i) s klicem na zgoraj navedeno številko, ali (ii) preko aplikacije My Porsche App (lahko se zahteva vnos vaše osebne varnostne kode). Dodatne informacije – npr. glede različnih načinov, ki jih nastavite v vozilu za primer prevoza, servisiranja itd. – lahko najdete v navodilih za uporabo posameznega vozila ali navodilih za uporabo aplikacije My Porsche App ali tukaj povezavi <https://connect-store.porsche.com/si/en/>.
- 2.8 Odgovorni ste za morebitno lažno prijavo kraje, kijo podate vi ali druga oseba z vašim pooblastilom, in ste dolžno prevzeti stroške varnostno-operativnega centra, ki so povezani z lažnim alarmom. - #### 4. Omejitev odgovornosti in omejitve sistema
- 4.1 V izogib dvomu velja, da veljajo določila glede omejitve odgovornosti v skladu z 10. členom Splošnih pogojev.

- 4.3 Paket se zagotavlja s pomočjo vgrajene telematske enote v vozilu, ki sprejema signale satelitskega sistema GPS in komunicira z odzivnimi centri prek brezžičnih komunikacijskih sistemov in komunikacijskih omrežij. Zaradi narave tehnologije, ki se uporablja za zagotavljanje funkcij Paketa in ki je v enoti, se lahko občasno zgodi, da funkcije Paketa (ali dela Paketa) niso na voljo na celotnem Območju oz. nanje negativno vplivajo fizični dejavniki, kar vključuje, a ni omejeno na odstranitev ali poseg v enoto ali njeno anteno, elektromagnetizem, če se vozilo nahaja v garaži, podvozu ali na drugem kraju, kjer ni signala GPS ali brezžičnega komunikacijskega omrežja, vremenski pogoji ali druge motnje, na katere ne moremo vplivati (npr. izpad GPS ali komunikacijskih omrežij). Delovanje enote in s tem zagotavljanje funkcij Paketa v skladu s Pogoji uporabe je zlasti odvisno od delovanja GPS, brezžičnih in stacionarnih komunikacijskih omrežij, preko katerih enota deluje, ta omrežja pa ne delujejo na celotnem Območju. Posledično tudi vse funkcije Paketa niso na voljo povsod in ves čas in ni mogoče zagotoviti, da vse funkcije Paketa delujejo.
- 4.4 Paket ne vsebuje nobenega zavarovanja za vozilo ali drugega zavarovanja. Upoštevajte, da ste morda po zakonu dolžni skleniti zavarovanje; poleg tega ste sami odgovorni za sklepanje dodatnih zavarovanj, če so po vašem mnenju potrebna. Višina katerih koli nadomestil za Paket ni povezana z vrednostjo vozila ali katerih koli predmetov v vozilu ali stroškov kakršnih koli poškodb ali škode, ki jo utrpite vi ali kdor koli drug.

5. Pravica potrošnika do odstopa od pogodbe

Če je Stranka potrošnik v smislu 13. člena nemškega civilnega zakonika (BGB), ima pravico do odstopa od pogodbe v roku 14 dni v primeru sklenitve pogodbe. Potrošnik v smislu 13. člena nemškega civilnega zakonika (BGB) je vsaka fizična oseba, ki sklene pravni posel za namen, ki je pretežno izven področja njene dejavnosti, poslovanja ali poklica. V nadaljevanju so podana navodila za Stranko glede njene pravice do odstopa:

Pogoji uporabe

za Storitev Porsche Connect »Klic ob okvari«
(v nadaljevanju: **Pogoji uporabe**)

Ti Pogoji uporabe veljajo za uporabo Storitve Porsche Connect »Klic ob okvari«. Ti Pogoji uporabe se uporabljajo poleg Splošnih pogojev za Trgovino Porsche Connect in Storitve Porsche Connect ter Izdelke Porsche (Splošni pogoji). Če je določilo Splošnih pogojev v nasprotju s temi Pogoji uporabe, prevladajo Pogoji uporabe.

»Klic ob okvari«

Ko je storitev "Klic ob okvari" sprožena, vzpostavi glasovno in podatkovno povezavo s podporno enoto Porsche, ki je dodeljena vozilu, ter ji posreduje vašo lokacijo vozila in vse pomembne informacije o vozilu. Te podatke o vozilu lahko uporabite za osebni pogovor z zaposlenimi v podporni enoti Porsche.

Storitev je na voljo v določenih državah in je odvisna od razpoložljivosti omrežja. Trenutna geografska razpoložljivost Storitve je na voljo v Trgovini Porsche Connect na povezavi <https://connect-store.porsche.com/si/en/>. Povezava, ki je potrebna za zagotavljanje Storitve, se vzpostavi preko vgrajene SIM kartice. Povezava je sestavni del Storitve in se ne zaračunava posebej.

Obdobje trajanja: 10 let

Vključeno obdobje trajanja: Ob nakupu novega vozila s funkcijo Connect, ki vključuje opcijo »Connect Plus«, lahko Storitev naročite brezplačno za obdobje 10 let.

1. Podroben opis Storitve

- 1.1 Storitev lahko sprožite prek sistema Porsche Communication Management vozila, ki podpira funkcijo Connect (v nadaljnjem besedilu **PCM**), ali prek aplikacije My Porsche. Aktivacijo lahko tako izvedete kateri koli glavni in sekundarni uporabnik ter vsakdo, ki ima dostop do notranjosti vozila. Po aktivaciji storitve se samodejno vzpostavi glasovna in podatkovna povezava iz vozila z dodeljeno podporno enoto Porsche. Podatki, poslani iz vozila podporno enoti Porsche, lahko vsebujejo informacije, kot so identifikacijska številka vozila (VIN), model vozila, leto proizvodnje in posebna oprema, lokacija vozila, nastop nezgode, nivo goriva, tlak v pnevmatikah, preostali doseg z razpoložljivim gorivom, stanje vozila in sporočila o napakah (v nadalnjem besedilu podatki o vozilu). S strani podporne enote Porsche in/ali prek pogovornega okna v aplikaciji My Porsche in/ali v informacijsko-razvedrilnem sistemu vozila ste lahko zaprošeni za vaše soglasje za priklic identifikacijske številke vozila in/ali drugih podatkov o vozilu.
- 1.2 Med glasovno povezavo vam bo podporno enota Porsche zastavljala vprašanja za nadaljnjo oceno vaše okvare. Glede na konkretno situacijo v zvezi z okvaro vam lahko podporno enota Porsche ponudi različne možnosti pomoči, kot sledi:
 - 1.2.1 podporno enota Porsche lahko svetuje, kako naprej (npr. "Prosimo, dolijte olje na najbližji bencinski črpalki"); in/ali

1.2.2 podporna enota Porsche lahko natančneje analizira prejete podatke o vozilu in poskuša identificirati težavo. Zbrane podatke lahko posreduje posameznemu centru Porsche, kar temu omogoči pripravo na vaš obisk servisne delavnice ali sprožitev nadaljnji učrepov. Če je težavo mogoče rešiti s popravilom na daljavo, lahko to izvede podporna enota Porsche. Za to morajo biti izpolnjeni različni predpogojih, povezani s težavo, na primer: ugasnen motor, vozilo miruje, aktivna blokada premikanja, zaprta okna, ni aktivnega procesa polnjenja. Po potrebi se odčitajo še dodatni podatki o vozilu, potrebeni za ta namen. Poleg tega je možno, da funkcija okvare in/ali klica v sili med reševanjem težave s popravilom na daljavo ne obstaja ali jeomejena. Podporna enota Porsche vas bo obvestila o vseh takih predpogojih in/ali omejitvah uporabe, preden začnete odpravljati težavo s popravilom na daljavo, kar morate nato potrditi. To je le poskus odpravljanja težave, zato bodo morda potrebeni dodatni koraki; in/ali

1.2.3 Podporna enota Porsche lahko naroči zunanj pošporo, npr. pomoč na cesti ali vleko nedelujočega vozila. Vaš klic ne bo posredovan drugim ponudnikom storitev. Če je treba vaše vozilo popraviti, lahko podporna enota Porsche z vašim predhodnim soglasjem centru Porsche posreduje podatke o vozilu.

1.3 Vse storitve, ki jih nudi podporna enota Porsche po klicu ob okvari, zahtevajo ločeno pogodbo, kar lahko povzroči dodatne stroške. Več informacij o podporno enoti Porsche in še posebej o komponentah storitev, ki jih pokriva, lahko dobite v svojem centru Porsche ali pri svojem ponudniku podpornih storitev "AXA Assistance Deutschland GmbH/Inter Partner Assistance S.A." Podporna enota Porsche lahko ugotovi status podporne enote Porsche vašega vozila.

1.4 Če imate dostop do produktov ali storitev zunanjih ponudnikov oziroma jih uporabljate, veljajo pogoji in določila teh izdelkov ali storitev. Sistem PSM ni odgovoren za dostop do teh izdelkov ali storitev ali njihovo uporabo.

1.5 Upoštevajte, da lahko sprožite storitve prek aplikacije My Porsche na vaši mobilni napravi povzroči dodatne stroške, odvisno od pogojev pogodbe za mobilno napravo, ki ste jo sklenili z drugim ponudnikom telekomunikacijskih storitev.

2. Omejitve uporabe in omejitve sistema

- 2.1 Storitev se izvaja preko telematske enote, nameščene v vozilu, ki sprejema satelitske signale GPS in prek brezžičnih komunikacijskih sistemov in komunikacijskih omrežij komunicira s podporno enoto Porsche. Zaradi narave tehnologij, ki se uporablja za funkcije storitve in jih vsebuje telematska enota, funkcije storitve (ali deli storitve) morda

občasno niso na voljo na vseh delih pogodbenega ozemlja, navedenega v pogojih uporabe, in/ali nanje negativno vplivajo fizični pogoji, kar med drugim vključuje odstranitev ali poseganje v telematsko enoto ali njeno anteno, elektromagnetizem, vozilo v garaži, podhodu ali na kateri koli drugi lokaciji, kjer GPS ali brezžična komunikacijska omrežja niso razpoložljiva, atmosferske razmere in druge vzroke motenj, ki so zunaj našega nadzora (npr. izpad GPS ali komunikacijskih omrežij). Zlasti je delovanje telematske enote in s tem zagotavljanje funkcij storitve v skladu s temi pogoji uporabe odvisno od delovanja omrežij GPS ter brezžičnih in fiksni komunikacijskih omrežij, s katerimi se telematska enota upravlja. Zato vse funkcije storitve niso na voljo kadar koli in kjer koli in ni nobenega zagotovila, da bodo delovale kadar koli in kjer koli.

- 2.2 Storitev ne vključuje zavarovanja vozila ali katerega koli drugega zavarovanja. Upoštevajte, da ste morda po zakonu dolžni skleniti zavarovanje; poleg tega je vaša odgovornost, da poskrbite za drugo zavarovalno kritje, če se vam to zdi razumno. Pristojbine, plačane za storitev, niso povezane z vrednostjo vozila ali kakšne koli lastnine v vozilu ali s stroški morebitnih poškodb ali škode, ki ste jo utrpeli vi ali drugi.
- 2.3 V primeru, da se težavo rešuje s popravilom na daljavo v skladu s točko 1.2 teh pogojev uporabe, mora stranka predhodno podati soglasje podporni enoti Porsche.
3. **Posodobitve:** V obdobju zagotavljanja paketa storitev, ki sovpada s trajanjem pogodbe o paketu storitev, vam bomo zagotovili posodobitve vsaj v zakonsko predpisanim obsegu, razen če se z vami v skladu z zakonskimi zahtevami dogovorimo drugače.

4. Pravica potrošnika do odstopa od pogodbe

Če ste potrošnik v smislu 13. člena nemškega civilnega zakonika (BGB), imate pravico do odstopa v roku 14 dni v primeru sklenitve pogodbe. Potrošnik v smislu 13. člena nemškega civilnega zakonika (BGB) je vsaka fizična oseba, ki sklene pravni posel za namen, ki je pretežno izven področja njene dejavnosti, poslovanja ali poklica. V nadaljevanju so podana navodila za Stranko glede njene pravice do odstopa:

Zmogljivosti storitve Porsche Charging Service:

1. Dostop do polnilnega omrežja in združljivost

1.1 Storitev Porsche Charging Service zagotavlja dostop do polnilnih postaj družbe Porsche Sales & Marketplace in drugih ponudnikov (v nadaljevanju **polnilne postaje**) in njihovo uporabo za običajno polnjenje z izmeničnim tokom (**AC**) in za hitro polnjenje z enosmernim tokom (**DC**). Pri tem sodelujemo tako z izbranimi upravljavci polnilnih postaj kot tudi z izbranimi partnerji za e-gostovanje v

Evropi, ki zagotavljajo povezane lokacije javnih polnilnih točk (glejte tudi razdelek 2).

1.2 Polnilne postaje so v skladu z evropsko standardizacijo načeloma opremljene z vtičem oz. priključkom tipa 2 (za polnjenje AC) in/ali sistemom CCS (Combined Charging System) (za polnjenje DC). Posamezne polnilne postaje poleg tega podpirajo standard CHAdeMO (za polnjenje DC).

Združljivost polnilnih postaj:

- Polnilne postaje s priključkom tipa 2 so združljive s hibridnimi in električnimi vozili z možnostjo polnjenja akumulatorja prek vtičnice, ki so opremljena z vtičnico za polnjenje tipa 2 ali CCS. Poleg tega za polnjenje potrebujete napajalni kabel Mode-3.
- Polnilne postaje s priključkom CCS so združljive z električnimi vozili, ki so opremljena z vtičnico za polnjenje CCS. Dodaten napajalni kabel ni potreben.
- Polnilne postaje, ki podpirajo standard CHAdeMO, so združljive z vozili, ki so opremljena z vtičnico za polnjenje CHAdeMO. Dodaten napajalni kabel ni potreben.

Podatke o tem, katero vtičnico za polnjenje ima vaše vozilo, najdete v operativnem priročniku vašega vozila ali pri proizvajalcu vozila. Če vaše vozilo ni opremljeno z nobenim od prej omenjenih tipov vtičnice za polnjenje/vtičev, postopek polnjenja (tudi z uporabo vmesnika) ni mogoč. Sami ste odgovorni za sposobnost polnjenja svojega vozila, poleg tega morate upoštevati predpise in napotke za uporabo polnilne postaje.

1.3 Če želite aktivirati ustrezno polnilno postajo na lokaciji polnjenja, morate uporabiti način avtentikacije, ki ste ga izbrali pri nakupu storitve Porsche Charging Service (za avtentikacijo z aplikacijo, kartico RFID (Za preverjanje pristnosti prek aplikacije, kartice Porsche Charging Card ali funkcije vozila Plug & Charge glejte točko 3 v nadaljevanju.) Upoštevajte, da na vseh polnilnih postajah morda ne bodo na voljo vsi načini preverjanja pristnosti in da bo preverjanje pristnosti možno le z aplikacijo ali s kartico Porsche Charging Card. Tudi funkcija vozila Plug & Charge je na voljo samo na določenih polnilnih postajah. Polnilne postaje, ki podpirajo Plug & Charge, si lahko ogledate v aplikaciji s pomočjo funkcije za filtriranje.

1.4 Uporaba polnilnih postaj je med drugim odvisna od prostih mest na polnilni postaji in delovanja polnilne postaje (to velja na primer za vidno poškodovane polnilne postaje, ki se jih ne sme uporabljati).

1.5 Storitve polnjenja zagotavlja družba Porsche Sales & Marketplace GmbH (Porsche Sales & Marketplace).

- 1.6 **Omejitve uporabe:** storitev Porsche Charging Service je dovoljena le z vozilom Porsche, aktiviranim pod Porsche ID-jem. Kakršna koli uporaba z vozili Porsche, ki niso bila aktivirana za to storitev, ali z vozili drugih znamk ni dovoljena.

Dostop do salona Porsche Charging Lounge je dovoljen le z vozilom Porsche, aktiviranim pod Porsche ID-jem.

2. Informacije o polnilnih postajah v polnilnem omrežju

- 2.1 Pregled polnilnih postaj izbranih upravljavcev polnilnih postaj in partnerjev za e-gostovanje najdete v aplikaciji.
- 2.2 Glede na razpoložljivost so v aplikaciji na voljo ti statični in dinamični podatki in informacije o polnilnih postajah: lokacija, možnost polnjenja AC in/ali DC, vrste vticev, ki so na voljo, podatek, ali so polnilne točke zasedene ali proste, podatek o cenah polnjenja AC in/ali DC, število polnilnih mest na lokacijo polnjenja. Porsche Sales & Marketplace ne prevzema odgovornosti za pravilnost in pravočasnost teh podatkov in informacij, ki jih posredujejo partnerji.

3. Avtentikacija in polnenje na polnilni postaji

- 3.1 **Začetek postopka polnjenja:** Za začetek polnjenja na polnilni postaji je potrebno predhodno preverjanje pristnosti z aplikacijo, kartico MyPorsche Charging Card ali funkcijo Plug & Charge. Na začetku polnjenja praviloma nastanejo stroški (za cene in obračunavanje glejte točko 4 v nadaljevanju).

S kodo Intercharge QR, ki je prikazana na polnilni postaji in ki jo optično preberete z **aplikacijo** in kamero mobilne naprave, lahko aktivirate posamezno polnilno postajo in začnete postopek polnjenja. Če optično branje kode QR ni mogoče, lahko ID polnilne postaje vnesete tudi ročno prek aplikacije, da začnete postopek polnjenja. Polnilno postajo lahko aktivirate tudi na daljavo tako, da izberete polnilno postajo v aplikaciji. Nekatere polnilne postaje imajo posebne funkcije pri začetku postopka polnjenja. Zato vedno upoštevajte tudi napotke na polnilni postaji. V aplikaciji lahko spremljate trajanje trenutnega postopka polnjenja, ki se zaradi tehničnih razlogov lahko razlikuje od dejanskega trajanja postopka polnjenja.

Kartica Porsche Charging Card je po nakupu storitve Porsche Charging Service uporabniku poslana po pošti na naslov, ki ga je navedel na uporabniškem portalu. Kartica Porsche Charging Card ima čip RFID, s katerim lahko aktivirate polnilno postajo.

Potrebni certifikati za uporabo funkcije Plug & Charge se samodejno ustvarijo po nakupu storitve. V vozilo se posredujejo pri prvi uporabi združljive polnilne postaje.

- 3.2 **Zaključek postopka polnjenja:** Postopek polnjenja lahko ročno zaključite tako, da odklenete vozilo in odklopite napajalni kabel. Pri nekaterih polnilnih postajah lahko postopek polnjenja ročno zaustavite tudi prek aplikacije ali s ponovno uporabo kartice Porsche Charging Card. Ko je akumulator vozila popolnoma napoljen, se postopek polnjenja samodejno zaustavi. Za popolno zaustavitev postopka polnjenja je treba vozilo odklopiti s polnilne postaje. Šele takrat se načeloma zaključi trajanje postopka polnjenja, ki se zaračunava. Zato vedno upoštevajte tudi napotke na polnilni postaji. Po uspešnem

polnjenju se podatki o zadnjem polnjenju (kraj polnjenja, datum, ura in cena) prikažejo v zgodovini polnjenja v aplikaciji (zaradi tehničnih razlogov zgodovina polnjenja v aplikaciji morda ne održa vedno trenutnega stanja).

4. Cene in obračunavanje

- 4.1 Stroški, ki jih imate s to storitvijo, so glede na tarifo, ki ste jo zakupili, sestavljeni iz (i) letne ali mesečne osnovne pristojbine in (ii) pristojbin za uporabo pri vsakem postopku polnjenja z naslednjimi postavkami:

Vse tarife (razen »Porsche Charging Service (za Taycan J1 (2019–2024))«)

- količina energije v kWh, porabljeni pri polnjenju, in
- minutna pristojbina, ki se zaračunava dodatno od določenega časa po začetku polnjenja.

Porsche Charging Service (za Taycan J1 (2019–2024))

- količina energije v kWh, porabljeni pri polnjenju, in
- čas povezave s polnilno postajo v minutah.

Osnova za obračunavanje po času (na minuto) je čas priključenosti (napajalni kabel je priključen v polnilno postajo in vozilo). Stroški torej nastanejo, dokler je vozilo povezano s polnilno postajo.

- 4.2 Veljavni cenik in pregled načinov obračunavanja najdete na naslednji povezavi: <https://www.porsche.com>. Cenik za storitev Porsche Charging Service (za Taycan J1 (2019–2024)) najdete na naslednji povezavi: <https://connect-store2.porsche.com> (zlasti različne cene in načine obračunavanja v različnih državah in razredih zmogljivosti). Poleg tega so cene in načini obračunavanja prikazani v aplikaciji pred začetkom posameznega postopka polnjenja.

- 4.3 Konec meseca boste prejeli skupni obračun postopkov polnjenja in morebitnih osnovnih pristojbin, ki smo jih zabeležili v obračunske obdobje; ogledate si ga lahko v aplikaciji My Porsche, poslati pa vam ga bomo tudi po e-pošti na e-poštni naslov, ki ste ga navedli. Upoštevajte, da lahko zaradi tehničnih razlogov nekatere postopke polnjenja zabeležimo šele pozneje, zato so na izpisu lahko tudi postopki polnjenja iz časa pred trenutnim obdobjem obračunavanja, ki še niso bili obračunani in ki vam bodo zaračunani. V aplikaciji so prikazani tudi stroški, ki so nastali v trenutnem obdobju obračunavanja (upoštevajte, da tudi ta pogled ni vedno posodobljen).

Če povezljivost ni zagotovljena prek vgrajene kartice SIM sistema PCM (npr. ker povezljivost prek vgrajene kartice SIM sistema PCM ni na voljo v vseh državah), je povezljivost mogoče vzpostaviti s pomočjo mobilnega telefona z ustreznim naročniškim paketom. Za to je potrebna ločena pogodba s ponudnikom mobilnih storitev. Glede na pogodbo, sklenjeno s ponudnikom mobilne telefonije, to lahko povzroči dodatne stroške, vključno s stroški gostovanja za uporabo storitev v tujini. Če sistem PCM povežete s svojim mobilnim telefonom, se prepričajte, da vaš naročniški paket za prenos podatkov to dovoljuje. Razpoložljivost in hitrost storitev iz Paketa storitev sta odvisni od razpoložljivosti in hitrosti prenosa podatkov, ki ju zagotavlja vaš ponudnik mobilnih storitev.

Za modele s storitvijo Porsche Connect velja naslednje:

1. Finder

Opis: S pomočjo storitve »Finder« lahko iščete, kar vas zanima (t.i. interesne točke) (npr. polnilne postaje, bencinske črpalke, restavracije, hotele in parkirišča) v naprej določeni podatkovni bazi s pomočjo sistemsko določenega spletnega iskalnika. Rezultati iskanja lahko vsebujejo dodatne informacije, kot so telefonske številke, delovni čas, cene goriva, parkirnine ali ocene drugih uporabnikov. Interesne točke lahko iščete, shranjujete, upravljate in jih pošljete v sistem PCM tudi v aplikaciji My Porsche.

2. Voice Pilot

2.1 **Opis:** S storitvijo "Voice Pilot" lahko različne funkcije sistema PCM in druge storitve upravljate z glasovnim vnosom. Dodatne funkcije, kot so iskanje medijev, zanimivosti ali vreme, so omogočene s pomočjo spletnega glasovnega prepoznavanja.

- 2.2 **Omejitve uporabe:** Delovanje storitve Voice Pilot je omejeno na podprtje jezike. Brez spletne povezave so lahko rezultati omejeni. **Glasovno prepoznavanje** zaradi zunanjih vplivov, kot je npr. šum v ozadju, morda ne bo vedno prineslo želenih rezultatov.

3. Navigation Plus

Opis: S storitvijo „Navigation Plus“ je preračunavanje poti sistema PCM v vozilu dopolnjeno s spletnimi storitvami. Navigacijski sistem sistema PCM uporablja trenutne podatke GPS in podatke o prometu, da optimizira pot do vnesenega cilja na minuto. Na prikazanem zemljevidu so ceste označene z barvami glede na prometno situacijo. Zemljevidi navigacijskega sistema PCM se posodabljajo prek interneta. Navigacijski sistem PCM lahko prikazuje zemljevid v obliki satelitske slike. S predpomnenjem naloženih podatkov zemljevida o trenutni okolini vozila se bo prikaz satelitske slike ohranil, tudi če pride do začasne prekinitev povezave.

4. Načrtovanje polnjenja (Na voljo samo v: Avstriji, Belgiji, na Hrvaškem, Češkem, Danskem, Finsku, v Franciji, Nemčiji, Gibraltaru, na Madžarskem, Irskem, v Italiji, Latviji, Črni gori, na Nizozemskem, Norveškem, Poljskem, v Romuniji, Srbiji, na Slovaškem, v Španiji, na Švedskem, v Švici, ZDA, na Novi Zelandiji, v Avstraliji, na Japonskem, v Maleziji, Mehiki, Portoriku, Singapurju, Južni Koreji, Južni Afriki in na Tajvanu)

- 4.1 **Opis:** Storitev »Načrtovanje polnjenja« izboljša pot navigacijskega sistema PCM na podlagi izbranega cilja, preostalega dosega, načina vožnje, trenutnih informacij o prometu, ki so na voljo, ter polnilnih postaj in njihove kapacitete polnjenja, da doseže kar najkrajši skupni potovalni čas (čas vožnje in postankov za polnjenje). Potrebeni postanki za polnjenje so avtomatsko vključeni v pot.
- 4.2 **Omejitve uporabe:** Storitev ne prejema vedno natančnih informacij, zato so lahko podatki o razpoložljivosti polnilnih postaj napačni.

5. Radio Plus

- 5.1 **Opis:** S storitvijo "Radio Plus" lahko dostopate do spletnih kanalov radijskih postaj. Če je storitev Radio Plus aktivirana in je sprejem radijskih virov FM ali Digital Audio Broadcasting (DAB) trenutno moten, sistem PCM samodejno preklopí na ustrezni spletni kanal postaje (če je na voljo). Storitev prikazuje tudi metapodatke o skladbah in postajah, ki jih predvajate. Ti podatki so na voljo prek sistema PCM.
- 5.2 **Omejitve uporabe:** Funkcije spletnega in hibridnega radia so na voljo samo v izbranih državah. Podatkovna povezava za to storitev zahteva (a) podatkovni paket (na voljo ločeno pri sodelujočem partnerju v izbranih državah) ali (b) povezavo prek mobilnega telefona, povezanega s sistemom PCM (tethering), z ustreznim naročnino za mobilni prenos podatkov.

6. Novice

- 6.1 **Opis:** Prek storitve lahko dostopate do zadnjih novic tako, da se naročite na vire RSS neposredno v sistemu PCM. Storitev Voice Pilot vam lahko prebere članke. Z iskanjem po ključnih besedah lahko brskate po kanalih, na katere ste naročeni, in poiščete informacije o priljubljenih temah ali ključne besede.
- 6.2 **Zahteve:** Za prilagojeno uporabo se lahko stranka naroči na vire s svojim Porsche ID. V tem primeru so ti viri na voljo le v vozilu.

7. Vreme

- 7.1 **Opis:** Storitev »Vreme« prikazuje trenutne vremenske razmere in napoved za naslednje ure in dneve za trenutno lokacijo, aktivirani cilj ter morebitne shranjene priljubljene lokacije. Napoved vsebuje na primer temperaturo, število sončnih ur, verjetnost dežja, hitrost vetra in kakovost zraka. Mogoče je tudi glasno branje s pomočjo storitve Voice Pilot.

- 7.2 **Omejitve uporabe:** Kakovost zraka se prikazuje le na Kitajskem.

8. Porsche2X (na voljo samo v: Andora, Avstrija, Belgija, Češka, Danska, Finska, Francija, Nemčija, Gibraltar, Madžarska, Italija, Luksemburg, Nizozemska, Norveška, Poljska, Portugalska, Slovaška, Španija, Švedska, Švica in Združeno kraljestvo)

Opis: Storitev "Porsche2X" prikazuje razpoložljive informacije o lokalnih nevarnostih, npr. nevarnost akvaplaninga, kot infografiko v sistemu PCM.

9. Car Control

Storitve: Na daljavo lahko s pametnim telefonom preverite stanje vozila. Storitev vsebuje prikaz stanja vrat, prikaz servisnih intervalov ali prevožene razdalje.

10. Trip Control

- 10.1 **Storitve:** Na daljavo lahko preverite podatke o opravljenih vožnjah vašega vozila. To vključuje: čas vožnje, prevoženo razdaljo, povprečno hitrost in povprečno porabo za vse vrste voženj (kratke, ciklične, dolge).

- 10.2 **Omejitve uporabe:** Podatki se posodabljajo šele po spremembni statusa električnega kontakta v vozilu.

11. Hupanje in utripanje (na voljo samo za model Taycan od modelskega leta 2021)

- 11.1 **Storitve:** Na daljavo lahko na kratko vključite utripalke ali hupo v vašem vozilu. Za tem v potrditev prejmete sporočilo ali obvestilo.

- 11.2 **Omejitve uporabe:** Storitev je na voljo le, če vozilo stoji in so luči za kontakt ter opozorilne luči izključene. Lahko obstajajo še dodatne omejitve v skladu s predpisi posamezne države.

12. Odpiranje in zapiranje (na voljo samo za model Taycan od modelskega leta 2021)

- 12.1 **Storitve:** Na daljavo lahko zaklenete in odklenete vrata in prtljažnik vašega vozila. Za tem v potrditev prejmete sporočilo ali obvestilo.

- 12.2 **Omejitve uporabe:** Storitev je na voljo le, če vozilo stoji, so voznikova vrata zaprta, vozilo izključeno in ključa ni v kontaktni ključavnici. Lahko obstajajo še dodatne omejitve v skladu s predpisi posamezne države.

- 12.3 **Opomba:** Uporaba funkcije za odklepanje, kadar niste prisotni pri avtomobilu, povečuje tveganje za krajo vozila ali krajo predmetov, ki se nahajajo v vozilu. Za preprečitev nepooblaščene uporabe je treba za uporabo funkcije odklepanja vnesti štirimestno varnostno kodo. Varnostno kodo boste nastavili pri uvodni prijavi in nastavovah storitev Porsche Connect. To varnostno kodo lahko pozneje spremenite v profilu stranke.

13. Car Finder

- 13.1 **Storitve:** Na daljavo lahko preverite lokacijo in položaj vašega vozila. Trenutni položaj mobilne končne naprave, ki se uporablja za to funkcijo, je prav tako prikazan na

zemljevidu. Če trenutni položaj vozila ni na voljo (npr. če je vozilo parkirano v podzemni garaži), se uporabi zadnji shranjeni GPS položaj. Če vključite zasebni način, lahko prenos podatkov izključite.

- 13.2 **Omejitve uporabe:** Storitev je na voljo samo v primeru, ko prenos podatkov nemoteno deluje. Storitev je sicer v celoti na voljo tako med vožnjo kot pri mirujučem vozilu.

14. E-Control (na voljo samo za električna in hibridna vozila)

- 14.1 **Storitev:** Stanje svojega vozila lahko preverite na daljavo in začnete ali ustavite postopek polnjenja, kot je opisano v nadaljevanju. Preverite lahko stanje priključenosti, preostalo trajanje polnjenja in trenutni električni doseg. Električni doseg je na zemljevidu prikazan v obliku kroga. Prav tako lahko optimizirate postopek polnjenja visokonapetostne baterije svojega vozila za določen čas odhoda. Nastavite lahko časovnik odhoda in prejeli boste potrditveno sporočilo ali potisno obvestilo, ko se pripetijo dogodki (npr. prekinitev postopka polnjenja) in takoj ko aktivirani e-časovnik poteče.

- 14.2 **Omejitve uporabe:** Doseg, ki je na zemljevidu prikazan v obliku kroga, predstavlja le ocenjeno vrednost. Vrednosti na zemljevidu ne predstavljajo dejanskih razdalj poti. Zato bi bile lokacije v realnosti lahko zunaj električnega dosega, tudi če so navedene znotraj kroga električnega dosega. Ta storitev je na voljo izključno za električna in hibridna vozila.

15. Klimatiziranje (na voljo samo za električna in hibridna vozila)

- 15.1 **Storitev:** Stanje ogrevanja in/ali klimatske naprave lahko preverite na daljavo in ju aktivirate ali deaktivirate. Ko sta ogrevanje in/ali klimatska naprava uspešno aktivirana ali deaktivirana, boste prejeli potrditveno sporočilo ali potisno obvestilo. Poleg tega lahko na daljavo nastavite časovnik klimatiziranja za daljnško krmiljeno ogrevanje in/ali klimatiziranje. Ko je časovnik uspešno nastavljen, boste v mobilno napravo prejeli potrditveno sporočilo ali potisno obvestilo, takoj ko aktivirani časovnik klimatiziranja poteče.

- 15.2 **Omejitve uporabe:** Ta storitev je na voljo izključno za električna in hibridna vozila.

16. Ogrevanje mirujočega vozila

- 16.1 **Storitev:** Stanje ogrevanja mirujočega vozila lahko preverite na daljavo, ga aktivirate in uporabite funkcijo časovnika. Ko aktivirani časovnik za ogrevanje mirujočega vozila poteče, boste v mobilno napravo prejeli potrditveno sporočilo ali potisno obvestilo. Ta storitev je na voljo šele od druge polovice leta 2018.

- 16.2 **Omejitve uporabe:** Storitev je na voljo izključno za vozila z motorjem z notranjim zgorevanjem, ki so opremljena s storitvijo ogrevanja mirujočega vozila. Storitev je na voljo samo, ko vozilo miruje, pri tem pa je motor lahko vklopjen. Več informacij o uporabi storitve ogrevanja mirujočega vozila lahko najdete v navodilih za uporabo vozila. V skladu s predpisi v posamezni državi lahko veljajo nadaljnje omejitve.

17. Car Alarm

- 17.1 **Storitev:** Ko se v vašem vozilu sproži alarm proti kraji, boste prejeli sporočilo ali obvestilo z informacijo, da se je sprožil alarm, in navedbo časa. Za razliko od »Paketa za varovanje avtomobilov« tretje osebe ne bodo obveščene o tem, da se je sprožil alarm.

- 17.2 **Omejitve uporabe:** Storitev lahko pošlje sporočilo ali obvestilo le, če se vozilo lahko poveže s sistemom Porsche. Če se sproži alarm proti kraji, vendar kontrolna enota v vozilu

nima povezljivosti (npr. če je vozilo parkirano v podzemni garaži), bo sporočilo ali obvestilo poslano takoj, ko se vzpostavi povezava.

Opomba: Če je vozilo nastavljeno na zasebni način, v primeru alarme ne boste prejeli nobenega sporočila.

18. Location Alarm

- 18.1 **Storitev:** Na daljavo lahko določite geografsko območje v obliku kroga. Ko vozilo zapusti ali vstopi v to območje, boste prejeli sporočilo. Nastavljeni imate lahko do štiri območja hkrati. V primeru takšnega dogodka (vstop ali izstop vozila iz območja) boste prejeli sporočilo ali obvestilo, ki vsebuje zemljevid s prikazom lokacije dogodka.

- 18.2 **Omejitve uporabe:** Storitev bo poslala sporočilo le, če je v vozilu vključen kontakt in če zazna premikanje koles.

19. Speed Alarm

- 19.1 **Storitev:** Na daljavo lahko določite hitrost. Če hitrost vozila prekorači nastavljeno hitrost, boste prejeli sporočilo. Nastavljeni imate lahko do štiri hitrosti hkrati. V primeru takšnega dogodka (vozilo prekorači nastavljeno hitrost) boste prejeli sporočilo ali obvestilo, ki vsebuje zemljevid s prikazom lokacije dogodka.

- 19.2 **Omejitve uporabe:** Storitev bo poslala sporočilo le, če je v vozilu vključen kontakt in če zazna premikanje koles.

20. Valet alarm

- 20.1 **Storitev:** Na daljavo lahko vključite ali izključite Valet alarm (kombinacija alarma za lokacijo in alarma za hitrost) s prednastavtvami za geografsko območje in hitrost. Če vozilo zapusti ali vstopi v to območje ali prekorači nastavljeno hitrost, boste prejeli sporočilo.

- 20.2 **Omejitve uporabe:** Storitev bo poslala obvestilo le, če je v vozilu vključen kontakt in če zazna premikanje koles. Storitev je na voljo le preko aplikacije.

21. Koledar

- 21.1 **Opis:** Storitev "Koledar" omogoča neposredno povezavo koledarjev zunanjih ponudnikov, ki so na voljo na spletu, s sistemom PCM. Storitev ponuja pregled po dnevih. Načrtovane dogodke lahko prebere Voice Pilot. Možno je tudi prepoznavanje naslovov v koledarskih vnosih in neposredno prevzemanje kot cilj za navigacijo. Lahko se tudi neposredno vključite v telefonske konference, vendar samo z mobilnim telefonom, ki je povezan s sistemom PCM prek Bluetootha.

- 21.2 **Omejitve uporabe:** Neposredno vključevanje v telekonferenco (tj. vključevanje brez vnosa kode PIN ali druge oznake konference) je možno samo s podprtimi oblikami vabil na sestanek in z mobilnim telefonom, povezanim s sistemom PCM prek Bluetootha.

22. Pretočna predstavnost

- 22.1 **Opis:** Storitev Pretakanje glasbe (Apple Music®), Poddaje (Apple Podcasts®) in Spotify nudijo neposreden dostop do povezane predstavnostne knjižnice stranke ter funkcij posameznih tretjih ponudnikov za pretakanje glasbe, kot tudi ponudnikov poddaj, če so te podprtne v vozilu. Po začetni namestitvi stranka PSM ne potrebuje več pametnega telefona in lahko storitev uporablja v vseh podprtih vozilih s svojim računom Porsche ID. Poleg tega je mogoče storitev uporabljati tudi v načinu gostovanja, če so računi tretjih ponudnikov povezani. Pri izbranih ponudnikih so na voljo ekskluzivne funkcije, kot je neposredno shranjevanje radijskih

pesmi v predstavnostno knjižnico stranke ali navigacija prek storitve Voice Pilot.

- 22.2 **Omejitve uporabe:** Te storitve se lahko uporabljajo le v državah, v katerih storitev ponuja tudi neodvisni ponudnik storitev. Izjema velja za Andoro ter Bosno in Hercegovino, kjer storitev ni mogoče uporabljati. Storitev neodvisnega ponudnika se lahko v načinu za gosta uporablja le lokalno v zadevnem vozilu, vendar ne v drugih vozilih.
- 22.3 **Zahteve:** Če želi stranka PSM uporabljati vsebine storitve Pretakanje glasbe, mora imeti svoj račun in aktivno naročnino na paket storitev. Pred uporabo storitev „In-Car Video“ je treba vzpostaviti podatkovno povezavo prek zunanjih dostopnih točk WLAN (skupna raba mobilnega interneta). Za storitev tretjega ponudnika in nekatere ponudbe pretakanja je morda treba plačati naročnino. Za uporabo je potreben račun pri združevalniku vsebin, ki ga podpira družba Porsche. 1. Klic ob okvari

Ko je storitev "Klic ob okvari" sprožena, vzpostavi glasovno in podatkovno povezavo s podporno enoto Porsche, ki je dodeljena vozilu, ter ji posreduje vašo lokacijo vozila in vse pomembne informacije o vozilu. Te podatke o vozilu lahko uporabite za osebni pogovor z zaposlenimi v podporni enoti Porsche. Storitev "Klic ob okvari" je neodvisna od storitve EU eCall. V nujnih primerih lahko v svojem vozilu uporabite storitev EU eCall, da vzpostavite stik s pristojnim centrom za klic v sili. oz. se v nujnem primeru prek EU eCall samodejno sproži ustrezni klic v sili.

1.1 Podrobni opis Storitve

1.1.1 Storitev lahko sprožite prek sistema Porsche Communication Management vozila, ki podpira funkcijo Connect (v nadaljnjem besedilu **PCM**), ali prek aplikacije My Porsche. Aktivacijo lahko tako izvede kateri koli glavni in sekundarni uporabnik ter vsakdo, ki ima dostop do notranjosti vozila. Po aktivaciji storitve se samodejno vzpostavi glasovna in podatkovna povezava iz vozila z dodeljeno podporno enoto Porsche. Podatki, poslaní iz vozila podporno enoti Porsche, lahko vsebujejo informacije, kot so identifikacijska številka vozila (VIN), model vozila, leto proizvodnje in posebna oprema, lokacija vozila, nastop nezgode, nivo goriva, tlak v pnevmatikah, preostali doseg z razpoložljivim gorivom, stanje vozila in sporocila o napakah (v nadaljnjem besedilu podatki o vozilu). S strani podporne enote Porsche in/ali prek pogovornega okna v aplikaciji My Porsche in/ali v informacijsko-razvedrilnem sistemu vozila ste lahko zaprošeni za vaše soglasje za priklic identifikacijske številke vozila in/ali drugih podatkov o vozilu.

1.1.2 Med glasovno povezavo vam bo podpora enota Porsche zastavljala vprašanja za nadaljnjo oceno vaše okvare. Glede na konkretno situacijo v zvezi z okvaro vam lahko podpora enota Porsche ponudi različne možnosti pomoći, kot sledi:

- 1.) Podpora enota Porsche lahko svetuje, kako naprej (npr. "Prosimo, doljte olje na najbližji bencinski črpalki"); in/ali
- 2.) podpora enota Porsche lahko natančneje analizira prejete podatke o vozilu in poskuša identificirati težavo. Zbrane podatke lahko posreduje posameznemu centru Porsche, kar temu omogoči pripravo na vaš obisk servisne delavnice ali sprožitev nadaljnjih ukrepov. Če je težavo mogoče rešiti s popravilom na daljavo, lahko to izvede podpora enota Porsche. Za to morajo biti izpolnjeni različni predpogoj, povezani s težavo, na primer: ugasnjen motor, vozilo miruje, aktivna blokada premikanja, zaprta okna, ni aktivnega procesa polnjenja. Po potrebi se odčitajo še dodatni podatki o vozilu, potrebeni za ta namen. Poleg tega je možno, da funkcija okvare in/ali klica v sili med reševanjem težave s popravilom na daljavo ne obstaja ali je omejena. Podpora enota Porsche vas bo obvestila o vseh takih predpogojih in/ali omejitvah uporabe, preden začne odpravljati težavo s popravilom na daljavo, kar morate nato potrditi. To je le poskus odpravljanja težave, zato bodo morda potrebni dodatni koraki; in/ali
- 3.) Podpora enota Porsche lahko naroči zunanjio podporo, npr. pomoč na cesti ali vleko nedeljujočega vozila. Vaš klic ne bo posredovan drugim ponudnikom storitev. Če je treba vaše vozilo popraviti, lahko podpora enota Porsche z vašim predhodnim soglasjem centru Porsche posreduje podatke o vozilu.
- 1.1.3 Vse storitve, ki jih nudi podpora enota Porsche po klicu ob okvari, zahtevajo ločeno pogodbo, kar lahko povzroči dodatne stroške. Več informacij o podporni enoti Porsche in še posebej o komponentah storitev, ki jih pokriva, lahko dobite v svojem centru Porsche ali pri svojem ponudniku podpornih storitev "AXA Assistance Deutschland GmbH/Inter Partner Assistance S.A." Podpora enota Porsche lahko ugotovi status podporne enote Porsche vašega vozila.
- 1.1.4 Če imate dostop ali uporabljate izdelke ali storitve tretjih oseb, veljajo pogodbena določila, ki so veljavna za takšne izdelke ali storitve. PSM ne odgovarja za kakršen koli dostop ali uporabo teh izdelkov ali storitev.
- 1.1.5 Upoštevajte, da lahko sprožitev storitve prek aplikacije My Porsche na vaši mobilni napravi povzroči dodatne stroške, odvisno od pogojev pogodbe za mobilno napravo, ki ste jo sklenili z drugim ponudnikom telekomunikacijskih storitev.
- ## 1.2 Omejitve uporabe in omejitve sistema
- 1.2.1 Storitev se izvaja preko telematske enote, nameščene v vozilu, ki sprejema satelitske signale GPS in prek brezžičnih komunikacijskih sistemov in komunikacijskih omrežij komunicira s podporno enoto Porsche. Zaradi narave tehnologij, ki se uporabljajo za funkcije storitve in jih vsebuje telematska enota, funkcije storitve (ali deli storitve) morda občasno niso na voljo na vseh delih pogodbenega ozemlja, navedenega v pogojih uporabe Porsche Connect Care, in/ali nanje negativno vplivajo fizični pogoji, kar med drugim vključuje odstranitev ali poseganje v telematsko enoto ali njeno anteno, elektromagnetizem, vozilo v garaži, podhodu ali na kateri koli drugi lokaciji, kjer GPS ali brezžična komunikacijska
- omrežja niso razpoložljiva, atmosferske razmere in druge vzroke motenj, ki so zunaj našega nadzora (npr. izpad GPS ali komunikacijskih omrežij). Zlasti je delovanje telematske enote in s tem zagotavljanje funkcij storitve v skladu s temi pogoji uporabe Porsche Connect odvisno od delovanja omrežij GPS ter brezžičnih in fiksnih komunikacijskih omrežij, s katerimi se telematska enota upravlja. Zato vse funkcije storitve niso na voljo kadar koli in kjer koli in ni nobenega zagotovila, da bodo delovale kadar koli in kjer koli.
- 1.2.2 Storitev ne vključuje zavarovanja vozila ali katerega koli drugega zavarovanja. Upoštevajte, da ste morda po zakonu dolžni skleniti zavarovanje; poleg tega je vaša odgovornost, da poskrbite za drugo zavarovalno kritje, če se vam to zdi razumno. Pristojbine, plačane za storitev, niso povezane z vrednostjo vozila ali kakršne koli lastnine v vozilu ali s stroški morebitnih poškodb ali škode, ki ste jo utrpeli vi ali drugi.
- 1.2.3 V primeru, da se težavo rešuje s popravilom na daljavo v skladu s točko 1.1.2 teh pogojev uporabe Porsche Connect, mora stranka predhodno podati soglasje podporni enoti Porsche.

2. Pametno vzdrževanje

Pri storitvi "Smart Service" gre za predvidevanje, zlasti na področjih podvozja, pogona in akumulatorjev, ki temelji na sprotnej analizi podatkov o vašem vozilu. V prihodnosti bodo napovedi natančnejše z optimizacijo modelov in/ali razširjen bo tudi obseg zajetega potrebnega vzdrževanja in popravil. Ustrezni podatki o vozilu se samodejno posredujejo v sisteme Porsche. V sistemu PCM in/ali v aplikaciji My Porsche boste prek sporočil in prikazov stanja obveščeni o posameznih potrebnih vzdrževalnih delih in popravilih za izbrane komponente vozila. Vaš center Porsche lahko prav tako prikliče te podatke in na podlagi teh podatkov proaktivno stopi v stik z vami prek kanala, ki ste ga izbrali.

- 3.1.4. Storitev med drugim omogoča sinhrono uporabo digitalnih navodil za uporabo, ki ni odvisna od naprave. To pomeni, da bodo strani, ki so v vozilu označene in izbrane kot priljubljene, ter nazadnje obiskane strani prikazane tudi na digitalnih izhodnih kanalih družbe Porsche AG, odvisno od države (pogoj za to sta spletna dostopnost vozila in prijava v izhodne kanale).
- 3.1.5. Poleg tega lahko prek možnosti Voice Pilot prikličete tudi "Dobro vedeti - Priročnik za voznike".

3.2 Omejitve uporabe in sistema

Vsebine navodil za uporabo, opisane v razdelku 3.1.1, so na voljo tudi brez povezave v sistemu PCM in aplikaciji My Porsche (potreben je prenos). Prikaz vsebin navodil za uporabo v oblikah dodatnih animacij je del storitve „Dobro vedeti – Priročnik za voznike plus“, ki je sestavni del paketa storitev Porsche Connect, ki ga je treba kupiti ločeno.

4. Spletna posodobitev programske opreme

Spletne posodobitev programske opreme se v vozilo namesti s tehnologijo Over-The-Air, pri čemer vam ni treba obiskati servisne delavnice. Posodobitev se pri tem prenesejo v ozadju in jih lahko namestite kadar koli, na primer po izklopu vozila in njegovem mirovanju čez noč.

4.1 Podrobni opis

Z rednim izvajanjem posodobitev je vozilo posodobljeno na najnovejšo različico programske opreme, posodobitev pa se izvajajo na podoben način kot že znani poteki posodobitev v drugih medijih/napravah. Če je za vaše vozilo na voljo posodobitev, se bo ta prenesla v ozadju. Po uspešnem prenosu vam bo sistem PCM vozila ponudil namestitev posodobitev. Za začetek namestiteve morate izvesti korake, navedene v sistemu PCM (npr. izklopiti vozilo, vkloniti parkirno zavoro itd.) Med izvajanjem posodobitve vozila ni mogoče uporabljati. Po uspešni posodobitvi boste v sistemu PCM prejeli sporočilo. Storitev spletnega posodabljanja programske opreme lahko kadar koli deaktivirate in znova aktivirate v aplikaciji My Porsche.

4.2 Omejitve uporabe in sistema

Funkcije, opisane v razdelku 4.1, so v sistemu PCM vedno na voljo, če je v vašem vozilu vzpostavljena povezljivost, torej zanesljiva mobilna povezava. Namestitev spletne posodobitve programske opreme ne more delovati, če je vaše vozilo v zasebnem načinu. Drugi predpogoji (npr. da je vozilo varno parkirano ali da vozilo ni na polnilni postaji) so specifični za posodobitev in se v sistemu PCM prikažejo pred vsako namestitvijo.

5. Posodobitve

V obdobju zagotavljanja paketa storitev, ki soppada s trajanjem pogodbe o paketu storitev, vam bomo zagotovili posodobitve vsaj v zakonsko predpisanim obsegu, razen če se z vami v skladu z zakonskimi zahtevami dogovorimo drugače.

6. Uporaba podatkov

Uporaba takšnih podatkov bo v skladu z veljavno zakonodajo o varstvu podatkov. V primerih, ko zakon tako zahteva, bo družba Porsche Sales & Marketplace pridobila ustrezna soglasja. Dodatne informacije so na voljo v informacijah o varstvu podatkov in zasebnosti pod <https://connect-store.porsche.com/si/en/t/privacy>.

Obdobje brezplačne uporabe: Porsche Connect lahko ob nakupu novega vozila, ki podpira funkcijo Connect, brezplačno rezervirate za 10 let.

Vaše vozilo je do storitev Porsche Connect upravičeno 10 let, kar pomeni, da lahko v tem času v svojem vozilu uporabljate storitve Porsche Connect. Potrebno povezljivost za uporabo aplikacij zunanjih ponudnikov in dostopno točko W-LAN imate brezplačno zagotovljeno (s strani našega pogodbenega partnerja) 4 leta od predaje vozila. Več informacij najdete na

<https://connect-store.porsche.com/si/sl>. PSM ves čas razvija svoje storitve in funkcionalnosti. Zato se lahko zgodi, da v vašem vozilu ni mogoče uporabljati vseh programske funkcijskih ali novih funkcij, ki jih Porsche uvaja za novejše ali druge modele, oziroma da ne delujejo.

Še en predpogoj za uporabo vseh storitev, vključenih v paket storitev: sistem Porsche Communication Management vozila, ki podpira funkcijo Connect (v nadaljnjem besedilu **PCM**), mora omogočati povezljivost. Povezljivost je zagotovljena prek vgrajene SIM kartice sistema PCM, uporaba povezljivosti za ta paket storitev (z izjemo storitev "App Center", "Online/Hybrid Radio" in dostopa do interneta prek dostopne točke Wifi) pa je vključena v ceno paketa storitev. Za storitev "App Center", "Online/Hybrid Radio" in dostop do interneta prek dostopne točke Wifi je potreben tudi (a) podatkovni paket ali (b) povezava prek mobilnega telefona (tethering) z ustrezno naročnino za mobilni prenos podatkov. Za to je potrebna ločena pogodba z mobilnim operaterjem. S tem lahko nastanejo dodatni stroški vključno s stroški gostovanja za uporabo storitve v tujini, odvisno od pogodb, ki ste jo sklenili z mobilnim operaterjem. Če sistem PCM povežete prek mobilnega telefona, se prepričajte, da vaša naročnina na mobilni prenos podatkov to omogoča. Razpoložljivost in hitrost storitev, vključenih v paket storitev, sta odvisni od razpoložljivosti in hitrosti podatkovne povezave, ki jo zagotavlja vaš mobilni operater. V nekaterih državah lahko pri našem izbranem sodelujočem partnerju za 4 leta naročite brezplačno storitev Data Pass 5 GB.

Navigacijski sistem PCM lahko zemljevid prikaže v satelitskem pogledu. S predpomnjenjem naloženih podatkov zemljevidov trenutne okolice vozila se satelitski pogled ohrani, tudi če je povezava začasno prekinjena.

Zato bi bile v resničnem stanju določene lokacije lahko zunaj doseg na električni pogon, čeprav so navedene znotraj kroga električnega doseg. Ta storitev je na voljo izključno za električna in hibridna vozila.

15.2 Omejitve uporabe:

Ta storitev lahko pošlje sporočilo ali potisno obvestilo samo, če se lahko vozilo poveže s sistemom Porsche. Če se protivlomni alarm sproži, vendar krmilna enota vašega vozila nima povezave (npr. ker je parkirano v podzemni garaži), bo sporočilo ali potisno obvestilo poslano takoj, ko bo povezava na voljo.

Ko je storitev "Klic ob okvari" sprožena, vzpostavi glasovno in podatkovno povezavo s podporno enoto Porsche, ki je dodeljena vozilu, ter ji posreduje vašo lokacijo vozila in vse pomembne informacije o vozilu. Te podatki o vozilu lahko uporabite za osebni pogovor z zaposlenimi v podporni enoti Porsche. Storitev "Klic ob okvari" je neodvisna od storitev EU eCall. V nujnih primerih lahko v svojem vozilu uporabite storitev EU eCall, da vzpostavite stik s pristojnim centrom za klic v sili. oz. se v nujnem primeru prek EU eCall samodejno sproži ustrezni klic v sili.

17.1 Opis:

17.1.1

Storitev lahko sprožite prek sistema Porsche Communication Management vozila, ki podpira funkcijo Connect (v nadaljnjem

besedilu **PCM**), ali prek aplikacije Porsche Connect. Aktivacijo lahko tako izvede kateri koli glavni in sekundarni uporabnik ter vsakdo, ki ima dostop do notranjosti vozila. Po aktivaciji storitve se samodejno vzpostavi glasovna in podatkovna povezava iz vozila z dodeljeno podporno enoto Porsche. Podatki, poslani iz vozila podporno enoti Porsche, lahko vsebujejo informacije, kot so identifikacijska številka vozila (VIN), model vozila, leto proizvodnje in posebna oprema, lokacija vozila, nastop nezgode, nivo goriva, tlak v pnevmatikah, preostali doseg z razpoložljivim gorivom, stanje vozila in sporocila o napakah (v nadalnjem besedilu podatki o vozilu). S strani podporne enote Porsche in/ali prek pogovornega okna v aplikaciji My Porsche in/ali v informacijsko-razvedrilih sistemih vozila ste lahko zaprošeni za vaše soglasje za priklic identifikacijske številke vozila in/ali drugih podatkov o vozilu.

17.1.2

Med glasovno povezavo vam bo podporna enota Porsche zastavljala vprašanja za nadaljnjo oceno vaše okvare. Glede na konkretno situacijo v zvezi z okvaro vam lahko podporna enota Porsche ponudi različne možnosti pomoči, kot sledi:

17.1.2.1

podporna enota Porsche lahko svetuje, kako naprej (npr. "Prosimo, dolijte olje na najbližji bencinski črpalki"); in/ali

17.1.2.2

podporna enota Porsche lahko natančneje analizira prejete podatke o vozilu in poskuša identificirati težavo. Zbrane podatke lahko posreduje posameznemu centru Porsche, kar temu omogoči pripravo na vaš obisk servisne delavnice ali sprožitev nadaljnji ukrepov. Če je težavo mogoče rešiti s popravilom na daljavo, lahko to izvede podporna enota Porsche. Za to morajo biti izpolnjeni različni predpogoji, povezani s težavo, na primer: ugasnjene motor, vozilo miruje, aktivna blokada premikanja, zaprta okna, ni aktivnega procesa polnjenja. Po potrebi se odčitajo še dodatni podatki o vozilu, potrebni za ta namen. Poleg tega je možno, da funkcija okvare in/ali klica v sili med reševanjem težave s popravilom na daljavo ne obstaja ali je omejena. Podporna enota Porsche vas bo obvestila o vseh takih predpogojih in/ali omejitvah uporabe, preden začne odpravljati težavo s popravilom na daljavo, kar morate nato potrditi. To je le poskus odpravljanja težave, zato bodo morda potrebni dodatni koraki; in/ali

17.1.2.3

Podporna enota Porsche lahko naroči zunanjio podporo, npr. pomoč na cesti ali vleko nedeljučega vozila. Vaš klic ne bo posredovan drugim ponudnikom storitev. Če je treba vaše vozilo popraviti, lahko podporna enota Porsche z vašim predhodnim soglasjem centru Porsche posreduje podatke o vozilu.

17.1.3

Vse storitve, ki jih nudi podporna enota Porsche po klicu ob okvari, zahtevajo ločeno pogodbo, kar lahko povzroči dodatne stroške. Več informacij o podporni enoti Porsche in še posebej o komponentah storitev, ki jih pokriva, lahko dobite v svojem centru Porsche ali pri svojem ponudniku podpornih storitev "AXA Assistance Deutschland GmbH/Inter Partner Assistance S.A." Podporna enota Porsche lahko ugotovi status podporne enote Porsche vašega vozila.

17.1.4

Če imate dostop do produktov ali storitev zunanjih ponudnikov oziroma jih uporabljate, veljajo pogoji in določila teh izdelkov ali storitev. Sistem PSM ni odgovoren za dostop do teh izdelkov ali storitev ali njihovo uporabo.

17.1.5

Upoštevajte, da lahko sprožitev storitve prek aplikacije My Porsche na vaši mobilni napravi povzroči dodatne stroške, odvisno od pogojev pogodbe za mobilno napravo, ki ste jo sklenili z drugim ponudnikom telekomunikacijskih storitev.

17.2 Omejitve uporabe:

17.2.1

Storitev se izvaja preko telematske enote, nameščene v vozilu, ki sprejema satelitske signale GPS in prek brezžičnih komunikacijskih sistemov in komunikacijskih omrežij komunicira s podporno enoto Porsche. Zaradi narave tehnologij, ki se uporabljajo za funkcije storitve in jih vsebuje telematska enota, funkcije storitve (ali deli storitve) morda občasno niso na voljo na vseh delih pogodbenega ozemlja, navedenega v pogojih uporabe Porsche Connect, in/ali nanje negativno vplivajo fizični pogoji, kar med drugim vključuje odstranitev ali poseganje v telematsko enoto ali njeno anteno, elektromagnetizem, vozilo v garaži, podhodu ali na kateri koli drugi lokaciji, kjer GPS ali brezžična komunikacijska omrežja niso razpoložljiva, atmosferske razmere in druge vzroke motenj, ki so zunaj našega nadzora (npr. izpad GPS ali komunikacijskih omrežij). Zlasti je delovanje telematske enote in s tem zagotavljanje funkcij storitve v skladu s temi pogoji uporabe Porsche Connect odvisno od delovanja omrežij GPS ter brezžičnih in fiksnih komunikacijskih omrežij, s katerimi se telematska enota upravlja. Zato vse funkcije storitve niso na voljo kadar koli in kjer koli in ni nobenega zagotovila, da bodo delovale kadar koli in kjer koli.

17.2.2

Storitev ne vključuje zavarovanja vozila ali katerega koli drugega zavarovanja. Upoštevajte, da ste morda po zakonu dolžni skleniti zavarovanje; poleg tega je vaša odgovornost, da poskrbite za drugo zavarovalno kritje, če se vam to zdi razumno. Pristojbine, plačane za storitev, niso povezane z vrednostjo vozila ali kakršne koli lastnine v vozilu ali s stroški morebitnih poškodb ali škode, ki ste jo utrpleli vi ali drugi.

17.2.3

V primeru, da se težavo rešuje s popravilom na daljavo v skladu s točko 18.1.2.2 teh pogojev uporabe Porsche Connect, mora stranka predhodno podati soglasje podporna enoti Porsche.

18 Pametni servis

18.1 Opis:

Pri storitvi "Smart Service" gre za predvidevanje, zlasti na področjih podvozja, pogona in akumulatorjev, ki temelji na sprotni analizi podatkov o vašem vozilu. V prihodnosti bodo napovedi natančnejše z optimizacijo modelov in/ali razširjeni bo tudi obseg zajetega potrebnega vzdrževanja in popravil.

V sistemu PCM in/ali v aplikaciji My Porsche boste prek sporočil in prikazov stanja obveščeni o posameznih potrebnih vzdrževalnih delih in popravilih za izbrane komponente vozila. Vaš center Porsche lahko prav tako prikliče te podatke in na podlagi teh podatkov proaktivno stopi v stik z vami prek kanala, ki ste ga izbrali.

19.1.4

To pomeni, da bodo strani, ki so v vozilu označene in izbrane kot priljubljene, ter nazadnje obiskane strani prikazane tudi na digitalnih izhodnih kanalih družbe Porsche AG, odvisno od države (pogoj za to sta spletna dostopnost vozila in prijava v izhodne kanale).

These Terms of Use govern the use of the Porsche Connect "Navigation & Infotainment Package". These Terms of Use apply in addition to the Terms and Conditions for the Porsche Connect Store and the Porsche Connect Services as well as Porsche Products (T&C). Insofar a provision of the T&C conflicts with these Terms of Use, the Terms of Use shall prevail.

"Navigation & Infotainment Package"

The "Navigation & Infotainment Package" includes - dependent on the equipment of your vehicle and the geographic availability - 18 package of services components described hereafter or less. The current geographic availability can be found in the Porsche Connect Store at <https://connect-store.porsche.com/si/en/>.

Term: 1 year

Inclusive term: In case of the purchase of a new Connect-able vehicle including the option "Connect Plus" or the purchase of a 718 model from May 2018 onwards including the option "Navigation incl. Porsche Connect", the "Navigation & Infotainment Package" can be booked free of charge for a term of 2 years.

Additional requirement of use for all service package components: The Porsche Communication Management of a Connect-able vehicle (hereinafter **PCM**) has to be connected to the internet. To the extent such internet connection is established using the PCM's integrated SIM-card, the use of such internet connection for this package of services (excluding the service package component "Radio Plus") is included in the price of this package of services. To the extent such internet connection is not established using the PCM's integrated SIM-card (i.e. because the vehicle is not equipped with an integrated SIM-card or because the internet connection using the PCM's integrated SIM-card is not available in every country), a separate contract with a mobile services provider on an internet data plan is required, which may accrue additional costs, including roaming costs for using the service abroad. Either a SIM-card with a respective internet data plan may be plugged into the SIM-card reader of the PCM, or a connection with a mobile phone with respective internet data plan can be established. If you connect the PCM with your mobile phone, please make sure that this is permitted by your internet data plan. The availability and speed of the service package components are subject to the availability and speed of the internet connection.

For models featuring Porsche Connect except the new Cayenne (MY 2018), the new Macan (MY 2018) and the new 911 (MY2019) (more details on this model see below) the following applies:

1. Real Time Traffic Information

Services: The navigation system of the PCM is using current GPS data and data on volume of traffic to optimize the route to the entered destination by the minute. The volume of traffic

will additionally be highlighted in colours in the displayed map: going from green for low traffic, to yellow for slow moving traffic, to red for traffic jams.

2. Online Map Update

Services: The maps of the PCM navigation system can be updated via the internet. The PCM will display available updates.

3. Satellite Map

Services: The PCM navigation system can display the map in satellite view. By a buffering of loaded map data of the current surroundings of the vehicle the display of the satellite view will be kept even if the internet connection is temporarily interrupted. Vehicles up to model year 2019 may need an update in order to be able to use the service. For more information, please contact your Porsche partner.

4. Online Search

The located parking possibility can be selected for the PCM navigation system as navigation destination.

6. Fuel Prices

Services: With the service package component "Fuel Prices", participating gas stations in the surrounding of the vehicle, on the route to or at the navigation destination of the PCM navigation system will be displayed suitable to the type of fuel of the respective Connect-able vehicle. The results list can be sorted by distance or most favourable price reported by the gas station operator or other users. Via free text search also a specific brand can be searched purposefully. Found gas stations can be selected as navigation destination of the PCM navigation system.

7. E-Charging

Services: With the service package component "E-Charging", participating E-Charging stations in the surrounding of the vehicle, on the route to or at the navigation destination of the PCM navigation system will be displayed. The results list can be sorted by distance or most favourable price reported by the E-charging operator or other users. Via free text search also stations of a particular power supplier can be searched purposefully. Found E-Charging stations can be selected as navigation destination on the PCM navigation system. In order to ensure the necessary data validity in our E-Charging directory and/or the reliability of the charging process at the respective E-Charging, charging data is collected anonymously and used for appropriate corrections and/or additions to the E-Charging directory.

"Car Security Package"

Depending on geographic and technical availability, the 'Car Security Package' (hereinafter 'package') includes either the 'Porsche Vehicle Tracking System' (hereinafter PVTS) or the 'Porsche Vehicle Tracking System Plus' (hereinafter PVTS Plus). The current geographic availability can be found in the Porsche Connect Store at povezavi <https://connect-store.porsche.com/si/en/>. The connectivity necessary for the provision of the Package is established using an integrated SIM-card. The connectivity is an integrated element of the Package and is not charged separately.

For the full use of the functionalities of the Package additional steps might be required, such as download and use of the My Porsche App which may be subject to other provisions and not provided by Porsche Sales & Marketplace.

Term: 1 year.

Additional requirement of use for the service Package component PVTS Plus: PVTS Plus requires additional Hardware (e.g. Driver Card). Further information can be found in the user manual for the respective vehicle.

The functionalities may vary depending on a number of factors, including the model, production year, country of service, and availability of optional equipment (further information can be found on: povezavi <https://connect-store.porsche.com/si/en/>).

1. Territory

Porsche Sales & Marketplace shall provide the Package to you in the following geographic territory (hereafter referred to as **Territory**) in accordance to these TU: Andorra, Austria, Belgium, Bulgaria, Croatia, Czech Republic, Denmark,

Estonia, Finland, France, Germany, Great Britain, Northern Ireland, Greece, Hungary, Ireland, Italy (including San Marino, Vatican City), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain (including Canary Islands), Sweden, Switzerland, Turkey, Ukraine.

2. Service scope, functionalities

- 2.1 The package relies on a mobile data network (e.g. GSM) / GPS-based system that can allow the SoC to locate the vehicle in the event of theft (see below for more details). In case a theft is recognized the PVTS or the PVTS Plus can report the position of the vehicle to the SOC.
- 2.2 The following activities may result in the PVTS or the PVTS Plus recognizing a theft:
 - Unauthorized vehicle movement: The vehicle is moving/is moved (including slope) with the ignition switched off and/or, in case of a Driver Card, the vehicle is moving/is moved without the Driver Card;
 - Manipulation: The PVTS or the PVTS Plus (including its hardware) is manipulated;
 - Alarm: The alarm system is triggered and active for 15 seconds or longer.

Note that also other events may result in the PVTS or the PVTS Plus recognizing a theft, such as low battery. Additional information on the functionality of the PVTS or the PVTS Plus can be found in the user manual for the respective vehicle.

- 2.3 A theft can also be manually reported by contacting the SOC via telephone or via the My Porsche App. The SOC may use security questions in order to verify the caller's identity or authorization.
- 2.4 If the SOC receives a theft notification the SOC will try to communicate with you using the contact information you have provided to Porsche Sales & Marketplace. The SOC may use security questions in order to verify your identity. After the theft of your vehicle has been confirmed by you, the SOC shall activate the theft mode.
- 2.5 Upon a theft of the vehicle, you remain responsible for notifying the public safety authorities as soon as reasonably possible that the vehicle has been stolen. In case you obtain a reference number for the theft report from the public safety authorities you should provide the theft report reference number to the SOC without delay and the contact details (including address, phone number and the officer in charge of the theft investigation, if known) of the investigating public safety authorities. Thus, the SOC is generally able to contact

the public safety authorities. By identification via the file number, the SOC may support the public safety authorities for seizing the vehicle. If requested, the SOC may forward the vehicle positioning data to the public safety authorities and triggers further functions and/or activities in the vehicle (e.g. prohibits engine restart), where applicable.

- 2.6 Porsche Sales & Marketplace cannot be held responsible for any acts or omissions of the public safety authorities.
 - 2.7 To prevent any false theft notification to the SOC you are obliged to notify the SOC prior to any (i) transport of the vehicle (such as transport by ferry, trailer, train), (ii) maintenance at garage (such as inspection service, when the battery is disconnected), or (iii) in case of PVTS Plus if the vehicle is used without a valid Driver Card. You are obliged to notify the SOC (i) by calling the number indicated above or (ii) via the My Porsche App (your personal security code might be required). Further details – e.g. on the different modes the vehicle can be set to for transport, maintenance etc. – can be found in the user manual for the respective vehicle or the manual for the My Porsche App or here povezavi <https://connect-store.porsche.com/si/en/>.
 - 2.8 You are responsible for any false theft notification raised by you or any other person authorized by you and you have to bear the costs incurred by the SOC following a false alarm. Porsche Sales & Marketplace is entitled to charge you (in addition to the Package Fees) with these costs.
 - 2.9 You shall report to Porsche Sales & Marketplace directly any change in name, address, telephone number, e-mail address or any other items submitted to Porsche Sales & Marketplace as set forth in No. 1.3 of the T&C. Porsche Sales & Marketplace shall not be liable for any adverse consequence due to failure to file such report.
- 3. Updates:** During the service package availability period, which coincides with the term of the service package contract, we will provide you with updates to at least the extent required by law, unless otherwise agreed with you in accordance with the legal requirements.

4. Limitation of liability and System Limitations

- 4.1 For the avoidance of doubt, the provisions on limitation of liability according to No. 10 of the T&C shall apply.
- 4.2 With regard to the functionalities of the Package you remain responsible that the hardware within the vehicle used for the Package is maintained and are in good conditions.
- 4.3 The Package is provided by using a telematics unit installed in the vehicle that receives GPS satellite signals and communicates with the response centres using wireless communication systems and communication networks. Owing to the nature of the technologies used to provide the functionalities of the Package and comprised in the unit, the functionalities of the Package (or part of the Package) may from time to time not be available in all areas of the Territory and/or be adversely affected by physical features, including, without limitation, removal or manipulation of the unit or its antenna, electromagnetism, the vehicle being in a garage, in an underpass or in other places not covered by the GPS or wireless communication networks, atmospheric conditions and other causes of interference beyond our control (e.g. failure of GPS or communication networks). In particular, the operation of the unit and, therefore, the provision of the functionalities of the Package in accordance with the TU depend upon the operation of the GPS, wireless and landline communication networks with which the unit operates, and these networks are not operational in all parts of the Territory. As a result, not all functionalities of the Package are available

everywhere and at all times and there can be no guarantee that all functionalities of the Package are operational.

- 4.4 The Package does not provide any vehicle or other insurance. Please be informed that you may be legally required to take insurance; further it is your own responsibility to take additional insurance protection where you deem it reasonable. Any fees paid for the Package are not related to the value of the vehicle or any property in the vehicle or the cost of any injury or damages suffered by you or anyone else.

5. Right of withdrawal for consumers

If the Customer is a consumer according to Sec. 13 of the German Civil Code (BGB), he/she has a right of withdrawal for a period of 14 days in case of the conclusion of the contract. Consumer pursuant to Sec. 13 of the German Civil Code (BGB) means every natural person who enters into a legal transaction for purposes that predominantly are outside his/her trade, business or profession. Terms of Use

for the Porsche Connect Service "Breakdown Call"
(hereafter referred to as **TU**)

These Terms of Use govern the use of the Porsche Connect Service "Breakdown Call". These Terms of Use apply in addition to the Terms and Conditions for the Porsche Connect Store and the Porsche Connect Services as well as Porsche Products (T&C). Insofar a provision of the T&C conflicts with these terms of use, the terms of use shall prevail.

"Breakdown Call"

After the "Breakdown Call" service has been triggered, the service establishes a voice and data connection to the Porsche Support instance assigned to the vehicle and transmits your vehicle location and all relevant vehicle information to the Porsche Support instance. You can use this vehicle information to personally talk to employees at the Porsche Support instance.

The Service is available in certain countries and depends on network availability. The current geographic availability of the Service can be found in the Porsche Connect Store at <https://connect-store.porsche.com/si/en/>. The connectivity necessary for the provision of the Service is established using an integrated SIM-card. The connectivity is an integrated element of the Service and is not charged separately.

Term: 10 years

Inclusive term: In case of the purchase of a new Connect-able vehicle including the option "Connect Plus", the Service can be booked free of charge for a term of 10 years.

1. Detailed Description of Service

- 1.1 You can trigger the service either via the Porsche Communication Management of a vehicle with Connect capabilities (hereinafter **PCM**) or via the My Porsche app. Activation can therefore be carried out by any main- or secondary user, as well as by anyone who has access to the vehicle interior. After the service has been triggered, a voice and data connection is automatically established from the vehicle to the assigned Porsche Support instance. The data sent from the vehicle to the Porsche Support instance can contain information such as the vehicle identification number (Vehicle ID), vehicle model, year of production and special equipment, vehicle location, occurrence of an accident, fuel level, tyre pressure, remaining range with the available fuel, vehicle status and error messages (hereinafter car data). The Porsche Support instance and/or a dialogue in the My Porsche App and/or in the vehicle infotainment system might ask you for your consent for calling up the vehicle identification number and/or other car data.
- 1.2 During the voice connection, the Porsche Support instance will ask you questions to further assess your breakdown situation. Depending on the particular breakdown situation, the Porsche Support instance can offer you various assistance options as follows:

- 1.2.1 The Porsche Support instance can give advice on how to proceed (e.g. "Please top up oil at the nearest gas station"); and/or
 - 1.2.2 The Porsche Support instance can analyse the received car data in more detail and try to identify the problem. The findings gathered can be passed on to the respective Porsche Centre, which enables them to prepare for the vehicle's visit to the workshop or to initiate further measures. If a problem can be solved via remote repair, the Porsche Support instance can carry this out. The prerequisite for this is the fulfilment of various problem-dependent preconditions such as: engine switched off, vehicle is stationary, engine immobiliser is active, windows are closed, no active charging process. If necessary, further car data required for this purpose are read out. In addition, it is possible that the breakdown and/or emergency call functionality will not exist or be limited during the problem solving via remote repair. Before starting to troubleshoot the problem via remote repair, the Porsche Support instance will inform you of any such preconditions and/or usage restrictions, which you must then confirm. This is only a troubleshooting attempt, so additional steps may be necessary; and/or
 - 1.2.3 The Porsche support instance can request external support, e.g. breakdown assistance or towing of the non-functional vehicle. Your call will not be forwarded to other service providers. If your vehicle needs to be repaired, the Porsche Support instance can, subject to your prior consent, forward the car data to a Porsche Centre.
 - 1.3 Any services provided by the Porsche Support instance after the breakdown call require a separate contract, which could result in additional costs. You can find more information about the Porsche Support instance and in particular about the service components covered by contacting your Porsche Centre or by inquiring with your support service provider "AXA Assistance Deutschland GmbH/Inter Partner Assistance SA". The Porsche Support instance can determine the Porsche Support instance status of your vehicle.
 - 1.4 If you access or use third-party products or services, the terms and conditions of those products or services apply. PSM is not responsible for access to or use of these products or services.
 - 1.5 Please note that triggering the service via the My Porsche app on your mobile device may incur additional costs, depending on the terms of the mobile phone contract that you have concluded with a third-party telecommunications provider.
- #### **2. Restrictions of Use and System Limitations**
- 2.1 The service is provided via a telematics unit installed in the vehicle, which receives GPS satellite signals and communicates with the Porsche Support instance via wireless communication systems and communication networks. Due to the nature of

the technologies used for the functions of the service and contained in the telematics unit, the functions of the service (or parts of the service) may from time to time not be available in all parts of the contract territory of these ToU and/or may be negatively affected by physical conditions, including but not limited to removal or tampering with the telematics unit or its antenna, electromagnetism, the vehicle being in a garage, underpass or any other location where the GPS or wireless communication networks are not available, atmospheric conditions and other causes of interference that are beyond our control (e.g. failure of GPS or communication networks). In particular, the operation of the telematics unit and thus the provision of the functions of the service in accordance with these ToU depends on the GPS networks and the wireless and fixed communication networks used by the telematics unit being operational. Therefore, not all functions of the service are available anytime and anywhere, and there is no guarantee that all functions of the service will be operational anytime and anywhere.

- 2.2 The service does not include vehicle insurance or any other insurance. Please note that you may be required by law to have insurance; furthermore, it is your responsibility to arrange for such other insurance cover as you deem reasonable. The fees paid for the service are unrelated to the value of the vehicle or any property in the vehicle, or the cost of any injury or damage suffered by you or others.
- 2.3 In the event that a problem is to be solved by remote repair as per point 1.2 of these ToU, the customer must give consent to the Porsche Support instance in advance.
3. **Updates:** During the service package availability period, which coincides with the term of the service package contract, we will provide you with updates to at least the extent required by law, unless otherwise agreed with you in accordance with the legal requirements.

4. Right of withdrawal for consumers

If you are a consumer according to Sec. 13 of the German Civil Code (BGB), you have a right of withdrawal for a period of 14 days in case of the conclusion of the contract. Consumer pursuant to Sec 13 of the German Civil Code (BGB) means every natural person who enters into a legal transaction for purposes that predominantly are outside his/her trade, business or profession. In the following, the Customer is instructed on his/her right of withdrawal:

Terms of Use for the "Porsche Charging Service" (hereinafter also referred to as **ToU**)

These Terms of Use govern the use of the "Porsche Charging Service". These Terms of Use also apply in addition to the General Terms and Conditions for the Porsche Connect Store and the Porsche Connect Services, as well as Porsche Products (GTC). Insofar as any provision of the GTCs is in conflict with these Terms of Use, the Terms of Use shall prevail.

These Terms of Use generally apply to each charging process performed within the Porsche Charging Service (i.e., the individual charging services - see below - are subject to these Terms of Use).

It is only possible to make full use of the Porsche Charging Service with a smartphone app – the **My Porsche App** (hereinafter referred to as the **App**). The **app** is available for mobile devices with a supported operating system and can be downloaded free of charge in the app store of the respective provider of the mobile devices or the operating system. To use the app on your mobile device, it is necessary for your mobile device to be connected to the Internet. This requires a separate contract with a mobile service provider for an Internet data plan is required, for which additional costs and roaming costs, if used abroad, may arise.

"Porsche Charging Service" service

Term: 1 month (with automatic renewal)

The contract for the use of the 'Porsche Charging Service' has a term of one month and is automatically extended for an indefinite period.

Cancellation is possible at any time at the end of the calendar month, whereby automatic renewal for the following month will be deactivated.

Updates

During the service package availability period, which coincides with the term of the service package contract, we will provide you with updates to at least the extent required by law, unless otherwise agreed with you in accordance with the legal requirements.

Services of the Porsche Charging Service:

1. Access to the charging network and compatibility

1.1 The Porsche Charging Service allows access to and use of charging stations operated by Porsche Sales & Marketplace and third parties (hereinafter referred to as **charging stations**) for normal charging with alternating current (**AC**) and for fast charging with direct current (**DC**). For this we cooperate with selected charging station operators, as well as selected e-roaming partners in Europe, who provide the locations of public charging stations as bundles (see also section 2).

1.2 All charging stations are equipped with a Type 2 plug or connector (for AC charging) and/or the Combined Charging System (CCS) (for DC charging) in accordance with European standards. Individual charging stations are also equipped with the CHAdeMO standard (for DC charging)

Charging station compatibility:

- In general, charging stations with a Type 2 connection are compatible with plug-in hybrid and electric vehicles equipped with a Type 2 charging socket or a CCS charging socket. Charging also requires a charging cable (mode 3).
- In general, charging stations with a CCS connection are compatible with electric vehicles equipped with a CCS charging socket. An additional charging cable is not required.
- In general, charging stations that support the CHAdeMO standard are compatible with vehicles equipped with a CHAdeMO charging socket. An additional charging cable is not required.

Information about the charging socket available on your particular vehicle can be obtained from the operating manual for your vehicle or from your vehicle manufacturer. If your vehicle does not have any of the aforementioned charging sockets/connector types, charging (even using an adapter) may not be possible. You are responsible for the charging capability of your vehicle and must observe the regulations and instructions for using the charging stations at local level.

1.3 To unlock the respective charging station at the charging location, the authentication method stated when booking the Porsche Charging Service must be used (For authentication via app, Porsche Charging Card or the Plug & Charge vehicle function, see section 3 below). Please note that it may not be possible to use all authentication methods at all charging stations and authentication may only be possible using the app or Porsche Charging Card. The Plug & Charge vehicle function is also only available at certain charging stations. Plug & Charge-capable charging stations are visible in the app and can be identified using the filter function.

1.4 Use of the charging stations depends on various factors, including vacant spaces at the charging station and the charging station being in working order (this applies, for example, to recognizably damaged charging stations, which may not be used).

1.5 Charging services are provided by Porsche Sales & Marketplace GmbH (Porsche Sales & Marketplace).

1.6 **Restrictions on use:** the Porsche Charging Service is only permitted for charging the Porsche vehicle activated under the Porsche ID. Any use by Porsche vehicles that have not been activated for this service or that belong to other brands is not permitted.

Access to the Porsche Charging Lounge is only permitted for Porsche vehicles activated under the Porsche ID.

2. Information about the charging stations contained in the charging network

- 2.1 An overview of the charging stations provided by selected charging station operators and e-roaming partners can be found in the app.
- 2.2 Depending on availability, the following static and dynamic information about charging stations is available in the app: Location, AC and/or DC charging options, available connector types, indication of whether charging points are occupied or vacant, indication of prices for AC and/or DC charging, number of charging points per charging location. Porsche Sales & Marketplace assumes no liability for the accuracy and timeliness of the data and information supplied by these partners.

3. Authentication and charging at the charging station

- 3.1 **Starting the charging process:** to start the charging process at the charging station, you must first authenticate yourself by means of the app, the My Porsche Charging Card or Plug & Charge. There is usually a cost for starting the charging process (for prices and billing, see section 4 below).

The Intercharge QR code displayed on the relevant charging station, which is scanned using the app and the camera of the user's mobile device, is used to unlock the charging station and start the charging process. If it is not possible to scan the QR code, the charging station ID can also be entered manually via the app to start the charging process. Alternatively, the charging station can also be unlocked remotely, i.e. by selecting the relevant charging station in the app. Some charging stations have special features when starting. For this reason you should always follow the instructions on the charging station. You can use the app to monitor the duration of the present charging process; this may differ from the actual duration of the charging process for technical reasons.

After the Porsche Charging Service has been booked, the Porsche Charging Card will be sent by post to the shipping address provided by the customer in the customer portal. The Porsche Charging Card has an RFID chip that enables the charging station to be unlocked.

The certificates required to use Plug & Charge are automatically generated after the service is booked. They are transmitted to the vehicle the first time a compatible charging station is used.

- 3.2 **Ending the charging process:** The charging process can be stopped manually by unlocking the vehicle and unplugging the charging cable. At some charging stations, the charging process can also be ended manually using the app or by presenting the Porsche Charging Card again. As soon as the car's battery is fully charged, the charging process will stop automatically. To finish the charging process completely, the vehicle must be disconnected from the charging station. Only then will the charging duration for billing purposes end. Some charging stations have special features when charging is ended. For this reason you should always follow the instructions on the charging station. After successful completion of the charging process, the information from the last charging process (location where charging took place, date, time and cost) will be displayed in the app charging

history (for technical reasons, the charging history in the app may not always reflect the current status).

4. Prices and billing

- 4.1 Depending on the tariff you have booked, the costs you incur for this service consist of (i) an annual or monthly basic fee and (ii) usage fees per charging process, which are made up as follows:

All tariffs (except 'Porsche Charging Service (for Taycan J1 (2019-2024))')

- the amount of energy charged in kWh and
- a minute-based fee, which is charged additionally from a certain point in time after charging begins.

Porsche Charging Service (for Taycan J1 (2019-2024))

- the amount of energy charged in kWh and
- the connection time in minutes

The basis for billing by time (per minute) is the connection time (charging cable connected to the charging station and vehicle). In other words, charges are incurred as long as the vehicle is connected to the charging station.

- 4.2 The valid price list and an overview of the billing type can now be found under the following link: <https://www.porsche.com>. The price list for the Porsche Charging Service (for Taycan J1 (2019-2024)) can be found under the following link: <https://connect-store2.porsche.com> (in particular in respect of different prices and billing types in different countries and service categories). In addition, the prices and billing types will be displayed in the app prior to the start of the charging process.

- 4.3 At the end of the month, you will receive an aggregated bill for the charging processes that we have recorded within a billing period as well as any basic fees incurred. This information can be viewed in the My Porsche app and will be sent by email to the email address you have provided. Please note that due to technical circumstances, we are only able to record some charging processes at a later point, so that the billing statement may also include charging processes not yet billed from before the current billing period, for which you will be charged. You will also see the costs accumulated for the current billing period in the app (please note that this view may not always be up-to-date).

For vehicles of the model year 2020 (you can identify the model year from the tenth digit of the vehicle identification number (VIN) with the letter L), the "Lock & Unlock" service and the "Horn & Indicator" services are not available. For the vehicles model year 2020 a software update in the workshop is required to use in particular the service Apple Podcasts® (feature of Media Streaming service). Model year 2022 vehicles also require a software update in the workshop, in particular to enable use of the Spotify service (media streaming service function). Contact your dealer for further information.

Porsche Connect includes – depending on the geographic availability – the services described in the following. The current geographic availability can be found in the Porsche Connect Store at <https://connect-store.porsche.com/si/en/>.

Term: from 1 month

Free-of-charge inclusive period: When buying a new Connectable vehicle, Porsche Connect may be booked free-of-charge for 36 months.

Further requirements for the use of all services included in the Service Package: The Porsche Communication Management of a Connectable vehicle (hereafter referred to as **PCM**) must have connectivity. If the connectivity is provided via the embedded SIM card of the PCM, the use of such connectivity for this Service Package is included in the price of the Service Package. If the connectivity is not provided via the embedded SIM card of the PCM (e.g. because connectivity via the embedded SIM card of the PCM is not available in all countries), connectivity may be established using a mobile phone with an appropriate mobile data plan. This requires a separate contract with a mobile service provider. Depending on the contract concluded with the mobile phone provider, this may result in additional costs, including roaming costs when the service is used abroad. If you connect the PCM via your mobile phone, please ensure that this is permitted according to your mobile plan. The availability and speed of the services included in the Service Package depends on the availability and speed of the data connection provided by your mobile service provider.

The following applies to models with Porsche Connect:

1. Finder

Description: With the service "Finder" you can search for points of interest (e.g. charging stations, petrol stations, restaurants, hotels, and parking spaces) via a system-defined online search engine in a pre-defined database. The search results may provide additional information such as telephone numbers, opening hours, fuel prices, parking fees, or ratings by other users. Points of interest may also be searched, stored, managed and forwarded to the PCM in the My Porsche App.

2. Voice Pilot

2.1 **Description:** With the "Voice Pilot" service, various functions of the PCM and other services can be operated using voice input. Additional functionalities, such as media searches, points of interest or weather information, are made possible by means of online speech recognition.

2.2 **Restrictions of use:** Operation of the Voice Pilot is limited to the supported languages. The lack of an online connection can limit the results. Due to external influences, such as

background noise, for example, the **speech recognition** may not always produce the desired results.

3. Navigation Plus

Description: With the "Navigation Plus" service, route calculation by the PCM in the vehicle is supplemented by online services.

The PCM's navigation system uses current GPS and traffic data to optimize the route to the entered destination to the minute. In the map view, the roads are marked in color according to the traffic situation. The maps of the PCM navigation system are updated online.

The PCM navigation system can display the map in satellite view. By caching the loaded map data of the current vehicle environment, the satellite view will be maintained even if the connectivity is interrupted temporarily.

4. Charging Planner (Only available in: Austria, Belgium, Croatia, Czech Republic, Denmark, Finland, France, Germany, Gibraltar, Hungary, Ireland, Italy, Latvia, Montenegro, Netherlands, Norway, Poland, Romania, Serbia, Slovakia, Spain, Sweden, Switzerland, USA, New Zealand, Australia, Japan, Malaysia, Mexico, Puerto Rico, Singapore, South Korea, South Africa and Taiwan)

4.1 **Description:** The service "Charging Planner" improves the travel route of the PCM navigation system based on the destination chosen, the remaining range, the driving profile, available real-time traffic information as well as available charging stations and their charging capacity to achieve the shortest total travel time possible (driving time and charging stops). Required charging stops are automatically included in the travel route.

4.2 **Restrictions of use:** This service does not always receive precise information and therefore the availability of the charging stations can be inaccurate.

5. Radio Plus

5.1 **Description:** The "Radio Plus" service can be used to access online channels provided by radio stations. If Radio Plus is active and the reception of the radio sources FM or Digital Audio Broadcasting (DAB) is currently disrupted, the PCM automatically switches to the respective online channel from the station (if available). The service also displays metadata available via the PCM about the songs and stations you are playing.

5.2 **Restrictions of use:** The online and hybrid radio functions are only available in select countries. The data connection for this service requires (a) a data package (available separately from the cooperation partner in selected countries) or (b) a connection via the mobile phone connected to the PCM (tethering), with a corresponding mobile data tariff.

6. News

6.1 **Description:** The service allows to call up the latest news by subscribing to RSS feeds directly in the PCM. With the Voice Pilot you can have the articles read to you. Via keyword search, the subscribed channels may be browsed for information on preferred topics or keywords.

6.2 **Requirements:** For a personalized use the customer can subscribe to feeds under his or her Porsche ID. In this case, these feeds, are available in the vehicle only.

7. Weather

7.1 **Description:** The service "Weather" displays the current weather situation and the forecast for the following hours and days for the current position, the activated destination as well as any stored favorites. The forecast comprises for example temperature, number of hours of sunshine, probability of rain, wind speed and air quality. Reading aloud via Voice Pilot is possible, too.

7.2 **Restrictions of use:** The air quality is displayed in China only.

8. Porsche2X (only available in: Andorra, Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Gibraltar, Hungary, Italy, Luxembourg, Netherlands, Norway, Poland, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom)

10. Trip Control

10.1 **Services:** You have the option to check the trip data of your vehicle remotely. This includes: Driving time, route, average speed and average consumption for all types of journey (short, recurring, long).

10.2 **Restrictions of use:** Accessible information is updated only after the ignition status has changed.

11. Horn & Indicator (available for the Taycan only from model year 2021)

11.1 **Services:** You have the option to briefly activate the horn or the indicators of your vehicle remotely. You receive a confirmation message or a push notification after the process.

11.2 **Restrictions of use:** This service is only available if the vehicle is stationary and the ignition and the hazard lights are switched off. Further restrictions may apply according to country-specific regulations.

12. Lock & Unlock (available for the Taycan only from model year 2021)

12.1 **Services:** You have the option to remotely lock and unlock the doors and the trunk of your vehicle. You receive a confirmation message or a push notification after the process.

12.2 **Restrictions of use:** This service is only available if the vehicle is stationary, the driver's door is closed, the ignition is switched off and the key is not inserted into the ignition lock. Further restrictions may apply according to country-specific regulations.

12.3 **Note:** Using the unlock function in your absence from the vehicle increases the risk of vehicle theft or theft of items

placed in the vehicle. To prevent unauthorized use, a four-digit security code must be entered to use the unlock function. You will determine the security code when you register and set up Porsche Connect for the first time. This security code can be changed at a later date in the customer profile.

13. Car Finder

13.1 **Services:** You can have the location and position of your vehicle displayed remotely. The current position of the mobile end device used for this function is also displayed on a map. If no current position of the vehicle is available (e.g. because it is parked in an underground garage), the most recently saved GPS position is used. By activating the privacy mode, you can deactivate the transfer of data.

13.2 **Restrictions of use:** This service is exclusively available when data transfer works failure-free. Other than that, the service is fully available during the journey and when the vehicle is stationary.

14. E-Control (only available for electric and hybrid vehicles)

14.1 **Services:** You can remotely check the status of your vehicle and start or stop the charging process as follows. You can check the connection status, the remaining charging time and the current electric range. The electric range is indicated by a circle on the map. You also have the option of optimising the charging process of the high-voltage battery of your vehicle for a certain departure time. You can set departure timers and receive a confirmation message or push notification when events occur (for example, charging interrupted) and when an activated E-Timer has expired

14.2 **Use restrictions:** The range indicated by the circle on the map is only an estimated value. The values on the map do not reflect the actual route distances. Therefore, in reality, locations could be beyond the electric range even if they appear within the electric range circle. This service is available exclusively for electric and hybrid vehicles.

15. Climate (only available for electric and hybrid vehicles)

15.1 **Services:** You can remotely check the status of the heating and/or air conditioning system and activate or deactivate them as follows. Once the heating and/or air conditioning has been successfully activated or deactivated, you will receive a confirmation message or a push notification. You also have the option to remotely set the Climate Timer for remote heating and/or air conditioning. Once it is set, you will receive a confirmation message or a push notification on your mobile device when an activated Climate Timer has expired.

15.2 **Use restrictions:** This service is available exclusively for electric and hybrid vehicles.

16. Pre-heater

16.1 **Services:** You can remotely check the status of the pre-heater, activate it and use a timer function. You receive a confirmation message or a push notification on your mobile device once an activated timer for the pre-heater has expired. This service will be available only from the second half of 2018.

16.2 **Use restrictions:** The service is only available for vehicles with combustion engine equipped with a pre-heater. The service is only available when the vehicle is stationary, but the ignition may be switched on. For further information on using the pre-heater, please refer to the owner's manual for the vehicle. Further restrictions may apply as a result of country-specific regulations

17. Car Alarm

17.1 **Services:** You receive a message or a push notification when the anti-theft alarm of your vehicle is triggered. The message provides information on the triggered alarm and a timestamp. Contrary to the "Car Security Package", no third parties are informed about the triggered alarm.

17.2 **Restrictions of use:** This service can only send a message or a push notification if the vehicle can connect to the Porsche-systems. If the anti-theft alarm is triggered but the control unit of your vehicle has no connectivity (e.g. because it is parked in an underground garage), the message or the push notification is sent as soon as connectivity is available.

Note: If the vehicle is set to privacy mode, no message is sent in case of an alarm.

18. Location Alarm

18.1 **Services:** You can set a geographic border remotely in the form of a circle. You receive a message as soon as the vehicle leaves or enters this area. You can maintain up to four areas at the same time. In the case of an event (the vehicle leaves or enters an area), you receive a message or a push notification including a map displaying the location where the event took place.

18.2 **Restrictions of use:** This service will only send a message if the ignition is switched on and a wheel movement is detected.

19. Speed Alarm

19.1 **Services:** You can remotely set a speed value. You receive a message if the speed of the vehicle exceeds the set speed value. You can maintain up to four speed values at the same time. In the case of an event (the vehicle exceeds a speed value), you receive a message or a push notification including a map displaying the location where the event took place.

19.2 **Restrictions of use:** This service will only send a message if the ignition is switched on and a wheel movement is detected.

20. Valet Alarm

20.1 **Services:** You can activate or deactivate the Valet Alarm (a combination of Location Alarm and Speed Alarm) remotely with presettings for a geographic area and a speed value. You receive a message if the vehicle leaves or enters the area or exceeds the speed value.

20.2 **Restrictions of use:** This service will only send a push message if the ignition is switched on and a wheel movement is detected. The service is only available via the App.

21. Calendar

21.1 **Description:** The "Calendar" service makes it possible to directly link the PCM with third-party calendars that are available online. The service offers a day view. Appointments can be read out by the Voice Pilot. Furthermore, addresses can also be recognised in calendar entries and used directly as navigation destinations. It is also possible to dial in directly to conference calls, however, you can only dial in with a mobile phone connected to the PCM via Bluetooth.

21.2 **Restrictions of use:** Direct dialling into telephone conferences (i.e. dialling in without entering a PIN or other conference ID) is only possible with supported meeting invitation formats and with a mobile phone connected to the PCM via Bluetooth.

22. Media Streaming

- 22.1 **Description:** The music streaming (Apple Music®) and podcasts (Apple Podcasts®) and Spotify services offer direct and personalised access to the customer's linked media library and features of the respective third-party music streaming provider and podcast provider, provided they are supported in the vehicle. After the initial setup, the PSM customer no longer needs their smartphone and can use the service with their Porsche ID in all supported vehicles. The services can also be used in guest mode if third-party provider accounts are linked. Exclusive features such as direct storage of radio titles in the customer-specific media library or navigation via Voice Pilot are available with selected providers.
- 22.2 **Restrictions of use:** These services may only be used in countries where the service is also offered by the third-party provider. An exception applies to the countries of Andorra and Bosnia-Herzegovina, where the services cannot be used. In guest mode, the service of a third-party provider may only be used locally in the respective vehicle, but not in any other vehicle.
- 22.3 **Requirements:** In order to use the contents of the service Music Streaming, the PSM Customer must have an account as well as an active subscription of the Service Package. Additionally an active subscription of the respective third-party provider is necessary. The data required for using the service are included in the Service Package. In order to be able to use the service in a personalized manner, the PSM Customer must link his/her third-party account to the Porsche account once.

23. Good to know – Driver's Manual Plus

- 23.1 **Description:** The "Good to know – Driver's Manual Plus" service includes display of the contents of the Driver's Manual in the form of additional animations and can also be called up via the Voice Pilot.
- 23.2 **Use restrictions:** Use of the service requires an existing data connection in the vehicle.

24. In-Car Video

- 24.1 **Description:** The in-car video service gives you access to video content from a third-party provider, provided that it is supported by the vehicle. The service can also be used in guest mode.
- 24.2 **Use restrictions:** While driving, videos can only be viewed on the front passenger display (depending on equipment). In-car video can only be used in countries where the services are offered by the third-party provider. Before in-car Video can be used, a data connection must be established via an external Wi-Fi hotspot (tethering). The third-party provider and some streaming services may require a paid subscription. To use this service, an account with a content aggregator supported by Porsche is required. Furthermore, an additional account with a streaming provider – which may be subject to a fee – may be required for certain content.

Porsche Sales & Marketplace GmbH

Terms of Use
for the Porsche Connect Service „Porsche Connect Care“
(hereafter referred to as **ToU Porsche Connect Care**)

Porsche Sales & Marketplace GmbH (formerly Porsche Smart Mobility GmbH), Porscheplatz 1, 70435 Stuttgart, Germany, (hereafter referred to as **Porsche Sales & Marketplace, PSM or We**) operates under www.porsche.com various online marketplace functionalities (hereafter referred to as **Marketplace**) for the (i) sale of Porsche vehicles, parts, equipment and other vehicle related and vehicle independent products and (ii) provision of vehicle related and vehicle independent services. On the Marketplace, PSM also operates the Porsche Connect Store. For the use of the Marketplace including the Porsche Connect Store, the Terms and Conditions for the use of Porsche's Online Marketplace Functionalities (incl. the Porsche Connect Store) as well as the sale of Porsche Connect Services and Porsche Sales & Marketplace Products (hereafter referred to as **T&C**) apply. The current version of the T&C can be accessed, downloaded and printed at any time at <https://connect-store.porsche.com/si/en/t/termsandconditions>.

In the Porsche Connect Store, the user may also book "Porsche Connect Care". These ToU Porsche Connect Care govern the use of Porsche Connect Care and apply to the order, use and/or renewal of Porsche Connect Care. These ToU Porsche Connect Care apply in addition to the T&C. Insofar as a provision of the T&C conflicts with these ToU Porsche Connect Care, the ToU Porsche Connect Care prevail.

Any terms defined in the T&C shall have the same meaning in these ToU Porsche Connect Care. This shall in particular apply to the following terms:

- Customer: defined in section 1.3 of the T&C;
- Primary and Secondary User: defined in section 3.2 of the T&C;
- Porsche Connect Store and Porsche Connect Services: defined in section 3.1.1 of the T&C.

"Porsche Connect Care"

Porsche Connect Care (hereafter referred to as **Service Package**) is available for the following vehicle models:

- Taycan
- Cayenne (from model year 2022)
- 911 (from model year 2022)
- Panamera (from model year 2022)

Taycan vehicles of the model year 2020, however, require a free software update in an authorized Porsche workshop to be able to book the Service Package "Porsche Connect Care" (individual services of the Service Package may not be available despite this software update). You can recognize Taycan vehicles of the model year 2020 by the letter L at the 10th position of the vehicle identification number (VIN). For further information on the software update, please contact your Porsche Center.

The Service Package is only available in certain countries and depends on the network availability. You can find the current

geographical availability of the Service Package in the Porsche Connect Store at <https://connect-store.porsche.com/si/en/>. You will also find the respective geographical availability of the various functions of the Service Package in the following provisions of these ToU Porsche Connect Care.

Term: from 1 Month

Free inclusive period: Porsche Connect Care can be booked free of charge for 10 years when purchasing a new vehicle with Connect Care capabilities.

Connectivity: The connectivity that is required to provide the Service Package is established by an embedded SIM card. The connectivity is an integral part of the Service Package and is not charged separately.

Porsche Connect Care includes various functions (hereinafter referred to as **Services**), which are described below:

1. Breakdown Call

After the "Breakdown Call" service has been triggered, the service establishes a voice and data connection to the Porsche Support instance assigned to the vehicle and transmits your vehicle location and all relevant vehicle information to the Porsche Support instance. You can use this vehicle information to personally talk to employees at the Porsche Support instance. The "Breakdown Call" service is independent of the EU eCall. In emergencies, you should use the EU eCall in your vehicle to contact the responsible emergency call centre or, in an emergency, a corresponding emergency call is automatically triggered via the EU eCall.

1.1 Detailed description of the Service

- 1.1.1 You can trigger the service either via the Porsche Communication Management of a vehicle with Connect capabilities (hereinafter **PCM**) or via the My Porsche app. Activation can therefore be carried out by any main- or secondary user, as well as by anyone who has access to the vehicle interior. After the service has been triggered, a voice and data connection is automatically established from the vehicle to the assigned Porsche Support instance. The data sent from the vehicle to the Porsche Support instance can contain information such as the vehicle identification number (Vehicle ID), vehicle model, year of production and special equipment, vehicle location, occurrence of an accident, fuel level, tyre pressure, remaining range with the available fuel, vehicle status and error messages (hereinafter car data). The Porsche Support instance and/or a dialogue in the My Porsche App and/or in the vehicle infotainment system might ask you for your consent for calling up the vehicle identification number and/or other car data.

- 1.1.2 During the voice connection, the Porsche Support instance will ask you questions to further assess your breakdown situation. Depending on the particular breakdown situation, the Porsche Support instance can offer you various assistance options as follows:
- 1.) The Porsche Support instance can give advice on how to proceed (e.g. "Please top up oil at the nearest gas station"); and/or
 - 2.) The Porsche Support instance can analyse the received car data in more detail and try to identify the problem. The findings gathered can be passed on to the respective Porsche Centre, which enables them to prepare for the vehicle's visit to the workshop or to initiate further measures. If a problem can be solved via remote repair, the Porsche Support instance can carry this out. The prerequisite for this is the fulfilment of various problem-dependent preconditions such as: engine switched off, vehicle is stationary, engine immobiliser is active, windows are closed, no active charging process. If necessary, further car data required for this purpose are read out. In addition, it is possible that the breakdown and/or emergency call functionality will not exist or be limited during the problem solving via remote repair. Before starting to troubleshoot the problem via remote repair, the Porsche Support instance will inform you of any such preconditions and/or usage restrictions, which you must then confirm. This is only a troubleshooting attempt, so additional steps may be necessary; and/or
 - 3.) The Porsche support instance can request external support, e.g. breakdown assistance or towing of the non-functional vehicle. Your call will not be forwarded to other service providers. If your vehicle needs to be repaired, the Porsche Support instance can, subject to your prior consent, forward the car data to a Porsche Centre.
- 1.1.3 Any services provided by the Porsche Support instance after the breakdown call require a separate contract, which could result in additional costs. You can find more information about the Porsche Support instance and in particular about the service components covered by contacting your Porsche Centre or by inquiring with your support service provider "AXA Assistance Deutschland GmbH/Inter Partner Assistance SA". The Porsche Support instance can determine the Porsche Support instance status of your vehicle.
- 1.1.4 If you have access to or use third-party products or services, the contractual terms applicable to these products or services apply. PSM is not responsible for any access to or usage of these products or services.
- 1.1.5 Bitte beachten Sie, dass durch die Auslösung des Dienstes über die My Porsche App auf Ihrem Mobilgerät, abhängig von den Bedingungen des Mobilfunkvertrages, den Sie mit einem Telekommunikationsanbieter als Dritten geschlossen haben, zusätzliche Kosten entstehen können.

1.2 Restrictions on use and system restrictions

- 1.2.1 The service is provided via a telematics unit installed in the vehicle, which receives GPS satellite signals and communicates with the Porsche Support instance via wireless communication systems and communication networks. Due to the nature of the technologies used for

the functions of the service and contained in the telematics unit, the functions of the service (or parts of the service) may from time to time not be available in all parts of the contract territory of these ToU Porsche Connect Care and/or may be negatively affected by physical conditions, including but not limited to removal or tampering with the telematics unit or its antenna, electromagnetism, the vehicle being in a garage, underpass or any other location where the GPS or wireless communication networks are not available, atmospheric conditions and other causes of interference that are beyond our control (e.g. failure of GPS or communication networks). In particular, the operation of the telematics unit and thus the provision of the functions of the service in accordance with these ToU Porsche Connect Care depends on the GPS networks and the wireless and fixed communication networks used by the telematics unit being operational. Therefore, not all functions of the service are available anytime and anywhere, and there is no guarantee that all functions of the service will be operational anytime and anywhere.

- 1.2.2 The Service does not include vehicle insurance or any other insurance. Please note that you may be legally required to take out insurance; furthermore, it is your responsibility to procure further insurance protection, insofar as you consider it reasonable. The fees paid for the Service are unrelated to the value of the vehicle or any property in the vehicle, or to the cost of injury or damage that you or others may suffer.

- 1.2.3 In the event that a problem is to be solved by remote repair as per point 1.1.2. of these ToU Porsche Connect Care, the customer must give consent to the Porsche Support instance in advance.

2. Smart Service

2.1 Description

The 'Smart Service' provides predictions, particularly in the areas of the chassis, drive and batteries, and is based on ongoing evaluations of your car data. The predictions will be refined in the future through model optimisations, and/or the scope of covered maintenance and repair needs will be expanded.

The corresponding car data is automatically transmitted to the Porsche systems. You will be informed of individual maintenance and repair needs for selected vehicle components through notifications and status displays in your PCM and/or the My Porsche app. Your Porsche Centre can also retrieve this data and proactively contact you via your chosen communication channel based on this information.

2.2 Restrictions on use and system restrictions

The functionality of the Service exists only in relation to original Porsche vehicle components.

2.3 Contractual territory

Porsche Sales & Marketplace provides you with the Service in accordance with these ToU Porsche Connect Care in the following geographical areas (hereinafter referred to as **Contractual Area Smart Service**): Andorra, Belgium, Bosnia and Herzegovina, Bulgaria, Denmark, Germany, Estonia, Finland, France, Gibraltar, Greece, Great Britain, Ireland, Iceland, Italy, Croatia, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, Norway, Austria, Poland, Portugal, Romania, Sweden, Switzerland, Slovakia, Slovenia, Spain, Czech Republic, Hungary, Cyprus, Australia, Canada, China,

Hong Kong, Japan, Malaysia, Mexico, New Zealand, Singapore, South Korea, Taiwan, USA

3. Good to know – Driver's Manual

Good to know - Driver's Manual provides you with a digital version of the driver's manual for your vehicle in Porsche Communication Management (PCM). In addition to the printed Driver's Manual included with the vehicle, the service offers additional functions described in section 3.1.

3.1 Detailed description of the service

- 3.1.1. The service provides you with Driver's Manual content in text and visual form (i.e. images, interactive graphics, animations) in PCM.
- 3.1.2. Any future changes to the contents of the Driver's Manual can be downloaded and updated.
- 3.1.3. The service also provides proactive references to the Driver's Manual based on the vehicle's warning and information messages. This provides you with more detailed information on the error messages.
- 3.1.4. The service also permits device-independent and synchronous use of the digital Driver's Manual. This means that pages bookmarked and selected as favourites in the vehicle, as well as those most recently visited, are also displayed on the digital output channels of Porsche AG, depending on country (assuming online availability of the vehicle, as well as login to the output channels).
- 3.1.5. In addition, "Good to know – Driver's Manual" can also be called up via the Voice Pilot.

3.2 Use and system restrictions

The Driver's Manual content described in 3.1.1 is also available offline in PCM and the My Porsche App (download required). All other functions require a data connection. The display of Driver's Manual content in the form of additional animations is part of the Good to know – Driver's Manual Plus service, which is part of the Porsche Connect service package that can be booked separately.

4. Online Software Update

The Online Software Update is installed in your vehicle using over-the-air technology, without a workshop visit being required. Updates are downloaded in the background and can then be installed by you at any time, for example, when parking the vehicle overnight.

4.1 Detailed description

Regularly performing the updates means that the vehicle always has the latest software version. The updates are carried out in a similar manner to the update processes that you already know from other media/devices. If an update is available for your vehicle, it will be downloaded in the background. Once successfully downloaded, the update will be available for you to install in your vehicle's PCM. To start the installation, you must carry out the steps listed in the PCM (e.g. park the vehicle, switch on the handbrake, etc.). The vehicle cannot be used while the update is being carried out. You will receive a message in the PCM once the update has been successfully installed. You can deactivate and reactivate the online software update service in the My Porsche app at any time.

4.2 Use and system restrictions

The functions described in 4.1 can be accessed in the PCM at any time, provided that your vehicle has connectivity, i.e. a reliable mobile phone connection. It is not possible to install an Online Software Update if your vehicle is in private mode. Additional requirements (e.g. parking the vehicle safely or not connecting the vehicle to a

charging station) are update-specific and will be displayed in the PCM before each installation.

5. Updates

During the service package availability period, which coincides with the term of the service package contract, we will provide you with updates to at least the extent required by law, unless otherwise agreed with you in accordance with the legal requirements.

6. Usage of data

In connection with the booking of the Service Package, certain data - potentially also personal data - may be collected in order to perform the respective Service. Depending on the Service, it may, for example, be necessary for the provision of such Service to collect and process data of components (e.g. 12 V battery, wiper blades) and to analyze such data.

Porsche Sales & Marketplace may use such data - potentially in an anonymized form - for (i) the purpose of managing and improving quality, safety and security of the Service Package and/or PSM Products (including Porsche vehicles), and (ii) for other commercial purposes. The use of certain data for management purposes and to improve the quality and security of the Service Package and/or the PSM products (including Porsche vehicles) can be activated and deactivated using the corresponding functionalities in the Porsche vehicle and/or in the My Porsche app.

For the above purposes, such data may also be transferred to other Porsche entities and other third parties that are engaged by Porsche Sales & Marketplace or other Porsche entities in this context and - to the extent such data is anonymized - to other third parties.

The usage of such data will be in compliance with applicable data protection law. Where required by law, Porsche Sales & Marketplace will obtain the relevant consents. Further information can be found in the data protection and privacy information at <https://connect-store.porsche.com/si/en/t/privacy>.

7. Right of Withdrawal for Consumers

If the Customer is a consumer pursuant to Sec. 13 of the German Civil Code (*Bürgerliches Gesetzbuch*, "BGB"), he/she has a right of withdrawal for a period of 14 days in case of the conclusion of the contract. Consumer pursuant to Sec. 13 BGB means every natural person who enters into a legal transaction for purposes that predominantly are outside his/her trade, business or profession. 3 Navigation Plus

Description: With the "Navigation Plus" service, route calculation by the PCM in the vehicle is supplemented by online services.

The PCM navigation system uses current GPS data and traffic data to optimise the route to the specified destination down to the minute. Roads are shown in colour in the map display according to the traffic situation. The maps of the PCM navigation system are updated online.

The PCM navigation system can display the map in satellite view. By caching the loaded map data of the current environment of the vehicle, the satellite view is retained even if the connection is temporarily interrupted.

4 Charging Planner

4.1 Description:

The "Charging Planner" service improves the route of the PCM navigation system to achieve the shortest possible total travel time (journey time and charging stops), based on the selected destination, the remaining range, the driving profile, available real-time traffic data, as well as available charging stations and their charging capacity. Necessary charging stops are automatically planned into the itinerary.

4.2 Use restrictions:

The service does not always have precise information. As a result, information regarding charging station availability may be inaccurate.

5 Radio Plus

5.1 Description:

The "Radio Plus" service can be used to access online channels provided by radio stations. If Radio Plus is active and the reception of the radio sources FM or Digital Audio Broadcasting (DAB) is currently disrupted, the PCM automatically switches to the respective online channel from the station (if available). The service also displays metadata available via the PCM about the songs and stations you are playing.

5.2 Use restrictions:

The online and hybrid radio functions are only available in select countries. The data connection for this service requires (a) a data package (available separately from the cooperation partner in selected countries) or (b) a connection via the mobile phone connected to the PCM (tethering), with a corresponding mobile data tariff.

6 App Centre

6.1 Description:

The App Centre enables the customer to search for, download, update and manage apps. These are apps specially designed for the vehicle, and are offered and managed by either Porsche or third-party providers.

6.2 Use restrictions:

The portfolio of the App Centre has been adapted for automotive use and cannot be compared with the variety of an App Centre for smartphones. Depending on the app, the information display may be limited to the passenger-side display while driving. The app portfolio is subject to constant changes.

The data connection for this service requires (a) a data package (available separately from the cooperation partner in selected countries) or (b) a connection via the mobile phone connected to the PCM (tethering), with a corresponding mobile data tariff.

6.3 Contract territory:

Porsche Sales & Marketplace provides you with the service, subject to these ToU, in the following geographical areas (hereinafter referred to as the "Contractual Territory"): Andorra, Australia, Austria, Belgium, Bosnia and Herzegovina, Bulgaria, Canada, China, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Great Britain, Hungary, Iceland, Ireland, Italy, Japan, Latvia, Liechtenstein, Lithuania, Luxembourg, Malaysia, Malta, Mexico, Monaco, Montenegro, Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, USA.

6.4 Information about the ranking of products and recommendations:

Our app recommendations in the App Centre are updated regularly, at least every 4 weeks. Our recommendations can be randomly selected to show you as many different apps as possible from the App Centre offering, or they can be based on paid partnerships with our partners. Sponsored recommendations are marked as such.

For search queries in the App Centre, both individual apps and matching apps from predefined app categories are displayed (for example, 'Music', 'Gaming', etc.). The search is based solely on the wording of the search term entered and the results are displayed in alphabetical order.

This service is only available when the vehicle is stationary, the driver's door is closed, the ignition is switched off and the key is not in the ignition switch. Further restrictions may apply depending on country-specific regulations.

11.3 Note:

Using the unlock function when you are not present in the vehicle increases the risk of vehicle theft or theft of items in the vehicle. To prevent unauthorised use, execution of the open function therefore requires the entry of a four-digit security code. You specify the security code when you register and set up Porsche Connect for the first time. This security code can be changed at a later date in the customer profile.

12 Car Finder

12.1 Description:

It is possible to view the location and position of your vehicle remotely. The current position of the mobile device used for this function is also displayed on a map. If no current position of the vehicle is available (e.g., because it is parked in an underground car park), the last saved GPS position is used. You can deactivate the transmission of data by activating the privacy mode.

12.2 Use restrictions:

This service is only available with uninterrupted data transmission. Furthermore, this service is fully available while driving as well as when the vehicle is stationary.

13 E-Control

13.1 Description:

You can check the status of your vehicle remotely as well as start or stop the charging process as follows. You can check the connection status, the remaining charging time, and the current electric range. The electric range is indicated by a circle on the map. You also have the option of optimising the charging process of the high-voltage battery of your vehicle for a certain departure time. You can set departure timers and receive a confirmation message or push notification when events occur (for example, charging interrupted) and when an activated E-Timer has expired.

13.2 Use restrictions:

The range indicated by the circle on the map is only an estimated value. The values on the map do not reflect the actual

route distances. Therefore, in reality, locations could be beyond the electric range even if they appear within the electric range circle. This service is available exclusively for electric and hybrid vehicles.

14 Climate

14.1 Description:

You can check the status of the heating/air-conditioning system remotely, and activate or deactivate them as follows. 14.2 Use restrictions:

This service is available for electric and hybrid vehicles. The service is available for vehicles with a combustion engine equipped with a pre-heater. The service is only available when the vehicle is stationary, but the ignition may be switched on. For further information on using the pre-heater, please refer to the driver's manual for the vehicle. Further restrictions may apply as a result of country-specific regulations.

15 Car Alarm

15.1 Description:

You will receive a message or a push notification if your vehicle's anti-theft alarm is triggered. The message contains information about the triggered alarm and a time stamp.

15.2 Use restrictions:

This service can only send a message or a push notification if the vehicle is able to connect to the Porsche systems. If the anti-theft alarm is triggered, but your vehicle's control unit has no connectivity (e.g. because it is parked in an underground car park), the message or push notification will be sent as soon as a connection is available.

15.3 Note:

If the vehicle is in privacy mode, no notification will be sent in the event of an alarm.

16 Location Alarm

16.1 Description:

You can set a circular geographic boundary remotely. You will receive a notification as soon as the vehicle leaves or enters this area. You can manage up to four areas at the same time. In case of an event (leaving or entering an area), you will receive a message or a push notification, including a map showing the location where the event took place.

16.2 Use restrictions:

This service will only send a message when the ignition is on and wheel movement is detected.

17 Breakdown Call

After the "Breakdown Call" service has been triggered, the service establishes a voice and data connection to the Porsche Support instance assigned to the vehicle and transmits your vehicle location and all relevant vehicle information to the Porsche Support instance. You can use this vehicle information to personally talk to employees at the Porsche Support instance. The "Breakdown Call" service is independent of the EU eCall. In emergencies, you should use the EU eCall in your vehicle to contact the responsible emergency call centre or, in an emergency, a corresponding emergency call is automatically triggered via the EU eCall.

17.1 Description:

17.1.1

You can trigger the service either via the Porsche Communication Management of a vehicle with Connect capabilities (hereinafter **PCM**) or via the Porsche Connect app. Activation can therefore be carried out by any main- or secondary user, as well as by anyone who has access to the vehicle interior. After the service has been triggered, a voice and data connection is automatically established from the vehicle to the assigned Porsche Support instance. The data sent from the vehicle to the Porsche Support instance can contain information such as the vehicle identification number (Vehicle ID), vehicle model, year of production and special equipment, vehicle location, occurrence of an accident, fuel level, tyre pressure, remaining range with the available fuel, vehicle status and error messages (hereinafter car data). The Porsche Support instance and/or a dialogue in the My Porsche App and/or in the vehicle infotainment system might ask you for your consent for calling up the vehicle identification number and/or other car data.

17.1.2

During the voice connection, the Porsche Support instance will ask you questions to further assess your breakdown situation. Depending on the particular breakdown situation, the Porsche Support instance can offer you various assistance options as follows:

17.1.2.1

The Porsche Support instance can give advice on how to proceed (e.g. "Please top up oil at the nearest gas station"); and/or

17.1.2.2

The Porsche Support instance can analyse the received car data in more detail and try to identify the problem. The findings gathered can be passed on to the respective Porsche Centre, which enables them to prepare for the vehicle's visit to the workshop or to initiate further measures. If a problem can be solved via remote repair, the Porsche Support instance can carry this out. The prerequisite for this is the fulfilment of various problem-dependent preconditions such as: engine switched off, vehicle is stationary, engine immobiliser is active, windows are closed, no active charging process. If necessary, further car data required for this purpose are read out. In addition, it is possible that the breakdown and/or emergency call functionality will not exist or be limited during the problem solving via remote repair. Before starting to troubleshoot the problem via remote repair, the Porsche Support instance will inform you of any such preconditions and/or usage restrictions, which you must then confirm. This is only a troubleshooting attempt, so additional steps may be necessary; and/or

17.1.2.3

The Porsche support instance can request external support, e.g. breakdown assistance or towing of the non-functional vehicle. Your call will not be forwarded to other service providers. If your vehicle needs to be repaired, the Porsche Support instance can, subject to your prior consent, forward the car data to a Porsche Centre.

17.1.3

Any services provided by the Porsche Support instance after the breakdown call require a separate contract, which could result in additional costs. You can find more information about the Porsche Support instance and in particular about the service components covered by contacting your Porsche Centre or by inquiring with your support service provider "AXA Assistance Deutschland GmbH/Inter Partner Assistance SA". The Porsche Support instance can determine the Porsche Support instance status of your vehicle.

17.1.4

If you access or use third-party products or services, the terms and conditions of those products or services apply. PSM is not responsible for access to or use of these products or services.

17.1.5

Please note that triggering the service via the My Porsche app on your mobile device may incur additional costs, depending on the terms of the mobile phone contract that you have concluded with a third-party telecommunications provider.

17.2 Use restrictions:

17.2.1

The service is provided via a telematics unit installed in the vehicle, which receives GPS satellite signals and communicates with the Porsche Support instance via wireless communication systems and communication networks. Due to the nature of the technologies used for the functions of the service and contained in the telematics unit, the functions of the service (or parts of the service) may from time to time not be available in all parts of the contract territory of these ToU Porsche Connect and/or may be negatively affected by physical conditions, including but not limited to removal or tampering with the telematics unit or its antenna, electromagnetism, the vehicle being in a garage, underpass or any other location where the GPS or wireless communication networks are not available, atmospheric conditions and other causes of interference that are beyond our control (e.g. failure of GPS or communication networks). In particular, the operation of the telematics unit and thus the provision of the functions of the service in accordance with these ToU Porsche Connect depends on the GPS networks and the wireless and fixed communication networks used by the telematics unit being operational. Therefore, not all functions of the service are available anytime and anywhere, and there is no guarantee that all functions of the service will be operational anytime and anywhere.

17.2.2

The service does not include vehicle insurance or any other insurance. Please note that you may be required by law to have insurance; furthermore, it is your responsibility to arrange for such other insurance cover as you deem reasonable. The fees paid for the service are unrelated to the value of the vehicle or any property in the vehicle, or the cost of any injury or damage suffered by you or others.

17.2.3

In the event that a problem is to be solved by remote repair as per point 18.1.2.2 of these ToU Porsche Connect, the customer must give consent to the Porsche Support instance in advance.

18 Smart Service

18.1 Description:

The 'Smart Service' provides predictions, particularly in the areas of the chassis, drive and batteries, and is based on ongoing evaluations of your car data. The predictions will be refined in the future through model optimisations, and/or the scope of covered maintenance and repair needs will be expanded.

The corresponding car data is automatically transmitted to the Porsche systems. You will be informed of individual maintenance and repair needs for selected vehicle components through notifications and status displays in your PCM and/or the My Porsche app. Your Porsche Centre can also retrieve this data and proactively contact you via your chosen communication channel based on this information.

18.2 Use restrictions:

The functionality of the service is limited exclusively to original Porsche vehicle components.

18.3 Contract territory:

Porsche Sales & Marketplace provides you with the service, subject to these ToU Porsche Connect, in the following geographical areas (hereinafter referred to as the Smart Service contract territory): Andorra, Belgium, Bosnia and Herzegovina, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Great Britain, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, USA.

19 Good to know – Driver's Manual

Good to know - Driver's Manual provides you with a digital version of the driver's manual for your vehicle in Porsche Communication Management (PCM). In addition to the printed Driver's Manual included with the vehicle, the service offers additional functions described in paragraph 20.1.

19.1 Description:

19.1.1

The service provides you with Driver's Manual content in text and visual form (i.e. images, interactive graphics, animations) in PCM.

19.1.2

Any future changes to the contents of the Driver's Manual can be downloaded and updated.

19.1.3

The service also provides proactive references to the Driver's Manual based on the vehicle's warning and information messages. This provides you with more detailed information on the error messages.

19.1.4

The service also permits device-independent and synchronous use of the digital Driver's Manual. This means that pages bookmarked and selected as favourites in the vehicle, as well as those most recently visited, are also displayed on the digital output channels of Porsche AG, depending on the country (assuming online availability of the vehicle, as well as login to the output channels).

19.1.5

In addition, "Good to know – Driver's Manual" can also be called up via the Voice Pilot.

19.2 Use restrictions:

The Driver's Manual content described in 20.1.1 is also available offline in PCM and the My Porsche App (download required). All other functions require a data connection.

20 Updates

During the Service Package availability period, which coincides with the term of the Service Package contract, we will provide you with updates to at least the extent required by law, unless otherwise agreed with you in accordance with the legal requirements.

21 Usage of Data

In connection with booking the Service Package, certain data, which possibly includes personal data, can be collected in order to fulfil the respective service. Depending on the service, it may be necessary, for example, to collect, store and analyse data about components (e.g. 12 V battery, wiper blades) in order to provide the service.

Porsche Sales & Marketplace may use this data – possibly in anonymised form – for (i) the management and improvement of the quality and safety of the Service Package and/or PSM products (including Porsche vehicles) and (ii) other commercial purposes. The use of certain data for management purposes

and to improve the quality and security of the Service Package and/or the PSM products (including Porsche vehicles) can be activated and deactivated using the corresponding functionalities in the Porsche vehicle and/or in the My Porsche app.

For the aforementioned purposes, this data can also be passed on to other Porsche companies and other third parties commissioned by Porsche Sales & Marketplace or other Porsche companies in this context and – if this data is anonymised – disclosed to third parties.

The use of data as described takes place in accordance with the applicable data protection regulations. To the extent required by law, Porsche Sales & Marketplace will obtain the appropriate consent. Further information can be found in the data privacy policy at <https://connect-store.porsche.com/si/en/t/privacy>.
